Setup Instructions

Headphone Stand Setup

1. Connect the provided USB cable to the stand's USB-C port (if applicable, or micro-USB) and plug the other end into a USB port on your computer or a compatible power adapter.
2. Place the headphone stand on a stable, flat surface.
3. Utilize the integrated cable management hooks on the stand to organize the USB cable for a tidy setup.

HOOK

Help to organize the cable

Headset Connection

1. Connect the 3.5mm audio jack from the Havit TH650A headset to the 3.5mm audio port on your computer, gaming console controller, or the headphone stand (if it has an audio pass-through).
2. If your computer has separate audio and microphone jacks, use the included Y-splitter cable. Plug the headset's 3.5mm jack into the splitter, then plug the green splitter jack into your computer's audio output and the pink splitter jack into your computer's microphone input.
3. For RGB lighting on the headset, ensure the headset's USB connector is plugged into a powered USB port (e.g., on your computer or the headphone stand).

Operating Instructions

Headset Usage

Adjust the headband for a comfortable fit. Position the microphone close to your mouth for optimal voice clarity.

Use the in-line volume control wheel to adjust audio levels. The microphone can be muted using the dedicated switch on the headset cable.

Headphone Stand Features

The two USB 2.0 ports on the stand can be used to connect other peripherals like a mouse or keyboard, or to charge small devices.

The integrated phone holder provides a convenient place to rest your smartphone.

RGB Lighting Control

Headset RGB

The headset's RGB lighting activates automatically when its USB connector is plugged into a powered USB port. The lighting cycles through various colors.

Stand RGB

The headphone stand features a dedicated LED light switch. Press this button to cycle through 7 different RGB lighting modes, including multi-color flowing and single-color breathing effects. Press and hold the button to turn the RGB lighting off.

Close-up of the headphone stand's base, showing the RGB light switch and different color options.

Maintenance

To ensure longevity and optimal performance, keep the headset and stand clean and free from dust.

Use a soft, dry cloth to wipe down surfaces. Avoid using harsh chemicals or abrasive materials.

Store the headset on the stand when not in use to prevent damage and keep your desk organized.

Troubleshooting

No Sound from Headset

- Ensure the 3.5mm audio jack is fully inserted into the correct port.
- Check your device's audio settings to confirm the Havit TH650A is selected as the output device and volume is not muted.
- If using the Y-splitter, ensure both jacks are correctly plugged into their respective ports.

Microphone Not Working

- Verify the microphone mute switch on the headset cable is in the "unmuted" position.
- Check your device's sound settings to ensure the Havit TH650A microphone is selected as the input device and its volume is not muted.

RGB Lights Not Working

- For the headset, ensure its USB connector is securely plugged into a powered USB port.
- For the stand, ensure its main USB cable is connected to a powered USB port. Press the LED light switch on the stand to cycle through modes or turn it on.

USB Ports on Stand Not Functioning

- Ensure the stand's main USB cable is properly connected to a powered USB 2.0 or 3.0 port on your computer.
- Some devices may require additional power; ensure the connected USB port provides sufficient power.
