LEXiBOOK RL977NI

LEXIBOOK Super Mario Projector Alarm Clock RL977NI User Manual

Model: RL977NI

1. PRODUCT OVERVIEW

The LEXIBOOK Super Mario Projector Alarm Clock RL977NI is a digital alarm clock designed with a Super Mario theme. It features a backlit LCD screen, a projection function that displays Super Mario symbols onto the ceiling in three different colors, and a night light with integrated timers. This device includes an alarm with a snooze function and operates on batteries.

Key Features:

- Round shaped alarm clock with backlit LCD screen.
- 3 integrated night light timers (5, 10, or 15 minutes).
- Super Mario symbol projection in 3 colors.
- Time display in 12/24 hour format.
- Alarm with snooze function.

2. SETUP

2.1 Battery Installation

The alarm clock requires 3 AAA batteries (not included) for operation. Follow these steps to install the batteries:

1. Locate the battery compartment on the underside of the alarm clock.
2. Using a small screwdriver, carefully open the battery compartment cover.
3. Insert 3 new AAA batteries, ensuring the correct polarity (+ and -) as indicated inside the compartment.
4. Replace the battery compartment cover and secure it with the screw.

Note: Always use fresh batteries and dispose of old batteries responsibly. Do not mix old and new batteries or different types of batteries.

3. OPERATING INSTRUCTIONS

3.1 Button Functions

The alarm clock features several buttons for control:

- **Time Button:** Used to enter time setting mode.
- **Alarm Button:** Used to enter alarm setting mode.
- **Hour Button:** Adjusts the hour during time or alarm setting.
- **Min Button:** Adjusts the minute during time or alarm setting.
- **On/Off Button:** Activates or deactivates the night light/projector.

3.2 Setting the Time

1. Press and hold the **Time** button until the hour display starts flashing.
2. Use the **Hour** button to adjust the hour.
3. Press the **Time** button again, and the minute display will flash.
4. Use the **Min** button to adjust the minutes.
5. Press the **Time** button one more time to confirm and exit time setting mode.

6. To switch between 12-hour and 24-hour format, press the **Hour** button while the time is displayed normally (not in setting mode).

3.3 Setting the Alarm

1. Press and hold the **Alarm** button until the alarm hour display starts flashing.
2. Use the **Hour** button to set the desired alarm hour.
3. Press the **Alarm** button again, and the alarm minute display will flash.
4. Use the **Min** button to set the desired alarm minutes.
5. Press the **Alarm** button one more time to confirm and activate the alarm. An alarm icon will appear on the LCD screen.
6. To deactivate the alarm, press the **Alarm** button once when the time is displayed normally. The alarm icon will disappear.

3.4 Snooze Function

When the alarm sounds, press any button (except the **Alarm** button to turn it off completely) to activate the snooze function. The alarm will temporarily stop and sound again after a few minutes.

3.5 Using the Projector and Night Light

The alarm clock features a projector that displays Super Mario symbols and also functions as a night light with a timer.

1. Press the **On/Off** button to activate the projector and night light.
2. The projector will display Super Mario symbols onto the ceiling in one of three colors.
3. To cycle through the projection colors or turn off the projection, press the **On/Off** button repeatedly.
4. The night light has integrated timers of 5, 10, or 15 minutes. The timer setting is usually cycled by pressing the **On/Off** button or a dedicated light button (if present, not explicitly mentioned but implied by "3 integrated timers"). Refer to the icons on the clock face for specific light control.

4. MAINTENANCE

4.1 Cleaning

To clean the alarm clock, use a soft, dry cloth. Do not use abrasive cleaners, solvents, or chemical sprays, as these can damage the surface and internal components. Avoid getting moisture into any openings.

4.2 Battery Replacement

When the display dims or the functions become unreliable, it is time to replace the batteries. Follow the battery installation steps outlined in Section 2.1. Ensure the device is turned off before replacing batteries.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Clock display is dim or blank.	Low or depleted batteries.	Replace with new AAA batteries. Ensure correct polarity.
Projection light is not working.	Projector is off or batteries are low.	Press the **On/Off** button to activate. Check and replace batteries if necessary.
Alarm does not sound.	Alarm is not set or is deactivated.	Ensure the alarm is set correctly and the alarm icon is visible on the display. Check battery level.
Buttons are unresponsive.	Low batteries or temporary software glitch.	Replace batteries. If issue persists, remove batteries for a few minutes and reinsert to reset the device.
Time or alarm settings reset unexpectedly.	Batteries removed or completely depleted.	Replace batteries and reset the time and alarm.
