PACKAGE CONTENTS

- Macally Wireless Bluetooth Mouse
- 2 AAA batteries
- User Manual (this document)

PRODUCT FEATURES

- **Slim and Comfortable Design:** An ultra-thin, ambidextrous design suitable for both right- and left-handed users.
- **Strong Bluetooth Connection:** Provides reliable wireless connectivity up to 30 feet (9 meters).
- **Long Battery Life:** Operates on two AAA batteries (included), offering up to 3 months of average daily use.
- **Quiet Clicking:** Features noise-reducing silicone membranes for up to 90% quieter clicks (scroll wheel excluded).
- **Adjustable DPI:** Three DPI modes (800, 1200, 1600) allow for customized cursor sensitivity.
- **Wide Compatibility:** Seamlessly pairs with Bluetooth-enabled Mac, MacBook Pro/Air, iPad, and PC

devices.

Slim and Comfortable.

At only 1" thin the ambidextrous design will fit perfectly in your palm

Quiet Click Buttons.

Work in peace, each click provides 90% less noise than traditional mouse buttons

Image: A hand demonstrating the quiet click buttons of the mouse.

SETUP INSTRUCTIONS

1. **Install Batteries:** Open the battery compartment on the underside of the mouse. Insert the two AAA batteries, ensuring correct polarity. Close the compartment.
2. **Power On:** Locate the On/Off switch on the bottom of the mouse and slide it to the 'On' position.
3. **Enter Pairing Mode:** Press and hold the scroll wheel button and the right-click button simultaneously for 2-3 seconds until the LED indicator on the mouse begins to flash, indicating it is in pairing mode.
4. **Connect via Bluetooth:**
 - **For Mac/iPad:** Go to System Preferences > Bluetooth (or Settings > Bluetooth on iPad). Ensure Bluetooth is enabled. Select 'Macally Bluetooth Mouse' from the list of available devices and click 'Connect'.
 - **For PC:** Go to Settings > Devices > Bluetooth & other devices. Ensure Bluetooth is enabled. Click 'Add Bluetooth or other device' and select 'Bluetooth'. Choose 'Macally Bluetooth Mouse' from the list and follow any on-screen prompts.
5. **Confirmation:** The LED indicator on the mouse will stop flashing and remain solid for a few seconds, then turn off, indicating a successful connection.

Bluetooth Connectivity.

An easy pairing process with a wireless range of 30ft, no drivers or additional software needed

OPERATING INSTRUCTIONS

The Macally Wireless Bluetooth Mouse features a standard 3-button layout with a scroll wheel for intuitive navigation.

- **Left Click:** Primary selection and activation.
- **Right Click:** Accesses contextual menus.
- **Scroll Wheel:** Scrolls through documents and web pages. Can also be clicked for middle-button functionality (if supported by your operating system).

DPI ADJUSTMENT

The mouse allows you to adjust cursor sensitivity (DPI) to match your preference or task requirements. There are three preset DPI levels: 800, 1200, and 1600.

1. Locate the DPI switch button, typically a small button positioned behind the scroll wheel.
2. Press the DPI switch button to cycle through the available sensitivity settings. Each press will change the DPI level.
3. Observe the cursor movement on your screen to determine the desired sensitivity.

Fine Tune Your Sensitivity.

Adjust your cursor feel with the touch of a button

3 DPI modes – **800dpi** – **1200dpi** – **1600dpi**

BATTERY REPLACEMENT

When the mouse's performance degrades or it stops responding, it may be time to replace the batteries.

1. Turn the mouse over and locate the battery compartment cover.
2. Slide the cover open.
3. Remove the old AAA batteries.
4. Insert two new AAA batteries, ensuring they are placed with the correct positive (+) and negative (-) terminals as indicated inside the compartment.
5. Close the battery compartment cover securely.
6. Turn the mouse back on.

TROUBLESHOOTING

| Problem | Solution |
|--|--|
| Mouse not connecting/pairing | <ul style="list-style-type: none">◦ Ensure the mouse is powered on and batteries are correctly installed.◦ Verify Bluetooth is enabled on your device.◦ Put the mouse into pairing mode (hold scroll wheel + right-click button).◦ Remove any previous pairings of the mouse from your device's Bluetooth settings and try pairing again.◦ Move the mouse closer to your device. |
| Cursor movement is erratic or unresponsive | <ul style="list-style-type: none">◦ Check battery level and replace if necessary.◦ Ensure the optical sensor on the bottom of the mouse is clean and free of obstructions.◦ Use the mouse on a suitable surface (not highly reflective or transparent).◦ Try adjusting the DPI setting. |
| Mouse disconnects frequently | <ul style="list-style-type: none">◦ Ensure there are no strong wireless interference sources nearby (e.g., Wi-Fi routers, other Bluetooth devices).◦ Keep the mouse within the 30-foot operating range of your device.◦ Check battery level. |
