Indian Handicrafts Gonesh Incense Sticks User Manual

Model: K-20849

1. Product Overview

The Indian Handicrafts Gonesh Stick Envision Paradise incense is designed to provide a clean and aromatic experience for your home. Each set includes 8 packs, with 20 sticks per pack, totaling 160 incense sticks. The scent is described as "Envision Paradise". These incense sticks are made from high-quality raw materials, featuring a significant charcoal content for a clean burn.

2. Safety Information

- Always burn incense in a well-ventilated area.
- Place incense sticks on a heat-resistant, non-flammable surface or an appropriate incense holder.
- Keep burning incense away from flammable materials, curtains, and other combustible items.
- Do not leave burning incense unattended.
- Keep out of reach of children and pets.
- Ensure the ash falls onto a safe surface and is contained.

3. Setup

1. **Unpack:** Carefully remove the desired number of incense sticks from their packaging.

2. **Choose a Holder:** Select a suitable incense holder that can safely catch all falling ash. Ensure the holder is placed on a stable, heat-resistant surface.
3. **Placement:** Position the incense holder in a well-ventilated room, away from drafts, open windows, or air conditioning vents that could cause rapid burning or uneven distribution of smoke.

4. Operating Instructions

1. **Light the Tip:** Hold the coated end of the incense stick at a slight angle and light the tip with a match or lighter.
2. **Allow to Ignite:** Let the flame burn for a few seconds until the tip glows red.
3. **Extinguish Flame:** Gently blow out the flame. A thin trail of smoke should rise from the tip, indicating that the incense is smoldering correctly.
4. **Place in Holder:** Carefully place the smoldering incense stick into your chosen incense holder.
5. **Enjoy:** The incense stick will slowly burn, releasing its fragrance into the air.

5. Maintenance and Storage

- **Storage:** Store unused incense sticks in their original packaging or an airtight container in a cool, dry place away from direct sunlight and moisture. This helps preserve their fragrance and ensures a consistent burn.
- **Ash Disposal:** After the incense stick has completely burned out and cooled, carefully dispose of the ash. Ensure no embers remain before discarding.
- **Holder Cleaning:** Regularly clean your incense holder to remove accumulated ash and residue. This prevents buildup and maintains hygiene.

6. Troubleshooting

Problem	Possible Cause	Solution
Incense stick won't stay lit.	Insufficient ignition; dampness; strong draft.	Ensure the tip glows red before extinguishing the flame. Store in a dry place. Move away from drafts.
Uneven burning or excessive smoke.	Drafts; improper placement in holder.	Burn in a still environment. Ensure the stick is upright and stable in the holder.
Weak or no fragrance.	Old or improperly stored incense; large room size.	Ensure proper storage. Consider burning multiple sticks for larger spaces.
