NautyPaws PT-43

NautyPaws Ceramic Cat Water Fountain (Model PT-43) - Instruction Manual

Brand: NautyPaws | **Model:** PT-43

1. INTRODUCTION

Thank you for choosing the NautyPaws Ceramic Cat Water Fountain. This manual provides essential information for the safe and efficient operation, maintenance, and care of your new pet water fountain. This ceramic fountain is designed to encourage your pets to drink more water by providing a continuous flow of fresh, filtered water. Its quiet operation and durable ceramic construction ensure a pleasant experience for both you and your pets.

2. IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions carefully before using the appliance.
- Do not operate any appliance with a damaged cord or plug, or if the appliance malfunctions or has been damaged in any manner.
- To protect against electrical hazards, do not place the power cord or plug in water or other liquids.
- Always unplug the appliance when not in use, before putting on or taking off parts, and before cleaning.
- Do not use the appliance for anything other than its intended use.
- This appliance is for indoor household use only.
- Keep the appliance out of reach of children and pets when not in use.
- Ensure the power cord is positioned to prevent tripping hazards or damage by pets.

3. PACKAGE CONTENTS

Please check to ensure all items are present and in good condition:

- Ceramic Fountain Body (Base Bowl)
- Ceramic Fountain Top (Water Spout/Tower)
- Water Pump with Power Cord
- Activated Carbon Filter
- Foam Filter
- Rubber Cap for Power Cord
- Instruction Manual

4. SETUP GUIDE

Follow these steps to assemble your NautyPaws Ceramic Cat Water Fountain:

1. **Unpack and Inspect:** Carefully remove all components from the packaging. Inspect each part for any damage.
2. **Clean Components:** Wash the ceramic fountain body and top with warm water and mild soap. Rinse thoroughly to remove any soap residue.
3. **Prepare the Pump:** Disassemble the pump by removing the front cover and impeller. Clean all parts with water. Reassemble the pump.
4. **Install Filters:** Place the foam filter at the bottom of the pump housing. Insert the activated carbon filter into its designated slot on the pump.
5. **Position the Pump:** Place the assembled pump at the bottom of the ceramic base bowl. Ensure the power cord is routed through the designated groove or hole in the base. Secure the power cord with the provided rubber cap to prevent water leakage.
6. **Fill with Water:** Fill the ceramic base bowl with clean water up to the MAX fill line. Do not overfill.
7. **Place Fountain Top:** Carefully place the ceramic fountain top onto the base bowl, ensuring it sits securely and the water spout aligns with the pump's outlet.
8. **Connect Power:** Plug the power adapter into a wall outlet. The fountain should begin circulating water.

5. OPERATING INSTRUCTIONS

- **Initial Operation:** After assembly and filling, plug in the fountain. Water will begin to flow from the spout. It may take a few moments for the water to circulate fully and for the pump to operate quietly.
- **Water Level:** Always ensure the water level is above the minimum mark to prevent the pump from running dry, which can damage it. Check the water level daily.
- **Encouraging Pets:** Some pets may need time to adjust to the new fountain. Encourage them by placing treats nearby or gently guiding them to the flowing water.

360° ROUND Design

Pets Happily Drink Water Together

6. MAINTENANCE AND CLEANING

Daily Maintenance:

- Check the water level and refill as needed.
- Wipe down the ceramic surfaces to remove any dust or pet hair.

Weekly Cleaning:

- **Unplug the Fountain:** Always unplug the fountain before cleaning.
- **Disassemble:** Remove the ceramic top and empty the water from the base bowl.
- **Clean Ceramic Parts:** Wash the ceramic base and top with warm water and mild soap. The ceramic

parts are dishwasher safe (top rack recommended). Rinse thoroughly.

- **Clean the Pump:** Disassemble the pump (refer to setup steps). Clean the impeller and all pump components with a small brush to remove any debris, hair, or mineral buildup. Rinse thoroughly.
- **Replace Filters:** Replace the activated carbon filter every 2-4 weeks, or more frequently if multiple pets use the fountain or if water quality is poor. Replace the foam filter as needed, typically every 1-2 months.
- **Reassemble:** Reassemble the fountain following the setup guide.

Video: This video provides a clear demonstration on how to properly clean the water pump of a ceramic pet fountain, ensuring optimal performance and longevity.

7. TROUBLESHOOTING

Issue	Possible Cause	Solution
Fountain not dispensing water	Power outage; pump clogged; water level too low	Check power connection; clean pump and impeller; refill water to appropriate level
Weak water flow	Pump clogged; filter clogged; water level too low	Clean pump and impeller; replace filter; refill water
Excessive noise from pump	Water level too low; pump not properly seated; debris in pump	Refill water; ensure pump is securely placed; clean pump and impeller
Water tastes or smells bad	Filter needs replacement; fountain needs cleaning	Replace activated carbon filter; perform thorough cleaning of all components

8. PRODUCT SPECIFICATIONS

- **Brand:** NautyPaws
- **Model Number:** PT-43
- **Material:** Ceramic
- **Capacity:** 2.1 Liters
- **Product Dimensions:** 24.1L x 24.1W x 11.9H Centimetres
- **Item Weight:** 5.72 Pounds (approx. 2.59 kg)
- **Power Source:** Battery Powered (Note: Product specifications indicate "Battery Powered" but typically these fountains are AC powered with a low-voltage adapter. Please refer to your specific product packaging for power details.)
- **UPC:** 782902609320
