vidaXL Square Spa Surround (Model 46074) Instruction Manual

Comprehensive guide for assembly, operation, and maintenance.

1. INTRODUCTION

This manual provides essential instructions for the safe assembly, operation, and maintenance of your vidaXL Square Spa Surround, Model 46074. Please read this manual thoroughly before assembly and retain it for future reference. The vidaXL Square Spa Surround is designed to enhance your outdoor spa area, providing a functional and aesthetically pleasing enclosure. It features weather-resistant PE rattan, a powder-coated steel frame, and solid acacia wood steps.

Image 1.1: The vidaXL Square Spa Surround, Model 46074, fully assembled. This image shows the gray poly rattan structure with integrated wooden steps, designed to encircle a square hot tub.

2. SAFETY INFORMATION

- **Read all instructions:** Before assembly and use, carefully read and understand all instructions provided in this manual.

- **Adult assembly required:** Assembly should be performed by adults. Keep children away during assembly.
- **Check all parts:** Ensure all components are present and undamaged before beginning assembly. Do not use if any parts are missing or broken.
- **Stable surface:** Place the spa surround on a flat, level, and stable surface to prevent tipping or instability.
- **Weight limits:** Do not exceed the intended weight capacity of the steps or surfaces. Avoid standing or placing excessively heavy objects on the rattan sections.
- **Regular inspection:** Periodically inspect the spa surround for loose fasteners, damage, or wear. Tighten connections as needed.
- **Outdoor use only:** This product is designed for outdoor use.
- **Keep clear of heat sources:** Do not place the spa surround near open flames or extreme heat sources.

3. PACKAGE CONTENTS

Before starting assembly, verify that all components listed below are present in your package. If any parts are missing or damaged, contact customer support.

- PE Rattan Panels (various shapes and sizes for the surround structure)
- Powder-Coated Steel Frame Components
- Solid Acacia Wood Step Sections
- Assembly Hardware (screws, bolts, washers, Allen key, etc.)
- Instruction Manual (this document)

4. SETUP AND ASSEMBLY

The vidaXL Square Spa Surround requires assembly. It is recommended to have at least two adults for easier and safer assembly. Follow the step-by-step instructions provided with the hardware kit.

4.1. Preparation

- Clear a spacious, flat, and clean area for assembly.
- Unpack all components and lay them out, checking against the package contents list.
- Ensure you have the necessary tools (usually an Allen key is provided, but a screwdriver might be helpful).

4.2. Assembly Steps

1. **Assemble Frame Sections:** Begin by connecting the powder-coated steel frame components according to the diagrams in the separate hardware instruction sheet. Ensure all connections are secure but do not fully tighten bolts until the entire frame is loosely assembled.
2. **Attach Rattan Panels:** Secure the PE rattan panels to the assembled frame sections. Pay attention to the orientation of curved and straight panels.
3. **Integrate Wooden Steps:** Position and attach the solid acacia wood step sections into their designated places within the surround structure.
4. **Final Tightening:** Once all components are in place and the surround forms the desired square shape, gradually tighten all bolts and screws. Do not overtighten.
5. **Positioning:** Carefully move the assembled spa surround to its final location around your hot tub. Ensure it is centered and stable.

Image 4.1: Dimensional view of the spa surround. The image illustrates the overall dimensions of the assembled unit, measuring 105.5 inches (268 cm) in length and width, and 21.7 inches (55 cm) in height.

Image 4.2: Detail of a panel connection. This close-up shows how two sections of the poly rattan surround connect, highlighting the hardware used for secure assembly.

Image 4.3: Detail of the acacia wood steps. This image provides a close view of the wooden slats, showcasing the material and its natural oil finish.

5. OPERATING INSTRUCTIONS (USAGE)

The vidaXL Square Spa Surround is designed to be a static enclosure for your hot tub, providing both aesthetic appeal and practical functionality.

- **Placement:** Once assembled, position the surround evenly around your square hot tub. Ensure there is adequate clearance for any hot tub controls or covers.
- **Access:** Use the integrated acacia wood steps for safe and convenient entry and exit from your hot tub. Always step carefully.
- **Storage/Surface:** The flat top surfaces of the rattan panels can be used for placing towels, drinks, or other small items. Avoid placing hot items directly on the rattan or wood without protection.
- **Stability:** Regularly check the stability of the surround, especially after heavy winds or moving the unit.

Image 5.1: Spa surround in use. This image provides a perspective of the surround from a slightly lower angle, illustrating its overall structure and how the wooden steps are integrated for access.

6. MAINTENANCE

Proper maintenance will extend the life and appearance of your spa surround.

6.1. Cleaning

- **PE Rattan:** Clean the poly rattan surfaces with a soft cloth, mild soap, and water. Rinse thoroughly and dry. Avoid harsh chemicals or abrasive cleaners.
- **Steel Frame:** Wipe the powder-coated steel frame with a damp cloth. If rust spots appear, clean them immediately and apply a rust-inhibiting paint to prevent further corrosion.
- **Acacia Wood:** The acacia wood steps are finished with a natural oil. To maintain their appearance and weather resistance, re-oil the wood periodically (e.g., annually or as needed) with a suitable outdoor wood oil. Clean with a damp cloth before re-oiling.

6.2. General Care

- **Fasteners:** Periodically check all bolts and screws and tighten them if necessary to ensure structural integrity.
- **Winter Storage:** While weather-resistant, storing the spa surround indoors or covering it during harsh winter conditions can prolong its lifespan.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Spa surround feels unstable or wobbly.	Loose fasteners; uneven ground.	Ensure all bolts and screws are securely tightened. Move the surround to a flat, level surface.
Difficulty assembling sections.	Incorrect orientation of parts; bolts not aligned.	Refer to the assembly diagrams carefully. Do not fully tighten bolts until all parts are loosely connected.
Rattan appears faded or dirty.	Exposure to elements; accumulated dirt.	Clean with mild soap and water as per maintenance instructions. Consider using a protective cover when not in use.

8. SPECIFICATIONS

Model Number:	46074
Brand:	vidaXL
Color:	Gray
Material:	PE rattan, powder-coated steel, solid acacia wood
Product Dimensions (L x W x H):	105.5" x 105.5" x 21.7" (268 cm x 268 cm x 55 cm)
Item Weight:	53.6 Kilograms
Shape:	Square
Assembly Required:	Yes

9. WARRANTY AND SUPPORT

For information regarding warranty coverage, returns, or technical support, please refer to the purchase documentation or contact your retailer directly. Keep your proof of purchase for any warranty claims.
