

KAFF HBR 783B

KAFF HBR 783 Built-in Hob Instruction Manual

Model: HBR 783B

1. INTRODUCTION

Thank you for choosing the KAFF HBR 783 Built-in Hob. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your new appliance. Please read these instructions carefully before use and retain them for future reference.

2. SAFETY INFORMATION

WARNING: Improper installation, adjustment, alteration, service, or maintenance can cause injury or property damage. Refer to this manual. For assistance or additional information, consult a qualified installer, service agency, or the gas supplier.

- Ensure adequate ventilation in the kitchen area.
- Do not store flammable materials near the hob.
- Keep children away from the appliance during operation.
- Do not use abrasive cleaners or sharp objects on the glass surface.
- Always turn off the gas supply to the appliance when not in use or during maintenance.
- If you smell gas, immediately turn off the gas supply, open windows, and do not operate any electrical switches. Contact your gas supplier or fire department.

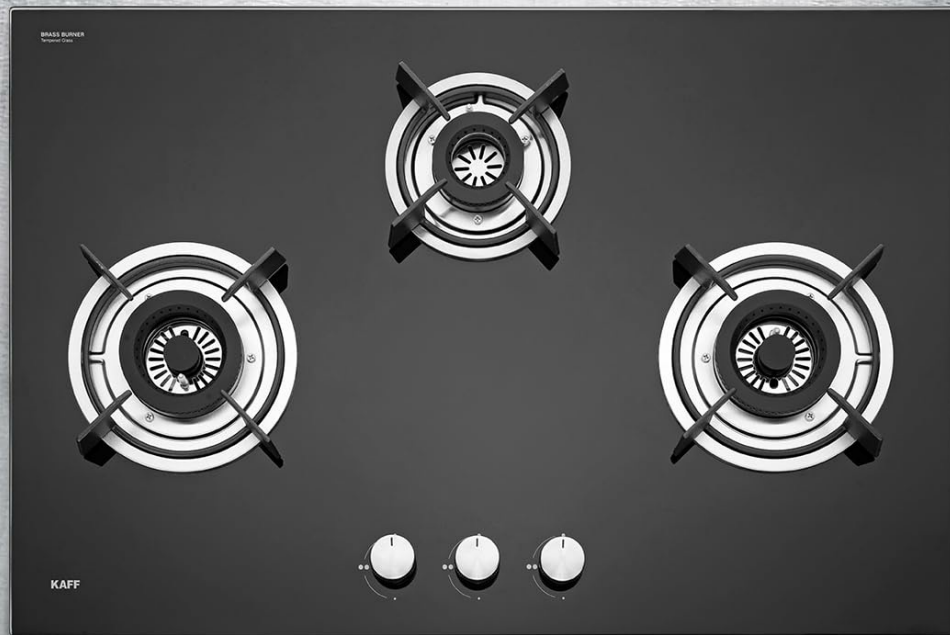

3. PRODUCT OVERVIEW

The KAFF HBR 783 is a 78 CM built-in hob featuring three high-efficiency brass burners, an 8 mm thick black tempered glass surface, and automatic electric ignition. It is designed for seamless integration into your kitchen countertop.

Key Features:

- **Type:** Built-in Hob / Hobtop
- **Size:** 78 CM
- **Ignition Type:** Automatic Electric Ignition
- **Glass Type:** 8 mm Bevelled Black Tempered Glass
- **Pan Support:** Matt Enameled Pan Support

- **Burners:** 3 Brass Burners (2 Triple Ring, 1 Dual Ring) with high efficiency and black coating.
- **Drip Tray:** Stainless Steel
- **Controls:** Ergonomic Easy Grip Metal Knobs

Installation Steps (Summary - Refer to detailed installation guide for full instructions):

1. Prepare the countertop cutout according to the specified inner cutting dimensions.
2. Ensure proper ventilation and clearance around the hob.
3. Connect the gas supply line to the hob's inlet, ensuring all connections are secure and leak-free.
4. Connect the electrical supply for the auto-ignition system (230 Volts).
5. Carefully place the hob into the cutout, ensuring it is level and securely seated.
6. Test all burners for proper ignition and flame stability.

5. OPERATING INSTRUCTIONS

Your KAFF HBR 783 hob features ergonomic metal knobs for precise flame control and an automatic electric ignition system for convenience.

Ergonomic Easy Grip **Metal Knob**

Figure 5.1: Close-up of the control knobs on the KAFF HBR 783 Built-in Hob.

To Ignite a Burner:

1. Push down the desired control knob and turn it counter-clockwise to the 'Ignite' position (usually marked with a spark symbol or maximum flame).
2. Hold the knob down for a few seconds until the burner ignites. The automatic electric ignition will generate sparks.
3. Once ignited, release the knob and adjust the flame to your desired cooking level by turning the knob further counter-clockwise for a lower flame or clockwise for a higher flame.
4. If the burner does not ignite within 10 seconds, release the knob, wait for one minute, and try again.

To Turn Off a Burner:

- Turn the control knob clockwise until it reaches the 'Off' position. Ensure the flame is completely extinguished.

6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your hob.

General Cleaning:

- Always ensure the hob is cool before cleaning.
- Use a soft cloth and mild detergent for the black tempered glass surface. Avoid abrasive cleaners or scouring pads.
- The enamelled matt pan supports and brass burners can be removed for cleaning. Wash them with warm soapy water and dry thoroughly before placing them back.
- Clean the stainless steel drip tray regularly to prevent food buildup.

Burner Maintenance:

- Keep the burner ports clean and free from food debris to ensure an even flame. Use a soft brush or a needle to clear any blockages.
- Ensure the burner caps and rings are correctly positioned after cleaning to prevent uneven flames or ignition issues.

7. TROUBLESHOOTING

If you encounter issues with your hob, refer to the following common troubleshooting steps. For persistent problems, contact customer support.

Problem	Possible Cause	Solution
Burner does not ignite	No gas supply, power outage, clogged burner ports, wet burner components.	Check gas supply, ensure power is on, clean burner ports, dry burner components thoroughly.
Uneven flame	Clogged burner ports, improperly seated burner cap.	Clean burner ports, ensure burner cap is correctly positioned.
Gas smell	Gas leak.	Immediately turn off gas supply, ventilate the area, and contact a qualified technician or gas supplier.
