Active Era AB-S3-K3-K04

Active Era Luxury Queen Camping Air Mattress

MODEL: AB-S3-K3-K04

Brand: Active Era

1. Introduction

Thank you for choosing the Active Era Luxury Queen Camping Air Mattress. This manual provides essential information for the safe and efficient use of your air mattress. Please read it thoroughly before first use and retain it for future reference.

2. Safety Information

WARNING: Ensure proper inflation and deflation to prevent damage or injury. Use with caution to avoid suffocation risks, especially for children. Follow weight limit guidelines for safe use.

- Do not overinflate the mattress.
- Keep sharp objects away from the mattress surface.
- Do not use the mattress near open flames or heat sources.
- Ensure the pump is switched off and unplugged when not in use.
- Maximum weight capacity: Refer to product specifications.

3. Package Contents

Your Active Era Luxury Queen Camping Air Mattress package includes:

- Active Era Luxury Queen Camping Air Mattress with Built-in Pump
- USB Rechargeable Pump (if not integrated)
- Three Nozzle Attachments (for external pump)
- Travel Bag
- Puncture Repair Kit

The Active Era Luxury Queen Camping Air Mattress comes with a built-in pump and a convenient travel bag for easy transport and storage.

4. Setup Instructions

- 1. Unpack and Unfold:** Remove the air mattress from its travel bag and unfold it on a clean, flat surface. Ensure there are no sharp objects underneath or around the mattress.
- 2. Locate the Built-in Pump:** The mattress features a built-in electric pump. Open the compartment cover to access the pump and its power cord.
- 3. Connect Power:** Plug the power cord into a suitable power outlet.
- 4. Inflate the Mattress:** Turn the pump dial to the 'Inflate' position. The mattress will begin to inflate automatically.
- 5. Monitor Inflation:** Allow the mattress to inflate to your desired firmness. The Queen size mattress typically inflates in less than 2 minutes.
- 6. Initial Stretching:** It is normal for the air bed to sag slightly during its first few uses as the material stretches to its natural shape. Inflate your air bed at least 30 minutes prior to first use and top up as required.

Quick Inflation Anywhere

Quickly inflate your mattress anywhere with a powerful **USB rechargeable pump**, complete with three nozzle attachments.*

Inflate your mattress quickly using the powerful USB rechargeable pump and its three included nozzle attachments. A power pack is not included.

Video demonstrating the inflation process of the Active Era air mattress, highlighting the ease of use of the built-in pump.

5. Operating Instructions

The Active Era air mattress is designed for comfort and convenience, featuring both an electric pump and a manual foot pump.

Using the Built-in Electric Pump:

- Inflation:** Plug in the mattress and turn the dial to 'Inflate'. The pump will automatically inflate the mattress. Turn the dial to 'Off' once desired firmness is reached.
- Deflation:** To deflate, turn the pump dial to 'Deflate'. The pump will actively remove air from the mattress, making it easier to fold and store. Turn the dial to 'Off' once deflated.

Using the Manual Foot Pump:

A manual foot pump is integrated into the mattress, allowing for inflation without an external power source. Simply press down on the foot pump repeatedly to add air. This is ideal for topping up the mattress or for

use in areas without electricity.

Full Body Support

The 8 wave beams provide full body support to ensure you wake up refreshed every time.

The mattress includes a built-in foot pump for manual inflation and a two-way air valve for quick inflation and deflation.

Bed-Like Comfort

Perfect as a temporary sleeping option or hosting guests.

Outdoors

Indoors

The internal wave beam structure provides full body support for comfortable sleep.

6. Maintenance

Cleaning:

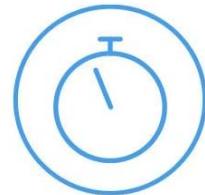

To clean your Active Era air mattress, simply use soapy water or a damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the material.

Storage:

After deflating the mattress completely, fold and roll it neatly. Store the deflated air bed in the provided carrying bag. Keep it in a cool, dry place away from direct sunlight and extreme temperatures.

Inflated & Deflated

Covered with a thick multi-layered waterproof flock for luxurious bed-like comfort.

Inflated:

90.5"

59"

The Queen size mattress measures 90.5 x 59 inches when inflated and packs down to 18 x 22 inches in its carry bag.

Portable & Easy to Store

Pack up in minutes and take it away with you in the lightweight travel bag.

The lightweight design and included travel bag allow for easy storage in tight spaces, such as a drawer.

Puncture Repair:

If your air bed experiences a puncture, use the provided repair kit. Visually inspect the air bed to locate the puncture. Wipe clean the area around the puncture. Apply the adhesive sticker, covering the puncture. Allow 12 hours before using the mattress again.

This video provides tips for handling air bed deflation, including allowing time for stretching, understanding temperature effects, and repairing punctures with the provided kit.

7. Troubleshooting

If you experience issues with your Active Era air mattress, consider the following:

- **Mattress Sagging/Deflation:** It is normal for new air beds to sag slightly during their first few uses as the material stretches. Simply top up the air as needed. Additionally, varying temperatures can cause the air inside the mattress to contract, leading to a sensation of deflation. Pump more air into the bed to rectify this.
- **Slow Inflation/Deflation:** Ensure the pump's air intake/output is not obstructed. Check that the power

cord is securely connected.

- **Puncture:** If the mattress is deflating rapidly, check for punctures and repair using the provided kit as described in the Maintenance section.
