Shadowhawk X800

Shadowhawk X800 LED Ultra Bright Tactical Flashlight

Model: X800

INTRODUCTION

Thank you for choosing the Shadowhawk X800 LED Ultra Bright Tactical Flashlight. This manual provides essential information for the safe and efficient use of your new flashlight. Please read it thoroughly before operation and retain it for future reference.

The Shadowhawk X800 flashlight provides powerful illumination for various outdoor activities.

SAFETY INFORMATION

- **Do not** look directly into the LED light when it is on. The high intensity light can cause temporary vision impairment or permanent eye damage.
- Keep out of reach of children.

- Use only the specified rechargeable battery and charger provided. Using incompatible components may cause damage or fire.
- Do not disassemble the flashlight head or body, as this may damage the internal components and void the warranty.
- Ensure the battery is inserted with the correct polarity (+/-).
- This flashlight is designed to be water-resistant (IP65 rated) and can withstand temporary immersion. However, it is not intended for prolonged underwater use.

PACKAGE CONTENTS

Verify that all items are present in your package:

- 1x Shadowhawk X800 LED Tactical Flashlight
- 1x Shadowhawk Rechargeable Lithium-ion Battery
- 1x Fast Charger
- 1x Flashlight Case
- 1x Battery Holder (for AAA batteries, AAA batteries not included)
- 1x Battery Tube (for 18650 battery, if applicable)
- 1x User Manual
- 1x Keychain LED Light (bonus item)

The Shadowhawk X800 package includes the flashlight, rechargeable battery, charger, and accessories.

SETUP

Battery Installation

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Insert the provided Shadowhawk rechargeable lithium-ion battery with the positive (+) end facing towards the flashlight head (towards the LED).
3. Alternatively, if using AAA batteries (not included), place three AAA batteries into the battery holder, then insert the holder into the flashlight with the positive (+) end facing the flashlight head.
4. Screw the tail cap back on clockwise until it is securely tightened.

OPERATING INSTRUCTIONS

Power On/Off

Press the power button located on the tail cap to turn the flashlight ON or OFF.

Modes of Operation

The Shadowhawk X800 features 5 useful lighting modes:

- **High:** Maximum brightness for powerful illumination.
- **Medium:** Balanced brightness for general use.
- **Low:** Reduced brightness for extended runtime or close-range tasks.
- **Strobe:** Flashing light for signaling or disorientation.
- **SOS:** International Morse code signal for emergencies.

To cycle through the modes, lightly press the power button (half-press) while the flashlight is ON. A full press will turn the flashlight off. After a few minutes of inactivity, the flashlight will reset to the High mode upon the next full power-on.

The Shadowhawk X800 offers five distinct lighting modes for various situations.

Zoom Function

The flashlight features an adjustable zoom function to switch between a wide floodlight and a focused spotlight beam.

- To widen the beam (floodlight), pull the head of the flashlight outwards.
- To narrow the beam (spotlight), push the head of the flashlight inwards.

Agrandir

DeZoomer

Adjust the flashlight head to switch between a wide floodlight and a focused spotlight.

CHARGING THE BATTERY

The included Shadowhawk lithium-ion battery is rechargeable. Follow these steps to charge it:

1. Remove the rechargeable battery from the flashlight.
2. Insert the battery into the provided fast charger. Ensure correct polarity.
3. Plug the charger into a standard wall outlet.
4. The charging indicator light on the charger will be **red** during charging.
5. Once fully charged (approximately 5 hours), the indicator light will turn **green**.
6. Remove the battery from the charger and store it safely or reinsert it into the flashlight.

PREMIUM BATTERIE

La lampe de poche rechargeable a été complètement améliorée pour réduire le temps de charge, et le temps de travail est jusqu'à **12 heures**.

Charge the Shadowhawk battery using the provided charger until the indicator turns green.

MAINTENANCE

- **Cleaning:** Wipe the flashlight body with a clean, soft cloth. Do not use abrasive cleaners or solvents.
- **Lubrication:** Periodically apply silicone grease to the O-rings and screw threads to maintain water resistance and smooth operation.
- **Battery Care:** If the flashlight will not be used for an extended period, remove the battery to prevent leakage. Store batteries in a cool, dry place.
- **Water Resistance:** The flashlight is IP65 rated for water resistance. Ensure the tail cap is fully tightened to maintain this protection. Avoid prolonged submersion.

IP65 Étanche

Imperméable Protection Anti-salissures
contre la neige Anti-sable

The Shadowhawk X800 is designed to be water-resistant, suitable for use in various weather conditions.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is dead or incorrectly inserted.	Charge the battery or reinsert it with correct polarity.
Light is dim or flickers.	Low battery power. Loose connections.	Recharge the battery. Ensure tail cap and head are tightened.
Cannot change modes.	Button not pressed correctly.	Ensure a light half-press for mode cycling.
Zoom function is stiff.	Lack of lubrication or dirt.	Clean the zoom mechanism and apply silicone grease.

SPECIFICATIONS

Feature	Detail
Model Number	X800
