SETUP INSTRUCTIONS

1. **Verify Compatibility:** Ensure your device requires a power input compatible with this adapter (Sony DPF-HD800 B or DPF-HD700 B Digital Photo Frame).
2. **Connect to Device:** Insert the barrel connector end of the adapter cable firmly into the power input port of your digital photo frame.
3. **Connect to Power Outlet:** Plug the AC prongs of the adapter into a standard AC 100-240V wall outlet.
4. **Power On Device:** Once connected, your digital photo frame should receive power. Refer to your device's manual for specific power-on procedures.

device.

- Verify that the barrel connector is fully inserted into your digital photo frame's power port.
- Confirm that your digital photo frame is compatible with this adapter model (Sony DPF-HD800 B or DPF-HD700 B).
- Check the adapter cable for any visible damage. If damaged, discontinue use and replace the adapter.

- **Intermittent Power:**

- Ensure all connections are stable and not loose.
- Avoid bending or stressing the cable at the connector points.

If issues persist after performing these checks, contact the manufacturer for further assistance.
