ZINUS Van 41 cm Metal Platform Bed Frame

Model: AZ-MPRC-16UD

INTRODUCTION

This instruction manual provides detailed guidance for the assembly, operation, and maintenance of your ZINUS Van 41 cm Metal Platform Bed Frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

To ensure safe use of your bed frame, please observe the following:

- Always follow all assembly instructions carefully and completely.
- Do not exceed the maximum weight recommendation of **318 kg (700 lbs)** for Full, Queen, King, and California King sizes. Single size supports a maximum weight capacity of **159 kg (350 lbs)**.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten fasteners as needed.
- Be aware that the bed frame may produce noise if not assembled or used correctly. Proper assembly helps minimize squeaking.
- Keep small parts and packaging materials away from children during assembly.

PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. The package typically includes:

- Bed frame components (side rails, center support, legs)
- Steel slats with noise-reducing foam pads
- Assembly hardware (bolts, washers, nuts)
- Assembly tools (e.g., Allen wrench, ratchet tool)
- Instruction manual

All necessary parts, tools, and instructions are efficiently packed into one box.

SETUP AND ASSEMBLY

The ZINUS Van Metal Platform Bed Frame is designed for easy, two-person assembly, typically completed in under an hour. Follow the numbered steps provided in your included assembly guide. Here are general tips:

1. **Preparation:** Clear an open space for assembly. Lay out all components and hardware, matching them to the parts list in your manual.
2. **Frame Construction:** Begin by connecting the main frame sections. Ensure all connections are aligned before tightening bolts.
3. **Leg Attachment:** Securely attach all support legs to the frame.
4. **Slat Installation:** Place the steel slats onto the frame. Many slats feature noise-reducing foam pads and adhesive tape to prevent mattress movement. Ensure these are correctly positioned.
5. **Final Tightening:** Once all components are in place, go back and securely tighten all bolts using the provided tools. Do not overtighten.

OPERATING INSTRUCTIONS

Once assembled, your ZINUS Van Metal Platform Bed Frame is ready for use. No box spring is required, as the steel slats provide ample support for your mattress.

- **Mattress Placement:** Carefully place your mattress directly onto the steel slats. The integrated adhesive tape on some slats helps prevent the mattress from sliding.
- **Under-Bed Storage:** The frame offers over 36 cm (14 inches) of clearance, providing practical space for under-bed storage.

Image: A visual representation of the 36.7 cm (approximately 14.4 inches) under-bed clearance, ideal for storage solutions.

MAINTENANCE

To maintain the condition and longevity of your ZINUS Van Metal Platform Bed Frame:

- **Cleaning:** Wipe the metal frame with a damp cloth as needed. Avoid harsh chemicals or abrasive cleaners.
- **Fastener Check:** Periodically inspect all bolts and connections to ensure they remain tight. Re-tighten if any looseness is detected.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed frame squeaks	Loose fasteners; improper assembly; uneven floor.	Ensure all bolts are securely tightened. Re-check assembly steps. Place felt pads under legs if floor is uneven.
Mattress slides on frame	Lack of friction between mattress and slats.	Ensure the adhesive tape on the slats is clean and making contact with the mattress. Consider using a non-slip mattress pad.
Parts do not align during assembly	Components are not correctly oriented or slightly warped.	Do not force parts. Gently adjust or twist components to align holes before inserting fasteners. Refer to the assembly diagram.

SPECIFICATIONS

Model Number	AZ-MPRC-16UD
Brand	Zinus
Material	Metal Steel
Color	Black
Size (Full)	190 cm (Length) x 136 cm (Width) x 40.6 cm (Height)
Under-Bed Clearance	Over 36 cm (approximately 36.7 cm)
Maximum Weight Capacity (Full)	318 kg (700 lbs)
Assembly Required	Yes
Special Features	Durable, No Box Spring Needed, Squeak Resistant, Rounded Corners
