SETUP INSTRUCTIONS

1. Speaker Placement

Optimal speaker placement is crucial for an immersive 5.1 surround sound experience. Consider the layout of your room and seating position.

- **Sound Bar:** Place the 32-inch sound bar directly below your TV, centered.
- **Front Left & Right Satellite Speakers:** Position these speakers to the left and right of your TV, at approximately ear level when seated.
- **Surround Left & Right Satellite Speakers:** Place these speakers to the sides or slightly behind your main listening position, also at ear level.
- **Subwoofer:** The subwoofer can be placed on the floor, ideally in a corner or near a wall for enhanced bass response.

Image: Diagram illustrating optimal 5.1 channel speaker placement for surround sound.

2. Connecting Speakers

This system uses wired connections for all speakers to the main unit (subwoofer/sound bar).

1. **Connect Satellite Speakers:** Use the provided RCA stereo audio cables to connect the four satellite speakers to the corresponding ports on the subwoofer and sound bar. Ensure color-matching (e.g., red to red, white to white) for correct channel assignment.
2. **Connect Subwoofer:** The subwoofer is typically connected to the sound bar via a dedicated cable (if not integrated). Ensure all speaker wires are securely connected.

3. Power Connection

Connect the AC/DC power adapter to the main unit (sound bar or subwoofer, as indicated in your specific setup) and then plug it into a wall outlet.

4. Connecting to Your TV

The iLive 5.1 Home Theater System offers multiple ways to connect to your TV. Choose the method that best suits your TV's available ports.

- **Optical Audio Cable (Recommended):** For high-quality digital audio, connect one end of the optical audio cable to your TV's Optical Digital Audio Out port and the other end to the OPTICAL IN port on the sound bar.
- **3.5mm to RCA Audio Cable:** Connect the 3.5mm end to your TV's headphone jack or audio out port, and the RCA ends to the AUX IN ports on the sound bar.
- **RCA Stereo Audio Cables:** Use the provided RCA cables to connect your TV's audio output (usually red and white ports) to the corresponding AUX IN ports on the sound bar.

CONNECTION CENTRAL

Make all your media more immersive

OPERATING INSTRUCTIONS

1. Power On/Off

Press the Power button on the sound bar or the remote control to turn the system on or off. The LED indicator will illuminate when the system is powered on.

2. Volume Control

Use the Volume Up (+) and Volume Down (-) buttons on the sound bar or the remote control to adjust the master volume. The system also features individual volume control for the subwoofer and satellite speakers via the remote control.

3. Input Selection

Press the Input/Source button on the sound bar or the remote control to cycle through available input sources (e.g., Optical, AUX, Bluetooth).

4. Bluetooth Pairing

To connect a Bluetooth-enabled device:

1. Select Bluetooth input mode on the sound bar. The system will enter pairing mode, indicated by a flashing LED. Voice prompts will assist with pairing.
2. On your mobile device, enable Bluetooth and search for
