

Allewie AK-4816BNF

Allewie Full Size Bed Frame with Wood Headboard (Model AK-4816BNF) - Instruction Manual

Model: AK-4816BNF | Brand: Allewie

INTRODUCTION

Thank you for choosing the Allewie Full Size Bed Frame. This manual provides detailed instructions for assembly, usage, maintenance, and troubleshooting to ensure a safe and enjoyable experience with your new bed frame. This bed frame features a rustic style with a wood headboard and metal frame, designed for durability and ease of use.

Key Features:

- Rustic style with wood headboard and rivet decoration.
- Sturdy metal platform frame with strong slats.
- Easy and quick assembly.
- No box spring needed.
- Noise-free design.
- 11 inches of under-bed storage space.
- Plastic feet to protect floors from scratches.

SAFETY INFORMATION

- Read all instructions carefully before assembly and use.
- Ensure all parts are present and undamaged before beginning assembly.
- Assemble the bed frame on a soft, clean surface to prevent scratches.
- Do not overtighten screws during assembly, as this may damage components.
- Periodically check all connections and tighten as necessary to maintain stability.
- Do not exceed the maximum weight capacity of 600 lbs.
- Keep small parts away from children during assembly.

PACKAGE CONTENTS

Please verify that all components listed below are included in your package. If any parts are missing or damaged, please contact customer support.

- Headboard (Wood and Metal)
- Footboard (Metal)
- Side Rails (Metal)
- Support Legs
- Metal Slats
- Assembly Hardware (Screws, Allen Wrench, Mute Buckles, Plastic Covers)
- Instruction Manual

SETUP AND ASSEMBLY

The Allewie Full Size Bed Frame is designed for easy and quick assembly. Follow the steps below for proper setup.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a soft, clean surface.
2. **Assemble Headboard and Footboard:** Attach the wooden headboard panel to the metal frame using the provided hardware. Repeat for the footboard.
3. **Connect Side Rails:** Attach the side rails to the assembled headboard and footboard using the designated screws. Ensure all connections are secure but do not fully tighten yet.
4. **Install Support Legs:** Attach any central support legs to the frame as indicated in the diagram.
5. **Install Slats:** Place the metal slats across the frame. Utilize the mute buckles to fix the slats firmly in place, which helps prevent noise.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all screws and bolts.
7. **Attach Plastic Covers:** Place the plastic covers on the bottom of the bed frame legs to protect your floor from scratches.

OPERATING INSTRUCTIONS

This bed frame is designed for optimal support and convenience.

- **Mattress Compatibility:** The closely spaced metal slats eliminate the need for a box spring. This frame is suitable for memory foam or spring mattresses.
- **Recommended Mattress Height:** The frame is compatible with mattresses between 10 to 14 inches in height.
- **Under-bed Storage:** The frame provides 11 inches of clearance from the ground, offering ample space for storage bins, luggage, or other items.
- **Noise-Free Design:** The integrated mute buckles and sound-absorbing design minimize noise from movement.

MAINTENANCE

- **Cleaning:** Wipe the metal frame and wood headboard with a dry cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners.
- **Headboard Care:** The wood headboard is designed to be waterproof and anti-scratch, making it easy to clean and maintain its appearance.
- **Regular Inspection:** Periodically check all bolts and screws to ensure they remain tight. Retighten as needed to maintain the bed frame's stability and prevent squeaking.
- **Floor Protection:** Ensure the plastic covers on the legs are intact to prevent scratching your floors. Replace if damaged.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is shaky or unstable.	Loose bolts or incorrect assembly.	Ensure all bolts are fully tightened. Review assembly steps to confirm correct installation.
Squeaking noises from the frame.	Loose connections, friction between metal parts, or improperly secured slats.	Tighten all bolts. Ensure mute buckles are correctly installed on slats to prevent friction. Apply a small amount of lubricant (e.g., silicone spray) to metal-on-metal contact points if necessary.
Mattress slides on the frame.	Lack of mattress retention features.	The frame includes a guardrail design to help fix the mattress. Ensure the mattress is properly centered. Consider using a non-slip mattress pad if sliding persists.

Problem	Possible Cause	Solution
Floor scratches.	Missing or damaged plastic leg covers.	Verify all plastic covers are securely attached to the bottom of the legs. Replace any damaged covers.

SPECIFICATIONS

Feature	Detail
Size	Full
