

Redragon M913

Redragon M913 Impact Elite Wireless Gaming Mouse

USER INSTRUCTION MANUAL

PRODUCT OVERVIEW

The Redragon M913 Impact Elite is a versatile gaming mouse designed for optimal performance and customization. It offers dual-mode connectivity (2.4Ghz wireless and USB-C wired), a high-precision optical sensor, and extensive programmable buttons to enhance your gaming experience.

- **Wireless/Wired Dual Modes:** Seamlessly switch between 2.4Ghz wireless and USB-C wired connections.
- **High-Precision Sensor:** Equipped with an improved Optical Pixart 3335 gaming sensor for instantaneous click/swipe registration within 1ms.
- **Extended Battery Life:** Enjoy up to 45 hours with backlighting on, or up to 80 hours in Eco mode.
- **Customizable DPI:** Five onboard DPI levels (1000/2000/4000/8000/16000) with personalizable adjustments.
- **Programmable Buttons:** 16 customizable buttons, including 12 side buttons, for personalized keybinding and macros.
- **Dynamic RGB Lighting:** 16.8 million color lighting effects, fully customizable via software.

SETUP GUIDE

Connecting Your Mouse

The Redragon M913 Impact Elite offers two connection methods: 2.4Ghz wireless and USB-C wired.

2.4Ghz Wireless Connection:

1. Locate the USB receiver (dongle) for the mouse. It is typically stored in a compartment on the underside of the mouse.
2. Plug the USB receiver into an available USB port on your computer.
3. Turn on the mouse using the power switch located on the underside.
4. The mouse should automatically connect to your computer. If not, ensure the mouse is charged and the

receiver is properly inserted.

USB-C Wired Connection:

1. Connect the provided USB-C cable to the port on the front of the mouse.
2. Connect the other end of the USB-C cable to an available USB port on your computer.
3. The mouse will function immediately in wired mode and will also charge its internal battery.

OPERATING INSTRUCTIONS

DPI Adjustment

The mouse features 5 onboard DPI levels that can be cycled through using the dedicated DPI buttons (usually located near the scroll wheel). You can also fine-tune DPI settings via the Redragon software.

- Default DPI Levels: 1000 / 2000 / 4000 / 8000 / 16000
- Use the DPI +/- buttons to switch between levels.

Programmable Buttons

The M913 Impact Elite boasts 16 programmable buttons, including 12 side buttons, allowing for extensive customization of commands and macros.

- Install the official Redragon software to access full customization options.
- Assign single keys, macros, or multimedia functions to any of the 16 buttons.
- Create and save multiple profiles for different games or applications.

12 Side Buttons for Easy- Access Shortcuts

RGB Lighting Control

Customize the mouse's 16.8 million color RGB lighting effects to match your setup or mood.

- Use the Redragon software to select from various lighting modes (e.g., breathing, rainbow, static) and adjust brightness and speed.
- Some basic lighting adjustments may be available directly on the mouse.

Battery Management

The M913 Impact Elite features a long-lasting battery for extended use.

- Battery life is approximately 45 hours with backlighting ON, and up to 80 hours in Eco mode (backlighting OFF).
- Charge the mouse via the USB-C wired connection.
- Monitor battery status through the Redragon software.

Ultra-Durable 45 Hours Battery Life

MAINTENANCE

Cleaning Your Mouse

To ensure optimal performance and longevity, regularly clean your mouse.

- Use a soft, dry cloth to wipe down the surface of the mouse.
- For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid harsh chemicals.
- Use a cotton swab or compressed air to clean around buttons and the scroll wheel.
- Keep the optical sensor on the underside clean and free of debris.

Adjustable Weights

The Redragon M913 allows for weight adjustment to suit your preference.

- Locate the weight compartment on the underside of the mouse.
- Carefully open the compartment to access the removable weights.
- Add or remove weights as desired to achieve your preferred mouse feel and balance.
- Close the compartment securely after adjustment.

TROUBLESHOOTING

Common Issues and Solutions:

- **Mouse not responding:**
 - Ensure the mouse is powered on.
 - Check the USB receiver connection to your computer. Try a different USB port.
 - If using wired mode, ensure the USB-C cable is securely connected to both the mouse and the

computer.

- Charge the mouse battery if it's low.

- **Cursor erratic or not moving smoothly:**

- Clean the optical sensor on the underside of the mouse.
- Ensure you are using the mouse on a suitable surface (e.g., a mouse pad).
- Adjust DPI settings to a comfortable level.

- **Programmable buttons not working:**

- Ensure the Redragon software is installed and running.
- Verify that the buttons are correctly configured in the software profiles.
- Try resetting the mouse settings to default via the software.

- **RGB lighting not functioning:**

- Check lighting settings in the Redragon software.
- Ensure the mouse is not in Eco mode, which typically turns off lighting.
