## 5. OPERATING INSTRUCTIONS

The chairs feature an adjustable design with a gas lift mechanism for reclining the backrest and footrest.

### 1. To Recline the Chair:

## 6. MAINTENANCE

---

Proper care will extend the life and appearance of your vidaXL reclining chairs.

- **Cleaning the Rattan:** The weather-resistant woven resin is easy to clean. Wipe down with a damp cloth and mild soap solution. Rinse with clean water and allow to air dry. Avoid harsh chemicals or abrasive cleaners.

- **Cushion Care:** The cushions are designed for outdoor use. Spot clean with a mild detergent and water. For deeper cleaning, refer to the care label on the cushion cover. Store cushions indoors during inclement weather or prolonged periods of non-use to prevent fading and mildew.

- **Frame Care:** The powder-coated steel frames are rust-resistant. If scratches occur, touch up with appropriate outdoor paint to prevent rust.
- **Winter Storage:** During winter months or extended periods of non-use, it is recommended to store the chairs in a dry, sheltered area or cover them with protective outdoor furniture covers.

## 7. TROUBLESHOOTING

---

- **Chair feels wobbly after assembly:**

Ensure all bolts and screws are fully tightened. If the issue persists, disassemble and reassemble, ensuring all parts are correctly aligned before tightening.
- **Reclining mechanism is stiff or not working smoothly:**

Check for any obstructions in the mechanism. Ensure no parts are bent or damaged. A small amount of silicone-based lubricant can be applied to moving parts if necessary, avoiding contact with rattan or cushions.
- **Rattan appears discolored or faded:**

Prolonged exposure to direct sunlight can cause some fading over time. Regular cleaning and storing the chairs in shaded areas or covering them when not in use can help mitigate this.
