JVC KW-V660BT

JVC KW-V660BT User Manual

Model: KW-V660BT | Brand: JVC

Introduction

The JVC KW-V660BT DVD receiver is designed to enhance your in-car entertainment and connectivity. Featuring a 6.8-inch capacitive touchscreen display, it seamlessly integrates with your smartphone via Apple CarPlay and Android Auto. Enjoy high-resolution audio playback, Bluetooth for hands-free calling and music streaming, and expandability options for additional components like amplifiers, backup cameras, and SiriusXM tuners. This manual provides essential information for setup, operation, and maintenance of your device.

Key Features

- DVD/CD receiver with AM/FM RDS tuner and 6.8" capacitive touch screen display.
- Plays high-res FLAC and WAV (up to 24-bit/192 kHz) files on USB drives.
- Hands-free calling and audio streaming via Bluetooth.
- Compatible with wired Apple CarPlay and Android Auto.
- 13-band equalizer with digital time alignment.
- Subwoofer level, phase, and low-pass crossover controls.
- Expandable with SiriusXM satellite radio tuner (optional), rear USB input, rear camera input, rear A/V input (mini), 5-channel preamp outputs (2-volt front, rear, mono subwoofer), and video output (RCA).

Setup and Installation

Proper installation is crucial for optimal performance and safety. It is recommended to have this unit professionally installed. Ensure all connections are secure before operation.

Wiring Connections

The unit requires a wired connection to the parking brake to access certain settings and video display features. The brake must be connected and set for video display as per safety regulations.

The rear panel of the KW-V660BT features multiple connection options, including RCA outputs for front, rear, and subwoofer channels, a rear USB input, and a SiriusXM input. These allow for expansion with external amplifiers, additional displays, and satellite radio tuners.

Operating Instructions

Smartphone Integration (Apple CarPlay & Android Auto)

Connect your compatible iPhone or Android smartphone via the USB port to access Apple CarPlay or Android Auto. This allows for seamless integration of navigation, music, messaging, and voice assistant features directly on the receiver's touchscreen.

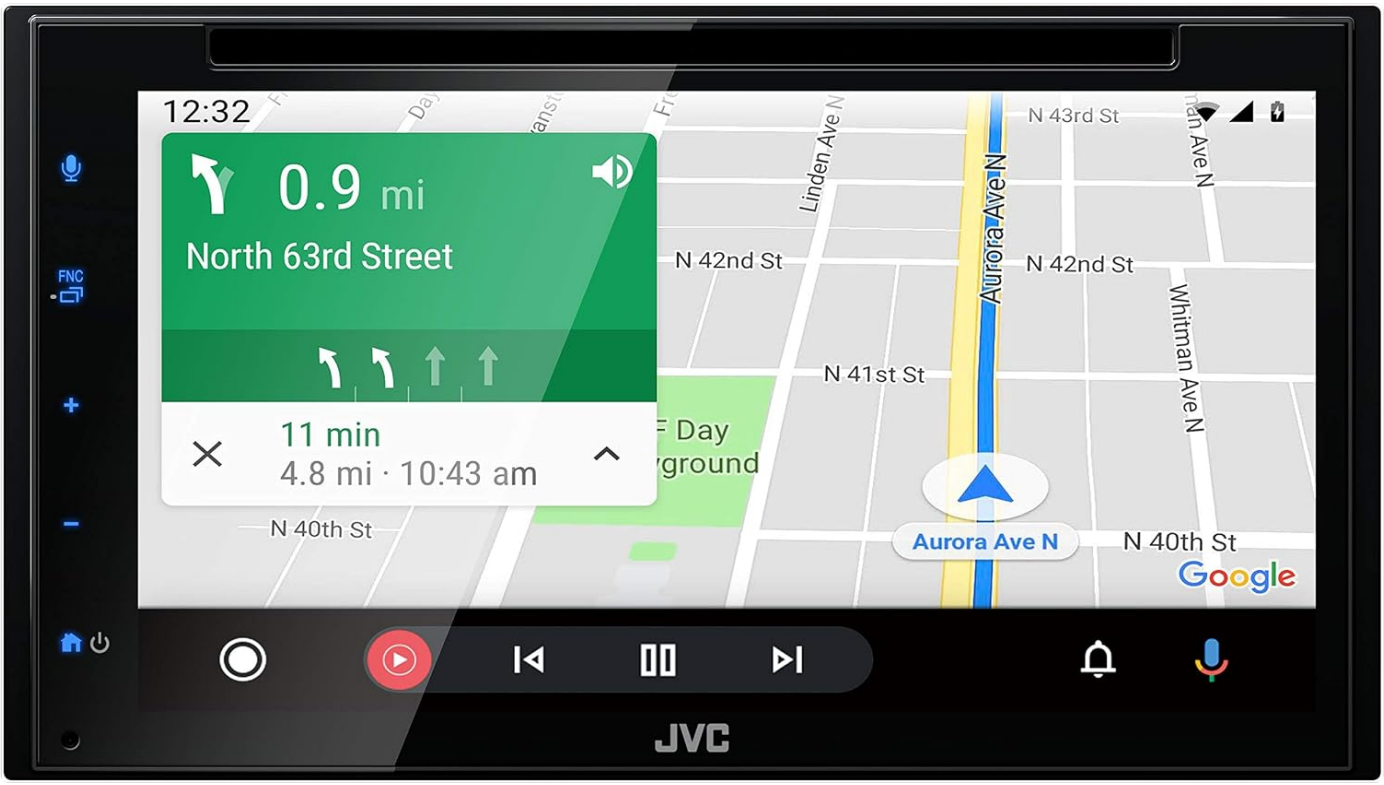

Figure 3: Android Auto navigation display on the JVC KW-V660BT, showing a map with route information.

Figure 4: Android Auto app list on the JVC KW-V660BT, providing access to various compatible applications.

For Android phones, the unit also supports screen mirroring, allowing you to display your phone's screen directly on the receiver's display.

Bluetooth Audio and Hands-Free Calling

Pair your Bluetooth-enabled device to the KW-V660BT for wireless audio streaming and hands-free phone calls. The built-in microphone ensures clear communication.

Your browser does not support the video tag.

Media Playback

The unit supports playback from various sources:

- **DVD/CD:** Insert discs into the dedicated slot for audio and video playback.
- **USB:** Connect USB drives to the rear USB input to play high-resolution FLAC and WAV files, as well as other common audio and video formats. The touchscreen allows for easy browsing and selection of files.

Audio Controls

Customize your audio experience with the built-in 13-band equalizer and digital time alignment features. These can be accessed via the touchscreen to fine-tune sound output for optimal listening.

SiriusXM Ready

The KW-V660BT is SiriusXM ready. An optional SiriusXM satellite radio tuner (sold separately) is required to access SiriusXM programming.

Rear Camera Input

Connect a rear camera (sold separately) to the dedicated input. The unit supports adjustable parking guidelines on the display to assist with parking maneuvers.

Touchscreen and Customization

The 6.8-inch capacitive touchscreen provides intuitive control. You can customize the background wallpaper and arrange your favorite sources on the home screen for quick access.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the touchscreen and unit exterior. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check the JVC website for any available firmware updates to ensure optimal performance and compatibility.
- **Disc Care:** Handle discs by their edges to prevent scratches. Store discs in their cases when not in use.

Troubleshooting

Problem	Possible Cause	Solution
No power/Unit does not turn on.	Incorrect wiring, blown fuse, vehicle battery issue.	Check power connections, inspect fuses, verify vehicle battery charge.
No sound.	Volume too low, mute activated, incorrect speaker wiring.	Increase volume, check mute setting, verify speaker connections.
Touchscreen unresponsive or slow.	Temporary software glitch, screen protector interference.	Restart the unit, ensure screen is clean, remove any thick screen protectors.
Apple CarPlay/Android Auto not connecting.	Faulty USB cable, phone not compatible, software issue on phone/unit.	Use a high-quality USB cable, ensure phone OS is updated, restart phone and unit.
Video playback restricted.	Parking brake not engaged or wired incorrectly.	Ensure parking brake is fully engaged and the parking brake wire is correctly connected as per installation instructions.

For persistent issues, consult a qualified technician or refer to the full service manual available on the JVC support website.
