

Benks M13

Benks M13 Lightning to USB-C Fast Charging Cable User Manual

Model: M13

1. INTRODUCTION

Thank you for choosing the Benks M13 Lightning to USB-C Fast Charging Cable. This cable is designed to provide efficient and reliable charging for your Apple devices, including iPhones and iPads, utilizing Power Delivery (PD) technology. It features MFi certification, ensuring compatibility and safety with your devices. This manual will guide you through the proper use and care of your new cable.

2. PRODUCT OVERVIEW

The Benks M13 cable is engineered for fast charging and durability. It supports up to 18W Power Delivery when paired with a compatible USB-C power adapter, significantly reducing charging times for your iPhone or iPad. The cable features a robust design with reinforced connectors to withstand daily wear and tear.

Power Delivery Fast Charging

Image: Comparison of charging speed, showing 50% charge in 30 minutes with an 18W PD charger.

Key Features:

- **MFi Certified:** Ensures full compatibility and safe charging with Apple Lightning devices.
- **Fast Charging:** Supports Power Delivery (PD) for rapid charging up to 18W.
- **Durable Construction:** Designed to withstand over 10,000 bends, featuring reinforced stress points.
- **Universal Compatibility:** Works with various iPhone and iPad models that use a Lightning port.
- **Cable Type:** USB-C to Lightning.

3. SETUP

Setting up your Benks M13 cable is straightforward. Follow these steps to begin charging your device:

1. **Connect to Power Adapter:** Insert the USB-C end of the Benks M13 cable into a compatible USB-C Power Delivery (PD) wall adapter or power bank. For optimal fast charging, ensure the adapter supports at least 18W PD output.
2. **Connect to Device:** Insert the Lightning end of the cable into the charging port of your iPhone or iPad.

3. **Verify Connection:** Your device should indicate that it is charging. If using a fast charging adapter, your device may display a fast charging indicator.

4. OPERATING INSTRUCTIONS

The Benks M13 cable operates automatically once connected. Its primary function is to charge and sync your compatible Apple devices.

Charging:

- Connect the cable as described in the 'Setup' section.
- The cable will automatically detect your device and begin charging.
- For fast charging, ensure both your power adapter and device support USB Power Delivery.

Data Syncing:

- Connect the USB-C end of the cable to a computer with a USB-C port.
- Connect the Lightning end to your iPhone or iPad.
- Your device should appear in your computer's file management or iTunes/Finder application, allowing for data transfer and syncing.

Universal compatibility

Image: Universal compatibility of the Benks cable with various iPhone and iPad models, as well as PD chargers and power banks.

5. MAINTENANCE

Proper maintenance will extend the lifespan of your Benks M13 cable.

- **Storage:** Store the cable in a cool, dry place when not in use. Avoid extreme temperatures.
- **Handling:** Always grasp the connector head when plugging or unplugging the cable. Avoid pulling directly on the cable itself to prevent damage to the internal wires and connectors.
- **Cleaning:** If the connectors become dirty, gently wipe them with a dry, soft cloth. Do not use liquids or abrasive cleaners.
- **Avoid Bending:** While the cable is designed for durability, avoid sharp or excessive bending, especially near the connector points, to prevent long-term damage.
- **Water Resistance:** The cable features a water-resistant design. However, it is not waterproof. Avoid prolonged exposure to water or submersion. Ensure connectors are dry before use.

6. TROUBLESHOOTING

If you encounter issues with your Benks M13 cable, try the following troubleshooting steps:

- **Device Not Charging:**

- Ensure both ends of the cable are securely connected.
- Try a different USB-C power adapter or power source.
- Test the cable with a different compatible device to rule out a device issue.
- Check the charging port on your device for any debris or damage.

- **Slow Charging:**

- Verify that your power adapter supports Power Delivery (PD) and provides sufficient wattage (e.g., 18W or higher).
- Ensure your device's battery is not critically low, as some devices charge slower at very low percentages.

- **Data Syncing Issues:**

- Ensure the USB-C end is connected to a computer with a functional USB-C port.
- Restart both your device and computer.
- Update your computer's operating system and iTunes/Finder software.

- **Cable Damage:**

- Visually inspect the cable for any cuts, fraying, or bent connectors. Discontinue use if damage is found.

7. SPECIFICATIONS

Feature	Detail
Brand	Benks
Model	M13
Connector Type	Lightning, USB Type C (Male to Male)
Cable Type	USB
Compatible Devices	iPhone, iPad, Smartphone
Recommended Use	Charging, Data Syncing
