Spigen ACS01398

Spigen Slim Armor CS Case for Samsung Galaxy Note20 Ultra 5G - Instruction Manual

PRODUCT OVERVIEW

The Spigen Slim Armor CS case is designed to provide robust protection and convenient card storage for your Samsung Galaxy Note20 Ultra 5G. This case features a dual-layer design combining Thermoplastic Polyurethane (TPU) and Polycarbonate (PC) for enhanced durability and shock absorption. It includes a built-in card slot to securely hold up to two cards, reducing the need for a separate wallet.

- **Dual-Layer Protection:** Hybrid technology with a high-quality TPU inner layer and a durable PC outer shell.
- **Air Cushion Technology:** Integrated into corners for advanced anti-shock protection.
- **Built-in Card Slot:** Securely stores up to two cards for easy access.
- **Slim Profile:** Designed to minimize bulk while maximizing protection.

COMPATIBILITY

This Spigen Slim Armor CS case is specifically designed for the **Samsung Galaxy Note20 Ultra 5G** and **Samsung Galaxy Note20 Ultra** models. It is not compatible with other Samsung Galaxy models or any other smartphone devices. Please verify your device model before installation.

Only compatible with Note 20 Ultra.

Please check the model of your device.

Only compatible with
Galaxy Note 20 Ultra

NOT compatible with
Galaxy Note 20

Image: This case is exclusively designed for the Samsung Galaxy Note20 Ultra 5G and Note20 Ultra.

INSTALLATION GUIDE

Follow these steps to properly install your Spigen Slim Armor CS case:

1. **Prepare Your Device:** Ensure your Samsung Galaxy Note20 Ultra 5G is clean and free of dust or debris.
2. **Separate Case Components:** The Slim Armor CS case consists of two main parts: the soft TPU inner layer and the hard PC outer frame with the card slot. Gently separate these two components.
3. **Install TPU Layer:** First, carefully place your Samsung Galaxy Note20 Ultra 5G into the flexible TPU inner layer, ensuring all edges and corners are properly seated.
4. **Attach PC Outer Frame:** Align the PC outer frame with the TPU-covered phone. Snap the PC frame onto the TPU layer, starting from one side and working your way around until it is securely attached. Ensure all cutouts for ports, buttons, and cameras are correctly aligned.
5. **Verify Installation:** Check that the case is snugly fitted around your device and that all buttons are functional and accessible.

USING YOUR CASE

Card Storage

The Spigen Slim Armor CS case features a discreet sliding compartment on the back designed to hold up to two standard-sized cards, such as credit cards, ID cards, or driver's licenses. To access the card slot, gently slide the back panel downwards. Insert your cards into the designated slot, then slide the panel back up until it clicks securely into place.

Keep your essentials close.

Ready to go with
up to 2 cards stored
inside the case.

Image: The built-in card slot can securely hold up to two cards.

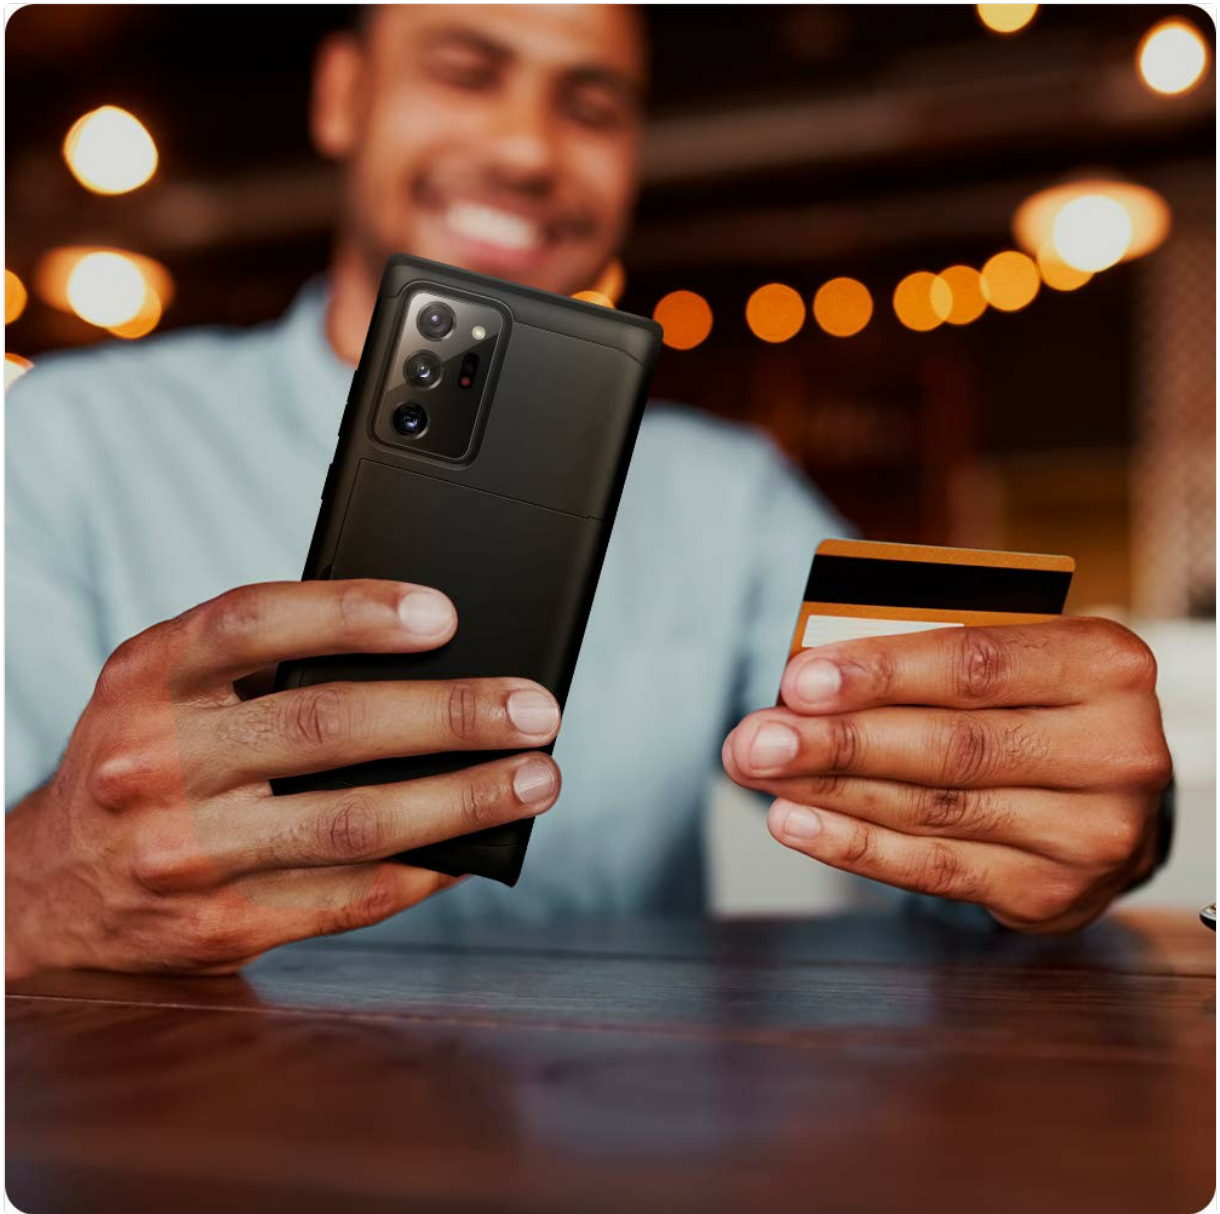

Image: The case allows for convenient access to your essential cards.

Wireless Charging & Samsung Pay

The Slim Armor CS case is designed to be compatible with Samsung Pay for contactless payments. Its slim design allows for scanning without removing the case.

However, due to the integrated card slot and the thickness added by the cards, wireless charging functionality may be affected. For optimal wireless charging performance, it is recommended to remove any cards from the slot or remove the case entirely before placing your device on a wireless charger.

Want to use Samsung Pay?

No problem. Slim enough to scan without taking the case off.

Protect what's important.

Prevents camera and screen from scratches, while concealing card info.

Image: The case is designed to allow for seamless Samsung Pay transactions.

CARE AND MAINTENANCE

To maintain the appearance and functionality of your Spigen Slim Armor CS case, follow these simple care instructions:

- **Cleaning:** Use a soft, damp cloth to wipe down the exterior of the case. For stubborn dirt, a mild soap solution can be used. Avoid harsh chemicals or abrasive cleaners, as these can damage the material.
- **Drying:** Allow the case to air dry completely before re-installing your phone.
- **Avoid Extreme Conditions:** Do not expose the case to extreme temperatures or direct sunlight for prolonged periods, as this may cause material degradation or discoloration.

TROUBLESHOOTING

- **Case Not Fitting Properly:** Ensure you have the correct model (Samsung Galaxy Note20 Ultra 5G). Re-check installation steps, ensuring the TPU and PC layers are correctly aligned and snapped together.
- **Difficulty Sliding Card Slot:** If the card slot is stiff, ensure no debris is obstructing the mechanism. Avoid overfilling the slot beyond the recommended two cards.

- **Wireless Charging Issues:** As noted in the 'Operating Instructions' section, the presence of cards in the slot or the case itself may interfere with wireless charging. Remove cards or the case for reliable wireless charging.

PRODUCT SPECIFICATIONS

Feature	Detail
