Giga Pet Virtual Pet User Manual

Your guide to caring for your digital companion.

INTRODUCTION TO YOUR GIGA PET

Welcome to the world of Giga Pets! This upgraded collector's edition brings back the beloved virtual pet experience from the 90s, now featuring two unique pets in one device: the classic CompuKitty and the mystical StarCat. This manual will guide you through setting up, operating, and caring for your new digital companion.

Whether you choose the attention-loving CompuKitty or the laid-back StarCat, prepare for hours of interactive fun as you feed, play with, and nurture your pet to help it grow and evolve.

SETUP AND INITIAL POWER ON

1. Battery Installation

Your Giga Pet requires standard batteries (not included). To install:

1. Locate the battery compartment on the back of the device.
2. Using a small Phillips head screwdriver, carefully open the battery cover.
3. Insert the required batteries, ensuring correct polarity (+/-).
4. Replace the battery cover and secure it with the screw.

2. Initial Power On and Time Setting

Once batteries are installed, your Giga Pet will power on. You may need to set the current time and date. Use the **MODE** and **ENTER** buttons to navigate and confirm your selections. The device features a low battery warning to alert you when it's time for a change.

OPERATING YOUR GIGA PET

Your Giga Pet offers a variety of interactions to keep your virtual companion happy and healthy. Use the **LEFT**, **MODE**, **ENTER**, and **RIGHT** buttons to navigate through the menus and perform actions.

Basic Care Functions:

- **Feed:** Provide food to keep your pet's hunger satisfied. Different food items may have different effects.
- **Play:** Engage in various games with your pet to boost its happiness and train it. There are 4 different games available.
- **Clean:** Ensure your pet's environment is clean to prevent illness.
- **Vet:** If your pet becomes sick, take it to the virtual vet for treatment.
- **Train:** Teach your pet tricks and improve its discipline.

Consistent care is key to your pet's development. The more you interact and care for your Giga Pet, the more it will grow and potentially unlock secret evolutions.

Real Kitty Sounds!

The advertisement features a central image of the Giga Pet device, a yellow and orange handheld toy with a screen and buttons. The screen displays a pixelated cat and various icons. Surrounding the device are several small images showing different activities and growth stages of the virtual pet, such as playing, eating, and growing larger. The background is a vibrant pink and blue gradient.

UNDERSTANDING YOUR PET: COMPUKITTY VS. STARCAT

Your Giga Pet device offers two distinct virtual pets, each with its own personality and play style:

- **CompuKitty:** This pet features the exact software code from the original 1997 release, including all classic animations and sound effects. CompuKitty requires consistent attention and care, making it ideal for players seeking a more challenging experience.
- **StarCat:** A new addition, StarCat is a more laid-back feline, perfect for beginners. When kept happy and healthy, StarCat possesses unique abilities, including answering questions about the future and reading the stars. Once a day, StarCat may reveal a fortune symbol. Refer to the included booklet for more details on interpreting these symbols.

The image shows the product packaging for GigaPets, which includes two virtual pets: StarCat and CompuKitty. The packaging is colorful and features a large screen displaying the virtual pets. A girl is shown holding the device, smiling. The text on the packaging includes "5+", "25th Anniversary", "Includes 2 Pets!", "Real Kitty Sounds", "The StarCat Magically Predicts Your Future", and "The Original CompuKitty from the 90s". The GigaPets logo is prominently displayed in the top right corner.

2 Pets in 1 Device!

StarCat is a laid-back feline and is perfect for beginners while CompuKitty loves attention and is great for players that are looking for a challenge.

MAINTENANCE AND CARE

To ensure the longevity of your Giga Pet, follow these maintenance guidelines:

- Keep the device clean by wiping it with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Do not expose the device to extreme temperatures, direct sunlight for prolonged periods, or moisture.
- When not in use for extended periods, remove the batteries to prevent leakage.
- Handle the device with care to avoid dropping it or subjecting it to strong impacts.

TROUBLESHOOTING

If you encounter any issues with your Giga Pet, try the following steps:

- **Screen is blank or unresponsive:**
 - Check the batteries. Replace them if they are low or depleted.
 - Ensure batteries are inserted with correct polarity.

- Try removing and reinserting the batteries to perform a soft reset.

- **Pet is not growing or evolving:**

- Ensure you are consistently feeding, playing with, and cleaning your pet.
- Some evolutions require specific conditions or a certain level of care over time.

- **No sound:**

- Check if the sound is turned off in the settings menu.
- Ensure batteries are not low.

If problems persist, please refer to the support section for contact information.
