HDMI ARC Connection (Recommended)

- Connect one end of the HDMI cable (included) to the HDMI ARC port on the soundbar.
- Connect the other end to the HDMI ARC port on your TV.
- Ensure your TV's HDMI ARC function is enabled in its settings. This allows you to control the soundbar volume with your TV remote.

Optical Connection

- Connect one end of the Optical cable (included) to the OPTICAL port on the soundbar.
- Connect the other end to the Optical Digital Audio Out port on your TV or audio source.
- Ensure your TV's audio output is set to 'PCM' format, as some TVs may default to other formats incompatible with optical input.

AUX Connection

- Connect one end of the RCA to 3.5mm audio cable (included) to the AUX port on the soundbar.
- Connect the RCA ends to the corresponding audio output ports (usually red and white) on your TV or audio source.

Bluetooth Connection

- Power on the soundbar and select 'Bluetooth' input mode using the remote or side buttons. The LED display will show 'BT'.
- Enable Bluetooth on your smartphone or other device.
- Search for 'VMAI Soundbar' in the list of available devices and select it to pair.
- Once paired, the soundbar will indicate a successful connection, and you can play audio wirelessly.

USB (Flash Drive) Connection

- Insert a USB flash drive containing MP3 audio files into the USB port on the soundbar.
- The soundbar will automatically switch to USB mode and begin playing the audio files.
