mDesign Plastic Stackable Closet Organizer Bin with Pull-Out Drawer Instruction Manual

Model: 11856MDCOEU

1. PRODUCT OVERVIEW

The mDesign Plastic Stackable Closet Organizer Bin with Pull-Out Drawer is designed to provide efficient and visible storage for various household items. Its clear construction allows for easy identification of contents, and the stackable design maximizes vertical storage space in closets, pantries, and other areas. This product is suitable for organizing shoes, clothing, accessories, and small linens.

2. SAFETY INFORMATION

- Ensure the bins are placed on a stable, level surface to prevent tipping, especially when stacked.
- Do not overload the drawers, as this may affect the smooth operation of the pull-out mechanism and compromise the structural integrity of the bin.
- Keep away from direct heat sources to prevent material deformation.
- This product is made of plastic and is not intended for use with extremely heavy or sharp objects that could cause damage.

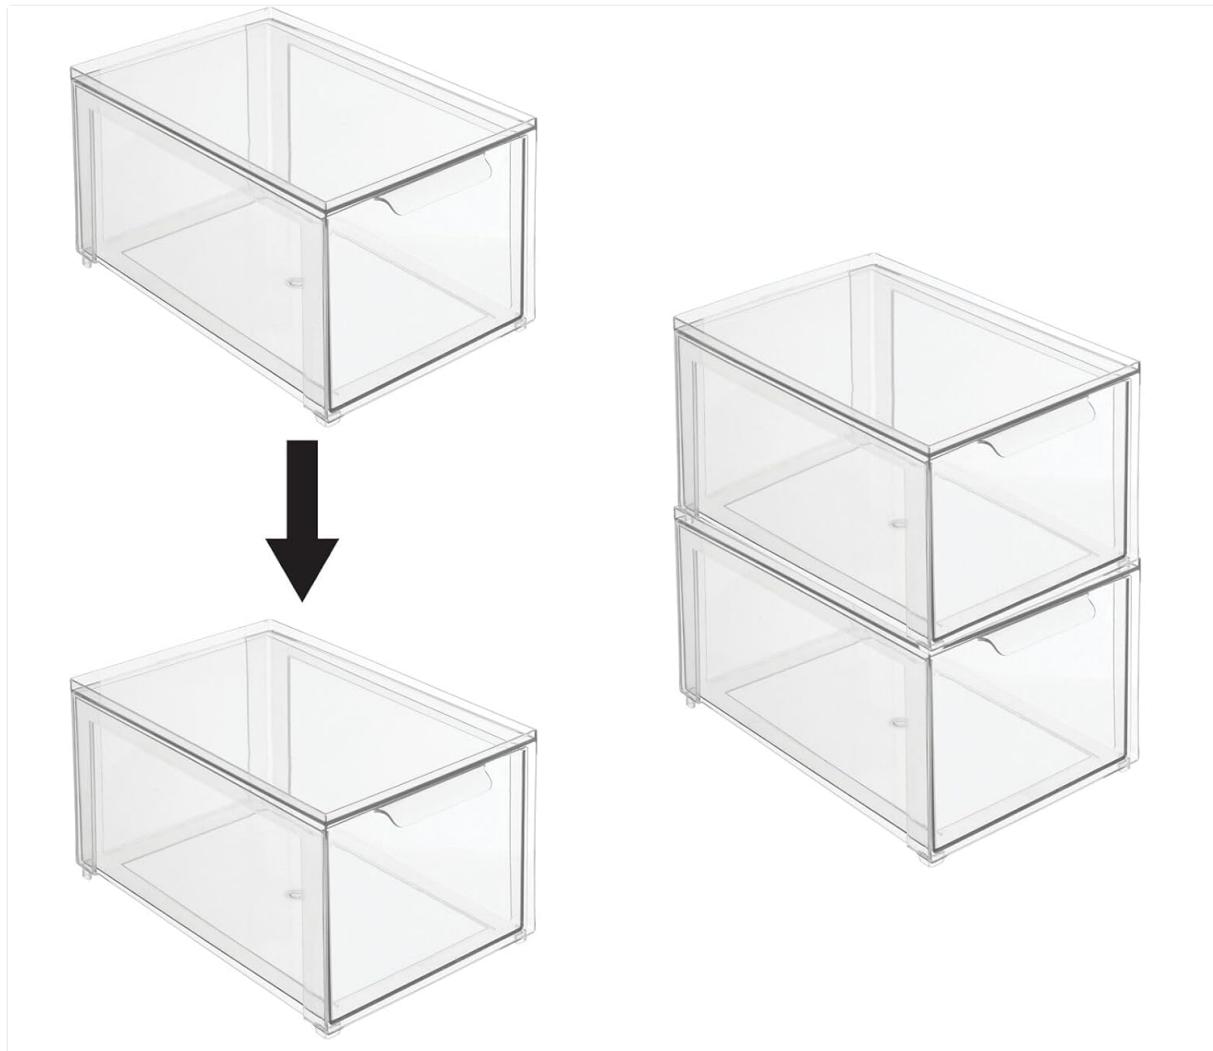

3. SETUP

The mDesign organizer bins are designed for immediate use with no assembly required. Simply remove them from the packaging.

3.1 Stacking Multiple Units

To maximize storage space, multiple units can be stacked securely. The design features interlocking

elements that ensure stability when stacked vertically.

5. MAINTENANCE

To maintain the clarity and integrity of your mDesign organizer bins, follow these cleaning instructions:

- Clean with mild soap and water.
- Use a soft cloth or sponge to wipe surfaces.
- Rinse thoroughly with clean water.
- Air dry or wipe dry with a soft, lint-free cloth.
- **Do not place in dishwasher.** High temperatures can cause warping or damage to the plastic.

6. TROUBLESHOOTING

6.1 Drawer Sticking

If a drawer becomes difficult to pull out or push in, check the following:

- **Overload:** Ensure the drawer is not overloaded with items. Remove some contents to see if the

issue resolves.

- **Alignment:** Verify that the bin is placed on a flat, stable surface. Uneven surfaces can cause slight warping or misalignment of the drawer.
- **Obstructions:** Check for any small items or debris that may be lodged in the drawer tracks.
- **Damage:** Inspect the drawer and tracks for any visible damage or cracks. If damaged, contact customer support.
