Ronson Ronsonol Lighter Fuel

Ronsonol Lighter Fuel User Manual

Model: Ronsonol Lighter Fuel

1. INTRODUCTION

Thank you for choosing Ronsonol Lighter Fuel. This product is designed for use with all wick lighters, providing instant ignition and reliable performance. It is also known for its effectiveness in removing sticky residues from various surfaces.

Image: Ronsonol Lighter Fuel 12 oz bottles. This product is suitable for all wick lighters.

2. PRODUCT FEATURES

- Comes in a convenient pack of two 12 fluid ounce bottles.
- Specifically formulated for use with all types of wick lighters.
- Contains light petroleum distillate for clean and efficient burning.
- Ensures instant ignition for quick and easy use.
- Proudly Made in USA.

3. SETUP

Before using Ronsonol Lighter Fuel, ensure you are in a well-ventilated area, away from open flames or ignition sources. The bottle features a child-resistant cap that also serves as a precise dispenser.

3.1 Opening the Fuel Bottle

1. Locate the red cap on the Ronsonol bottle.
2. To open, you may need to use a small tool, such as a knife or a flat-head screwdriver, to gently pry up the white nozzle from under the red cap.
3. Once the nozzle is lifted, the bottle is ready for dispensing.

4. OPERATING INSTRUCTIONS

4.1 Refilling a Wick Lighter

1. Carefully remove the inner unit from your wick lighter casing.
2. Lift the felt pad at the bottom of the inner unit to expose the packing material.
3. Slowly and carefully apply Ronsonol Lighter Fuel directly onto the packing material. Do not overfill; stop when the packing material appears saturated.
4. Allow a few moments for the fuel to absorb.
5. Insert the inner unit back into the lighter casing.
6. Wipe off any excess fuel from the lighter and your hands before attempting to ignite.

4.2 Other Uses (Residue Removal)

Ronsonol Lighter Fuel can also be used as an effective solvent for removing sticky residues, such as those left by stickers or tape. Apply a small amount to a clean cloth and gently rub the affected area until the residue is gone. Test on an inconspicuous area first to ensure compatibility with the surface material.

5. MAINTENANCE

To ensure the longevity and safety of your Ronsonol Lighter Fuel, store it in a cool, dry place, away from direct sunlight and heat sources. Keep the cap tightly closed when not in use to prevent evaporation and maintain fuel quality. Always store out of reach of children and pets.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lighter not igniting after refilling.	Insufficient fuel, worn wick, or faulty flint.	Ensure adequate fuel saturation. Check and replace wick or flint if necessary.
Fuel evaporates quickly.	Lighter not sealed properly, or fuel bottle cap is loose.	Ensure lighter is closed securely. Tighten the cap on the Ronsonol bottle after each use.
Residue remains after cleaning.	Not enough fuel applied, or residue is stubborn.	Apply more fuel to the cloth and allow it to soak into the residue for a moment before rubbing. Repeat if necessary.

7. SAFETY INFORMATION

DANGER: FLAMMABLE. HARMFUL OR FATAL IF SWALLOWED. READ CAUTION STATEMENT CAREFULLY.

Keep away from heat, sparks, open flames, and hot surfaces. No smoking. Use only outdoors or in a well-ventilated area. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Take precautionary measures against static discharge. Wear protective gloves/protective clothing/eye protection/face protection. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting. Store in a well-ventilated place. Keep cool. Dispose of contents/container in accordance with local/regional/national/international regulations.
