MVMT 28000017-D

MVMT Field Qtz Basic Calendar Analog Watch User Manual

Model: 28000017-D

INTRODUCTION

Thank you for choosing the MVMT Field Qtz Basic Calendar Analog Watch. This manual provides essential information for the proper setup, operation, and maintenance of your timepiece. Designed for durability and style, this watch features a black round dial, a khaki canvas strap, and a reliable quartz movement with a date window.

Your MVMT Field Qtz watch is built for adventure, featuring a 100-meter water resistance rating and ultra-resistant K1 mineral glass for enhanced durability.

SETUP

Setting the Time

1. Pull the crown out to position 2 (the outermost position).
2. Rotate the crown clockwise or counter-clockwise to move the hour and minute hands to the desired time.
3. Push the crown back into position 0 (normal operating position) to start the watch.

Setting the Date

1. Pull the crown out to position 1 (the first click).
2. Rotate the crown clockwise to adjust the date. Avoid setting the date between 9:00 PM and 3:00 AM, as this can interfere with the date change mechanism. If the current time falls within this period, first set the time outside this range, then set the date, and finally reset the correct time.
3. Once the correct date is displayed, push the crown back into position 0.

This image displays the front of the MVMT Field Qtz watch, highlighting its black dial with clear hour markers and hands, and the khaki canvas strap.

OPERATING YOUR WATCH

Your MVMT Field Qtz watch is powered by a reliable quartz movement, requiring minimal interaction beyond initial setup. The watch operates continuously once the time is set and the crown is pushed back into position 0.

Water Resistance

- This watch is water resistant up to 10 BAR (100 meters).
- It is suitable for everyday use, including light rain, splashes, and swimming.
- Avoid operating the crown while the watch is wet or submerged to prevent water intrusion.
- Not suitable for diving or high-pressure water activities.

A person's wrist wearing the MVMT Field Qtz watch is visible, set against a scenic outdoor backdrop of a forest, demonstrating its suitability for adventure.

MAINTENANCE

General Care

- Clean your watch regularly with a soft, dry cloth to remove dust and dirt.
- For the canvas strap, a damp cloth with mild soap can be used for spot cleaning, then allow it to air dry completely.
- Avoid exposing the watch to extreme temperatures, direct sunlight for prolonged periods, or strong magnetic fields.
- Ensure the crown is always pushed in completely to maintain water resistance.

Battery Replacement

The watch is powered by a Lithium Ion battery (Silver Oxide cell composition). When the watch stops or the second hand begins to jump erratically (indicating low battery), it is time for a battery replacement. It is recommended to have the battery replaced by a qualified watch technician to ensure proper sealing and maintain water resistance.

The back of the MVMT Field Qtz watch is shown, featuring the case back and the durable khaki canvas strap with its black buckle.

TROUBLESHOOTING

- **Watch not running:** Ensure the crown is fully pushed into position 0. If it still doesn't run, the battery may need replacement.
- **Date not changing:** Check if the date is being set between 9:00 PM and 3:00 AM. Adjust the time first, then the date.

- **Condensation under crystal:** This may indicate a loss of water resistance. Avoid further contact with water and have the watch inspected by a professional.
- **Inaccurate timekeeping:** A weak battery or exposure to strong magnetic fields can affect accuracy. Replace the battery or consult a technician.

SPECIFICATIONS

Brand	MVMT
Model Number	28000017-D
Display Type	Analog
Power Source	Battery Powered
Battery Type	1 Lithium Ion (Silver Oxide)
Special Features	Date window
Water Resistance	10 BAR (100 Meters)
Glass Material	Hardened Mineral Crystal (K1)
Strap Material	Khaki Canvas
Product Dimensions	2.2 x 4.1 x 1 cm
Item Weight	54 g

WARRANTY

Your MVMT Field Qtz watch comes with a **two-year guarantee** from the date of purchase. This warranty covers manufacturing defects under normal use. It does not cover damage resulting from improper handling, accidents, unauthorized repairs, or normal wear and tear of the strap or battery.

Please retain your proof of purchase for any warranty claims.

SUPPORT

For further assistance, technical support, or warranty claims, please visit the official MVMT website or contact their customer service department. You can also refer to the retailer where the watch was purchased.
