UGREEN 10144

UGREEN 36W Dual USB Car Charger (Model 10144) Instruction Manual

1. Introduction

Thank you for choosing the UGREEN 36W Dual USB Car Charger. This device is designed to provide efficient and fast charging for your mobile devices while on the go. Featuring two USB ports with Quick Charge 3.0 technology, it ensures your smartphones and tablets receive optimal power quickly and safely. This manual provides essential information for the proper setup, operation, and maintenance of your car charger.

2. Package Contents

- 1 x UGREEN 36W Dual USB Car Charger (Model 10144)
- 2 x USB Cables

3. Setup and Installation

Installing your UGREEN car charger is straightforward:

1. Locate the 12V/24V cigarette lighter socket in your vehicle.
2. Insert the UGREEN car charger firmly into the socket until it is securely seated. The charger is designed for a stable connection.
3. Once properly inserted, the indicator LED on the charger will illuminate, confirming it is powered on and ready for use.

4. Operating Instructions

The UGREEN 36W Dual USB Car Charger allows you to charge two devices simultaneously with high efficiency.

1. After installing the charger, connect your device(s) to either of the two USB ports using a compatible USB charging cable.
2. The charger automatically detects your device's power requirements and delivers optimal charging speed, utilizing Quick Charge 3.0 technology for compatible devices.
3. Both ports can deliver fast charging simultaneously, with a total output of 36W.

5. Maintenance and Care

- Keep the charger dry. Moisture can damage the internal circuitry.
- Clean the charger with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- Avoid extreme temperatures. High temperatures can shorten the life of electronic devices.
- Store the charger in a cool, dry place when not in use.
- Ensure the car's power outlet is clean and free of debris for optimal connection.

6. Troubleshooting

If you encounter issues with your UGREEN car charger, please refer to the following common solutions:

6.1. Charger Does Not Work At All

- Check if both USB ports are non-functional.
- If both ports are not working, test the charger in another vehicle's cigarette lighter socket, if possible, to rule out a vehicle-specific issue.
- If only one USB port is not working, try testing that specific port with a different charging cable and a different device.

6.2. Intermittent Charging

- Firmly re-plug both the car charger into the socket and the charging cable into your device to ensure all connections are secure.
- Test the car charger in a different cigarette lighter socket within your vehicle, if available.
- Try using a different charging cable and a different phone to isolate the issue.

6.3. Slow Charging

- Ensure that both your device and the charging cable support fast charging protocols (e.g., Quick Charge 3.0) to achieve optimal speeds.
- If possible, test the car charger with a different fast-charging compatible cable and phone.

7. Specifications

Brand	UGREEN
Model Number	10144
Connector Type	USB

Compatible Devices	Smartphones, Tablets
Special Feature	Fast Charging (Quick Charge 3.0)
Color	Grey
Input Voltage	12-24 Volts
Output Current	4.5 Amps
Total USB Ports	2
Wattage	36 Watts
Item Weight	40 Grams
