SupplySource DOD VOFX G10 D3 D6 D12

SupplySource 9V AC/AC Adapter Charger User Manual

For DOD VOFX G10 D3 D6 D12 Power Supply Cable Cord PSU

PRODUCT OVERVIEW

This manual provides essential instructions for the safe and effective use of your SupplySource 9V AC/AC Adapter Charger. This adapter is designed to provide power to compatible devices such as the DOD VOFX, G10, D3, D6, and D12 models. Please read this manual thoroughly before use.

Figure 1: SupplySource 9V AC/AC Adapter Charger. A black 9V AC/AC adapter charger with a standard US two-prong plug and a barrel connector cable. The adapter unit is rectangular with ventilation grilles on the sides and a label indicating model, input, and output specifications.

SETUP

1. **Verify Compatibility:** Before connecting, ensure that the AC output voltage and the tip size of this adapter are compatible with your device (e.g., DOD VOFX, G10, D3, D6, D12). This adapter provides 9V AC output.
2. **Power Source:** Connect the adapter's two-prong plug into a standard 110V AC wall outlet. Ensure the outlet is easily accessible.
3. **Device Connection:** Insert the barrel connector end of the adapter cable firmly into the power input port of your compatible device.
4. **Initial Check:** Once connected, power on your device to confirm proper operation.

OPERATING GUIDELINES

- **Intended Use:** This adapter is designed for powering compatible electronic devices requiring a 9V AC power supply. It is an AC to AC adapter, not AC to DC.
- **Ventilation:** When using the adapter for extended periods, ensure it is placed in a well-ventilated area. Avoid covering the adapter or placing it on heat-sensitive surfaces.
- **Environmental Conditions:** Operate the adapter in an environment with suitable humidity. Do not expose it to excessive moisture or extreme temperatures.

- **Disconnection:** Always disconnect the adapter from the wall outlet when not in use for prolonged periods or during electrical storms.

MAINTENANCE

- **Cleaning:** Disconnect the adapter from the power source and device before cleaning. Use a dry, soft cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and moisture when not in use. Avoid tightly coiling the cable to prevent damage.
- **Inspection:** Periodically inspect the adapter and cable for any signs of damage, such as frayed wires or cracked casing. If damage is observed, discontinue use immediately.

TROUBLESHOOTING

- **Device Not Powering On:**
 - Ensure the adapter is securely plugged into a working 110V AC outlet.
 - Verify that the barrel connector is fully inserted into your device's power port.
 - Confirm that your device requires a 9V AC power supply and that the adapter's tip size matches. This adapter is AC to AC, not AC to DC.
 - Check for any visible damage to the adapter or cable.
- **Adapter Overheating:**
 - Ensure the adapter is in a well-ventilated area and not covered.
 - Disconnect the adapter and allow it to cool down. If overheating persists, discontinue use.

SAFETY INFORMATION

The SupplySource 9V AC/AC Adapter Charger is manufactured with high-quality materials and incorporates multiple safety features to protect both the adapter and your connected devices. These features include:

- **Incorrect Voltage Protection (IV):** Safeguards against incorrect voltage input.
- **Short Circuit Protection (SC):** Prevents damage from short circuits.
- **Internal Overheating Protection (IO):** Protects against excessive internal temperatures.
- **Over Charge Protection:** Prevents overcharging of compatible devices.
- **Over Voltage Protection:** Protects against voltage spikes.
- **Over Current Protection:** Safeguards against excessive current flow.

This charger is certified with CE and FCC standards, ensuring compliance with safety and quality regulations.

Icons and text indicate Over Charge Protection, Over Voltage Protection, Short-circuit Protection, Over Current Protection, Over Temp Protection, and a 24 Months Warranty. The adapter itself is shown from a slightly different angle, emphasizing its robust design.

SPECIFICATIONS

Brand	SupplySource
Input Voltage	110V AC (50-60Hz)
Output Voltage	9V AC
Connector Type	Barrel Connector
Compatible Devices	DOD VOFX, G10, D3, D6, D12 (devices requiring 9V AC)
Material	Metal, Plastic
Certifications	CE, FCC

WARRANTY AND SUPPORT

This SupplySource adapter comes with a **24-month warranty**, as indicated by the manufacturer. For any questions, concerns, or support needs regarding your product, please contact the seller directly.

How to Contact Support:

1. Log in to your account where you purchased the product.
2. Locate your order for this adapter.
3. Click on the "Problem with this order?" button.
4. Select the "Contact Seller" button to send an e-mail message.

The seller aims to resolve any issues within 24 hours. Your patience and support are appreciated. Additionally, a 30-day return policy for refunds or replacements may apply, subject to the retailer's terms.
