

Jocca CLIMATIZADOR

Jocca 60W Portable Evaporative Air Cooler and Humidifier User Manual

Brand: Jocca | Model: CLIMATIZADOR

1. INTRODUCTION AND PRODUCT OVERVIEW

Thank you for choosing the Jocca 60W Portable Evaporative Air Cooler and Humidifier. This appliance is designed to provide a natural cooling breeze and humidification, making your environment more comfortable during warm and dry periods. Please read this manual carefully before use to ensure safe and efficient operation.

Key Features:

- **Efficient Cooling:** Reduces temperature with a natural breeze, ideal for combating heat.
- **Energy Saving:** Consumes approximately half the energy of a standard air conditioner.
- **Versatile Operation:** Features 3 speeds and 3 operating modes to suit your cooling needs.
- **Dual Functionality:** Acts as both an air cooler and a humidifier.
- **Convenient Design:** Equipped with a removable 3-liter water tank for easy filling and cleaning, and an auto-adjustment of blades up to 60 degrees for uniform air distribution.
- **Portable:** Compact and lightweight with wheels for easy movement.
- **Enhanced Cooling:** Includes 2 ice packs for additional cooling effect.

3. SETUP

1. **Unpack:** Carefully remove the air cooler and all accessories from the packaging. Retain packaging for future storage or transport.
2. **Positioning:** Place the unit on a flat, stable surface. Ensure there is adequate space around the unit for proper airflow. The integrated wheels allow for easy repositioning.
3. **Fill Water Tank:** Pull out the removable 3-liter water tank from the rear of the unit. Fill it with clean, cool water, ensuring the water level is between the 'MIN' and 'MAX' indicators. Do not overfill.
4. **Add Ice Packs (Optional):** For enhanced cooling, place the two included ice packs in a freezer until completely frozen. Once frozen, place them into the water tank.
5. **Connect Power:** Plug the power cord into a suitable electrical outlet (220-240V, 50Hz).

4. OPERATING INSTRUCTIONS

The air cooler is operated via the control buttons located on the top panel.

1. **Power On/Off:** Press the 'ON' button to turn the unit on. To turn off, press the 'OFF' button.
2. **Fan Speed Adjustment:** Press the 'LOW', 'MID', or 'HIGH' buttons to select your desired fan speed.
3. **Mode Selection:** The unit offers different operating modes. Refer to the specific mode buttons on your control panel (e.g., 'Cool', 'Humidify', 'Normal', 'Sleep' if available) to select the desired function. The primary functions are cooling (with water evaporation) and humidification.
4. **Oscillation:** The unit features an auto-adjustment of the internal blades up to 60 degrees to distribute air evenly. Look for a dedicated 'SWING' or 'OSC' button on the control panel to activate or deactivate this feature.
5. **Water Level:** Ensure the water tank has sufficient water for the cooling and humidifying functions to operate effectively. Refill as needed.

5. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your air cooler.

- **Cleaning the Water Tank:** The 3-liter water tank is removable for easy cleaning. Regularly empty and clean the tank to prevent mold and mildew growth. Use mild soap and water, then rinse thoroughly.
- **Cleaning the Air Filter:** The air filter, located at the rear of the unit, should be cleaned periodically. Turn off and unplug the unit. Remove the filter and gently wash it with water. Allow it to dry completely before reinserting.
- **Exterior Cleaning:** Wipe the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** If storing the unit for an extended period, ensure the water tank is empty and clean, and the unit is dry. Store in a cool, dry place.

6. TROUBLESHOOTING

If you encounter issues with your air cooler, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not turn on	No power supply; Power button not pressed.	Check if the power cord is securely plugged in. Ensure the power outlet is functional. Press the 'ON' button.
No cooling effect or weak airflow	Insufficient water in tank; Air filter is dirty; Fan speed is too low.	Refill the water tank to the 'MAX' level. Clean the air filter. Increase the fan speed. Ensure ice packs are frozen and in the tank for maximum cooling.
Unpleasant odor	Stagnant water in tank; Dirty filter.	Empty and thoroughly clean the water tank. Clean the air filter. Use fresh water.
Water leakage	Water tank overfilled; Unit not on a level surface.	Do not fill water above the 'MAX' line. Ensure the unit is placed on a flat, stable surface.

If the problem persists after attempting these solutions, please contact customer support.

7. SPECIFICATIONS

Feature	Specification
Product Dimensions	25 x 31 x 59 cm
Weight	5 kg
Manufacturer	JOCCA
Model Number	CLIMATIZADOR
Brand	Jocca

Feature	Specification
Mounting Type	Freestanding
Special Feature	Humidifier and additional ice packs
Color	White
Airflow Capacity	3.9 Cubic meters per minute
Controls Type	Button
