De'Longhi ECAM22112B

De'Longhi Magnifica S ECAM22112B Fully Automatic Espresso Coffee Machine User Manual

Model: ECAM22112B | Brand: De'Longhi

1. Introduction

Thank you for choosing the De'Longhi Magnifica S ECAM22112B Fully Automatic Espresso Coffee Machine. This appliance is designed to bring the authentic taste of Italian espresso and coffee beverages directly to your home. By automatically grinding fresh beans, tamping them perfectly, and extracting coffee at optimal pressure, it ensures a rich and aromatic experience with every cup. This manual provides essential information for safe operation, maintenance, and troubleshooting to help you get the most out of your machine.

The De'Longhi Magnifica S ECAM22112B, a fully automatic espresso machine in black, shown with a glass of iced coffee. This model is designed for ease of use, delivering authentic coffee from freshly ground beans.

2. Safety Information

Please read all safety instructions carefully before using the appliance. Keep this manual in a safe place for future reference.

- Ensure the voltage indicated on the appliance corresponds to your mains voltage.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Keep the appliance out of reach of children.
- Unplug the appliance from the mains socket when not in use and before cleaning.
- Do not operate the appliance if it has a damaged cord or plug, or if it malfunctions or has been damaged in any way.
- Use only original spare parts and accessories recommended by the manufacturer.

3. Package Contents

Verify that all items are present in the package:

- De'Longhi Magnifica S ECAM22112B Coffee Machine
- Measuring spoon
- Cleaning brush
- Water hardness test strip
- Descaler solution
- Quick start guide

4. Product Overview

Familiarize yourself with the main components of your coffee machine.

Control Panel

The intuitive control panel allows you to select your desired beverage, adjust settings, and monitor the machine's status.

The control panel provides options to customize your coffee by adjusting the bean quantity (strength), water volume (extraction amount), and extraction temperature to suit your personal taste.

Key Components

- **Bean Container:** For whole coffee beans.
- **Water Tank:** Removable for easy refilling.

- **Coffee Spouts:** Adjustable height for various cup sizes.
- **Manual Milk Frother:** For steaming milk for cappuccinos and lattes.
- **Drip Tray:** Collects excess water and coffee drips.
- **Grounds Container:** Collects used coffee grounds.

5. Initial Setup

Follow these steps before first use or after a long period of inactivity.

1. **Unpacking:** Remove all packaging materials from the appliance.
2. **Placement:** Place the machine on a stable, level surface away from water splashes and heat sources.
3. **Water Tank:** Remove the water tank, rinse it, and fill it with fresh water up to the MAX level. Reinsert the tank.
4. **Bean Container:** Fill the bean container with fresh coffee beans.
5. **Power Connection:** Plug the appliance into a suitable power outlet.
6. **First Rinse Cycle:** The machine will perform an automatic rinse cycle. Follow any on-screen prompts or indicator lights.

6. Operating Instructions

6.1 Making Coffee

The Magnifica S offers a fully automatic process for brewing fresh coffee.

This diagram outlines the six-step automatic coffee preparation process: 1. Bean and water measurement, 2. Bean grinding, 3. Extraction, 4. Dispensing into cup, 5. Disposal of coffee grounds, and 6. Internal cleaning after power off.

1. Ensure the water tank is filled and the bean container has enough beans.
2. Place one or two cups under the coffee spouts. Adjust the spout height if necessary.
3. Select your desired coffee beverage (e.g., Espresso, Cafe Japone) from the control panel.
4. The machine will automatically grind the beans, tamp them, and extract the coffee.
5. Your coffee is now ready.

6.2 Cafe Japone Function

The 'Cafe Japone' function is specially designed to produce a deep-steamed regular coffee, combining the richness of espresso with a clean, refreshing aftertaste.

The De'Longhi Magnifica S offers two main coffee menus: Espresso and Cafe Japone. Cafe Japone is a deep-steamed regular coffee, customized for Japanese preferences, combining the richness of espresso with a clean aftertaste.

6.3 Using the Manual Milk Frother

To prepare milk-based beverages like cappuccinos or lattes:

1. Prepare your espresso shot first.
2. Fill a milk jug with cold milk (dairy or plant-based).
3. Turn the steam knob to activate the frother.
4. Immerse the frother nozzle into the milk and move the jug to create desired foam texture.
5. Add the frothed milk to your espresso.

The integrated manual milk frother allows users to easily create fine, smooth foam for lattes, cappuccinos, and other milk-based coffee beverages at home.

6.4 Customizing Your Coffee

You can adjust various settings to personalize your coffee:

- **Coffee Strength:** Adjust the amount of coffee beans ground per cup.
- **Coffee Volume:** Adjust the amount of water used for extraction.
- **Temperature:** Select your preferred brewing temperature.

7. Maintenance

Regular cleaning and maintenance are crucial for optimal performance and longevity of your machine.

7.1 Daily Cleaning

- **Drip Tray and Grounds Container:** Empty and rinse daily.
- **Water Tank:** Rinse and refill with fresh water daily.
- **Coffee Spouts:** Wipe clean with a damp cloth.

- **Milk Frother:** After each use, purge steam and wipe the nozzle clean.

7.2 Weekly Cleaning

- **Infuser Unit:** The infuser unit is removable for easy cleaning. Remove it and rinse under running water. Allow it to air dry before reinserting.

7.3 Descaling

The machine will indicate when descaling is required. Use the provided De'Longhi descaler solution and follow the instructions in the quick start guide or on the descaler packaging. Regular descaling prevents limescale buildup and ensures proper machine function.

8. Troubleshooting

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
No coffee dispensed	Water tank empty; coffee beans empty; infuser clogged.	Fill water tank; fill bean container; clean infuser unit.
Coffee is too weak/strong	Incorrect coffee strength setting; incorrect grind setting.	Adjust coffee strength on control panel; adjust grind setting (refer to quick start guide).
Milk frother not producing foam	Frother nozzle clogged; milk not cold enough.	Clean frother nozzle; use fresh, cold milk.
Machine leaks water	Water tank not inserted correctly; drip tray full.	Ensure water tank is properly seated; empty drip tray.

9. Specifications

Technical details of the De'Longhi Magnifica S ECAM22112B.
