HD Ridez 5-inch Silver Running Boards

HD Ridez 5-inch Silver Running Boards Instruction Manual

Model: **5-inch Silver Running Boards** | Brand: **HD Ridez**

1. Introduction

Thank you for choosing HD Ridez 5-inch Silver Running Boards. These running boards are designed to provide a safe and convenient step for accessing your truck, enhancing both functionality and appearance. Constructed from high-quality materials, they offer durability and a seamless integration with your vehicle.

Compatibility:

- Ford F-150 2015-2022 Super Crew Cab
- Ford F-250/F-350 Super Duty 2017-2022 Crew Cab

2. Safety Information

- Always ensure proper installation of the running boards to prevent accidents or injury.
- Do not exceed the maximum weight capacity of 300 lbs (approximately 136 kg) per running board.
- Regularly inspect all mounting hardware for tightness and check for any signs of damage or wear.
- Keep hands and feet clear of moving parts during installation and operation.
- Use appropriate personal protective equipment (e.g., gloves, eye protection) during installation.

3. Package Contents

Please verify that all components are present before beginning installation:

- Pair of HD Ridez 5-inch Silver Running Boards
- Vehicle-specific Mounting Brackets
- Complete Hardware Kit (bolts, washers, nuts)
- Installation Instructions (this manual)

4. Setup (Installation)

Installation of HD Ridez running boards is designed to be a direct bolt-on process for most compatible models, requiring no drilling. Basic hand tools are typically sufficient.

4.1 Pre-Installation Steps

1. Read these instructions thoroughly before starting.
2. Identify all parts and ensure they match the package contents list.
3. Clean the vehicle's rocker panel and frame areas where the running boards will be mounted.

4.2 Installation Procedure

1. **Identify Mounting Points:** Locate the factory mounting holes on your vehicle's frame or rocker panel. These are typically pre-drilled.
2. **Attach Brackets:** Secure the vehicle-specific mounting brackets to the identified mounting points using the provided hardware. Hand-tighten bolts initially.
3. **Position Running Boards:** Carefully place the running board onto the attached brackets. Ensure proper alignment with the vehicle's body.
4. **Secure Running Boards:** Attach the running boards to the brackets using the remaining hardware. Hand-tighten all bolts.
5. **Final Tightening:** Once both running boards are in place and aligned, fully tighten all bolts to the manufacturer's recommended torque specifications. Do not overtighten.
6. **Final Check:** Verify that both running boards are securely mounted and stable.

5. Operating (Usage)

The HD Ridez running boards are designed to provide a stable and secure step for entering and exiting your truck.

- Step onto the running board with caution, ensuring your foot is placed firmly on the anti-slip surface.
- Avoid jumping onto the running boards.
- Ensure your footwear is clean and dry to maximize grip on the anti-slip tread.
- Do not use the running boards as a jack point or for supporting heavy loads beyond the specified weight capacity.

6. Maintenance

Proper maintenance will ensure the longevity and appearance of your running boards.

- **Cleaning:** Clean the running boards regularly with mild automotive soap and water. Rinse thoroughly and dry with a soft cloth to prevent water spots.

- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish and anti-slip surface.
- **Inspection:** Periodically inspect all mounting hardware (bolts, nuts, brackets) for tightness. Re-tighten any loose fasteners. Check for any signs of corrosion, cracks, or other damage to the running boards or brackets.

7. Troubleshooting

- **Loose Running Board:** If a running board feels loose or unstable, immediately check all mounting bolts and re-tighten them according to the installation instructions.
- **Unusual Noise (Rattling/Squeaking):** Inspect for any loose components or contact between the running board/brackets and other vehicle parts. Ensure proper clearance and tighten all fasteners.
- **Difficulty Stepping / Excessive Flex:** Verify that the running board is securely mounted and not flexing excessively. Ensure the weight capacity is not being exceeded. Re-check installation for any missed steps or improperly tightened hardware.

8. Specifications

Feature	Specification
Product Name	HD Ridez 5-inch Silver Running Boards
Material	6061 Aircraft-grade Aluminum (main bar), Stainless Steel (components/finish)
Finish	Polished Stainless Steel
Step Width	5 inches
Weight Capacity	Up to 300 lbs (approximately 136 kg) per side
Dimensions (L x W x H)	2.18 x 0.13 x 0.04 meters (approx. 85.8 x 5.1 x 1.6 inches)
Installation Type	Bolt-on (no-drill for most compatible models)
Compatible Vehicle Type	Truck
UPC	647297187085
ASIN	B0892TT8BG
