Bagtecs SX45

Bagtecs SX45 Waterproof Motorcycle Saddle Bag

Model: SX45 | Brand: Bagtecs

1. INTRODUCTION

Thank you for choosing the Bagtecs SX45 Waterproof Motorcycle Saddle Bag. This manual provides essential information for the safe and effective use of your new motorcycle luggage. The SX45 is designed for motorcycle use, offering a 45-liter capacity and waterproof protection for your belongings with its roll-top closure system. Please read these instructions carefully before installation and use.

2. SAFETY INSTRUCTIONS

- **Secure Attachment:** Always ensure the bag is securely fastened to your motorcycle. Loose luggage can

shift during riding, affecting stability and potentially causing an accident.

- **Weight Distribution:** Distribute weight evenly within the bag. Avoid placing heavy items on one side.
- **Load Limits:** Do not overload the bag. Refer to your motorcycle's manual for maximum load capacity.
- **Clearance:** Ensure the bag does not interfere with the motorcycle's moving parts, exhaust system, lights, turn signals, or rider/passenger comfort.
- **Regular Checks:** Periodically check the straps and buckles for tightness, especially during long rides or after riding on rough terrain.
- **Visibility:** The bag is black. Consider adding reflective elements if riding in low-light conditions. The bag includes reflective accents for improved visibility.
- **Waterproof Closure:** For optimal waterproofing, ensure the roll-top closure is rolled down at least three times and secured with the buckles.

3. PACKAGE CONTENTS

Upon unpacking, please verify that all components are present and undamaged:

- 1 x Bagtecs SX45 Waterproof Motorcycle Saddle Bag (45 Liters)
- Set of mounting straps for seat attachment
- 1 x Removable shoulder strap

4. SETUP AND INSTALLATION

The Bagtecs SX45 is designed for seat mounting. Follow these steps for secure installation:

1. **Positioning:** Place the saddle bag on the passenger seat or rear rack of your motorcycle. Ensure the two main compartments sit over the sides of the seat/rack, and the central section rests on top.
2. **Attaching Main Straps:** Locate the primary mounting straps. These typically loop around the motorcycle's frame, passenger grab handles, or a secure part of the rear subframe. Thread the straps through the D-rings or attachment points on the bag.
3. **Securing Buckles:** Connect the buckles and tighten the straps evenly. Ensure the bag is centered and does not shift from side to side.
4. **Additional Securing Points:** Utilize any additional straps or loops on the bag to further secure it to your motorcycle, preventing movement during acceleration or braking.
5. **Final Check:** Before riding, firmly pull on the bag in all directions to confirm it is stable and cannot easily move. Re-check all strap tensions.

5. OPERATING INSTRUCTIONS

5.1 Loading the Bag

- Unclip the top buckles and unroll the top opening of the bag.
- Place your items inside, ensuring heavier items are at the bottom and centered for better balance.
- Avoid overfilling the bag, as this can compromise the waterproof seal.
- The bag features a single main compartment. A zippered pocket is available for smaller items.

5.2 Closing the Waterproof Roll-Top

- Once loaded, press out any excess air from the bag.
- Roll the top edge down tightly at least three times. This creates the waterproof seal.
- Bring the side buckles together and clip them securely. Ensure the straps are taut.

5.3 Using the Shoulder Strap

- Attach the removable shoulder strap to the D-rings located on the bag.
- Adjust the strap length for comfortable carrying when off the motorcycle.

6. MAINTENANCE

- **Cleaning:** Clean the bag with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners, as these can damage the polyester material and waterproof coating.
- **Drying:** Allow the bag to air dry completely before storage, especially after exposure to rain or cleaning. Do not tumble dry or expose to direct heat.
- **Storage:** Store the bag in a cool, dry place away from direct sunlight when not in use.
- **Inspection:** Regularly inspect the bag for any signs of wear, tear, or damage to the material, seams, buckles, and straps. Replace the bag if its integrity is compromised to ensure continued waterproofing and secure attachment.

7. TROUBLESHOOTING

- **Bag feels loose during riding:** Stop immediately and re-tighten all mounting straps. Ensure they are routed correctly and not rubbing against sharp edges.
- **Water inside the bag:** Check that the roll-top closure was rolled down at least three times and that the buckles were securely fastened. Inspect the bag for any punctures or tears.
- **Difficulty closing the roll-top:** The bag may be overfilled. Remove some items to allow for proper sealing.

8. SPECIFICATIONS
