### 3. Audio Configuration (Windows Example)

- Right-click the speaker icon in your system tray (bottom-right corner of the screen).
- Select "Sound settings" or "Open Sound settings".
- Under "Output", select "KROM KAPPA Headset" as your output device.
- Under "Input", select "KROM KAPPA Microphone" as your input device.
- Adjust the volume levels as desired.

## OPERATING INSTRUCTIONS

---

### 1. Adjusting the Headset

The KROM KAPPA headset features an adjustable headband. Gently slide the earcups up or down along the headband to achieve a comfortable and secure fit. The earcups are designed to sit over your ears for optimal sound isolation and comfort.

### 3. Volume Control

The headset is equipped with an inline volume control dial, typically located on the left earcup or cable. Rotate the dial to increase or decrease the audio output volume.

## MAINTENANCE AND CARE

---

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or kinks in the USB cable to prevent damage. Do not pull the cable to disconnect the headset; always grasp the USB connector.

- **Microphone Care:** Handle the flexible microphone gently. Avoid excessive bending or twisting.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from headset	Headset not properly connected. Incorrect audio output device selected. Volume too low or muted.	Ensure USB connector is fully inserted. Verify "KROM KAPPA Headset" is selected as the default output device in your PC's sound settings. Increase volume using the inline control or PC's system volume.
Microphone not working	Microphone muted in software. Incorrect audio input device selected. Microphone not positioned correctly.	Check in-game or communication software settings for microphone mute. Verify "KROM KAPPA Microphone" is selected as the default input device in your PC's sound settings. Adjust microphone position closer to your mouth.
RGB lighting not working	Headset not receiving power. USB connection issue.	Ensure headset is properly connected to a powered USB port. Try a different USB port.
