INPHIC PW5

INPHIC Pink Gaming Mouse PW5 User Manual

Model: PW5

1. INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, and maintenance of your INPHIC Pink Gaming Mouse PW5. Please read this manual thoroughly before using the product to ensure optimal performance and longevity.

2. PACKAGE CONTENTS

- INPHIC Pink Gaming Mouse PW5
- User Manual (this document)

3. PRODUCT OVERVIEW

Familiarize yourself with the components and ergonomic design of your INPHIC Pink Gaming Mouse PW5.
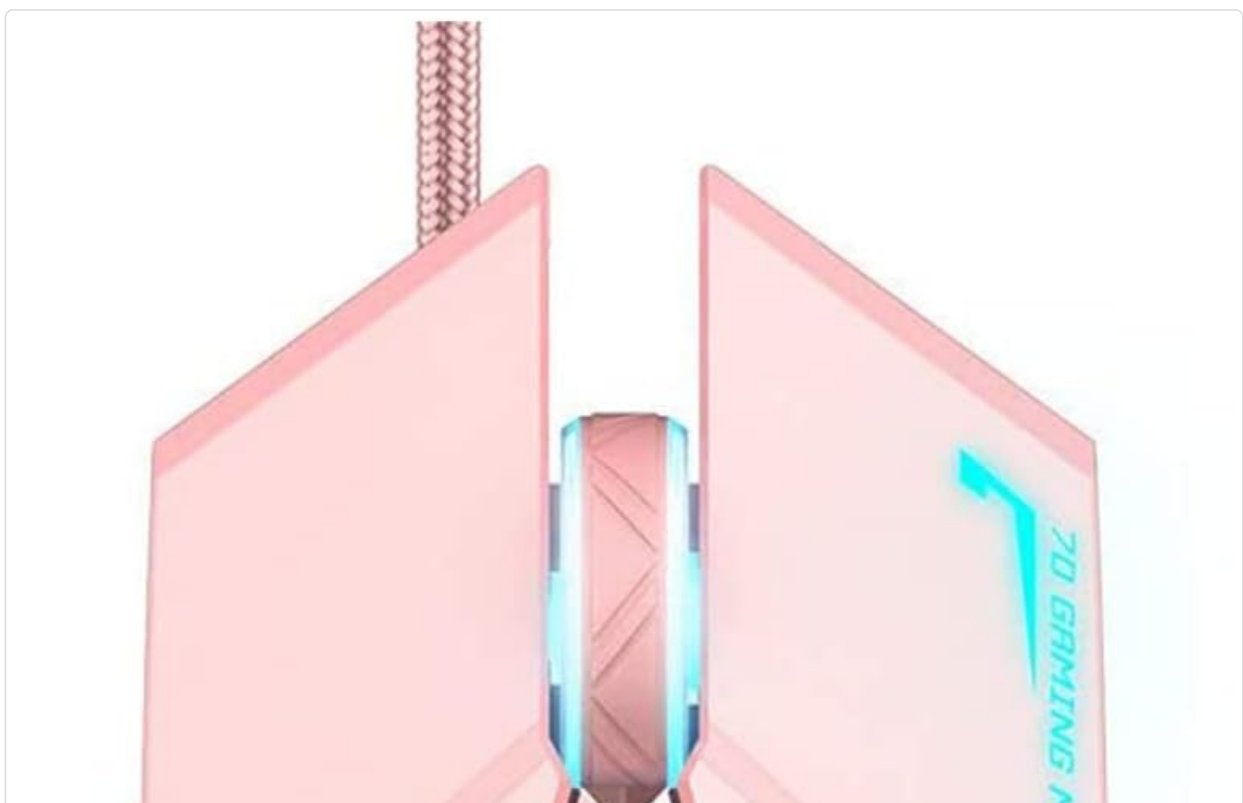

Figure 3.1: Top view of the INPHIC Pink Gaming Mouse PW5, showcasing its ergonomic design and button layout. The mouse features a pink finish with RGB lighting accents.

Figure 3.2: Side view highlighting the ergonomic contours of the INPHIC Pink Gaming Mouse PW5, designed for comfortable hand-feeling and extended use.

Button Layout:

1. Left Click Button
2. Right Click Button
3. Scroll Wheel
4. DPI+ Button
5. DPI- Button
6. Forward Button (Programmable)
7. Backward Button (Programmable)
8. USB Connector (Wired)

4. Setup Instructions

The INPHIC Pink Gaming Mouse PW5 is designed for plug-and-play functionality, requiring no additional driver installation for basic use.

1. **Connect the Mouse:** Locate an available USB port on your computer (desktop or laptop). Insert the USB connector of the INPHIC Pink Gaming Mouse PW5 into the USB port.

2. **System Recognition:** Your operating system (Windows 7/8/10/XP/2000/Vista, Linux) will automatically detect and install the necessary drivers. This process may take a few moments.

3. **Ready for Use:** Once the installation is complete, the mouse will be ready for immediate use.

5. OPERATING INSTRUCTIONS

5.1 DPI Adjustment

The mouse features four adjustable DPI levels, allowing you to customize cursor sensitivity for different tasks or games. The default DPI settings are 1000, 1600, 3200, and 4800.

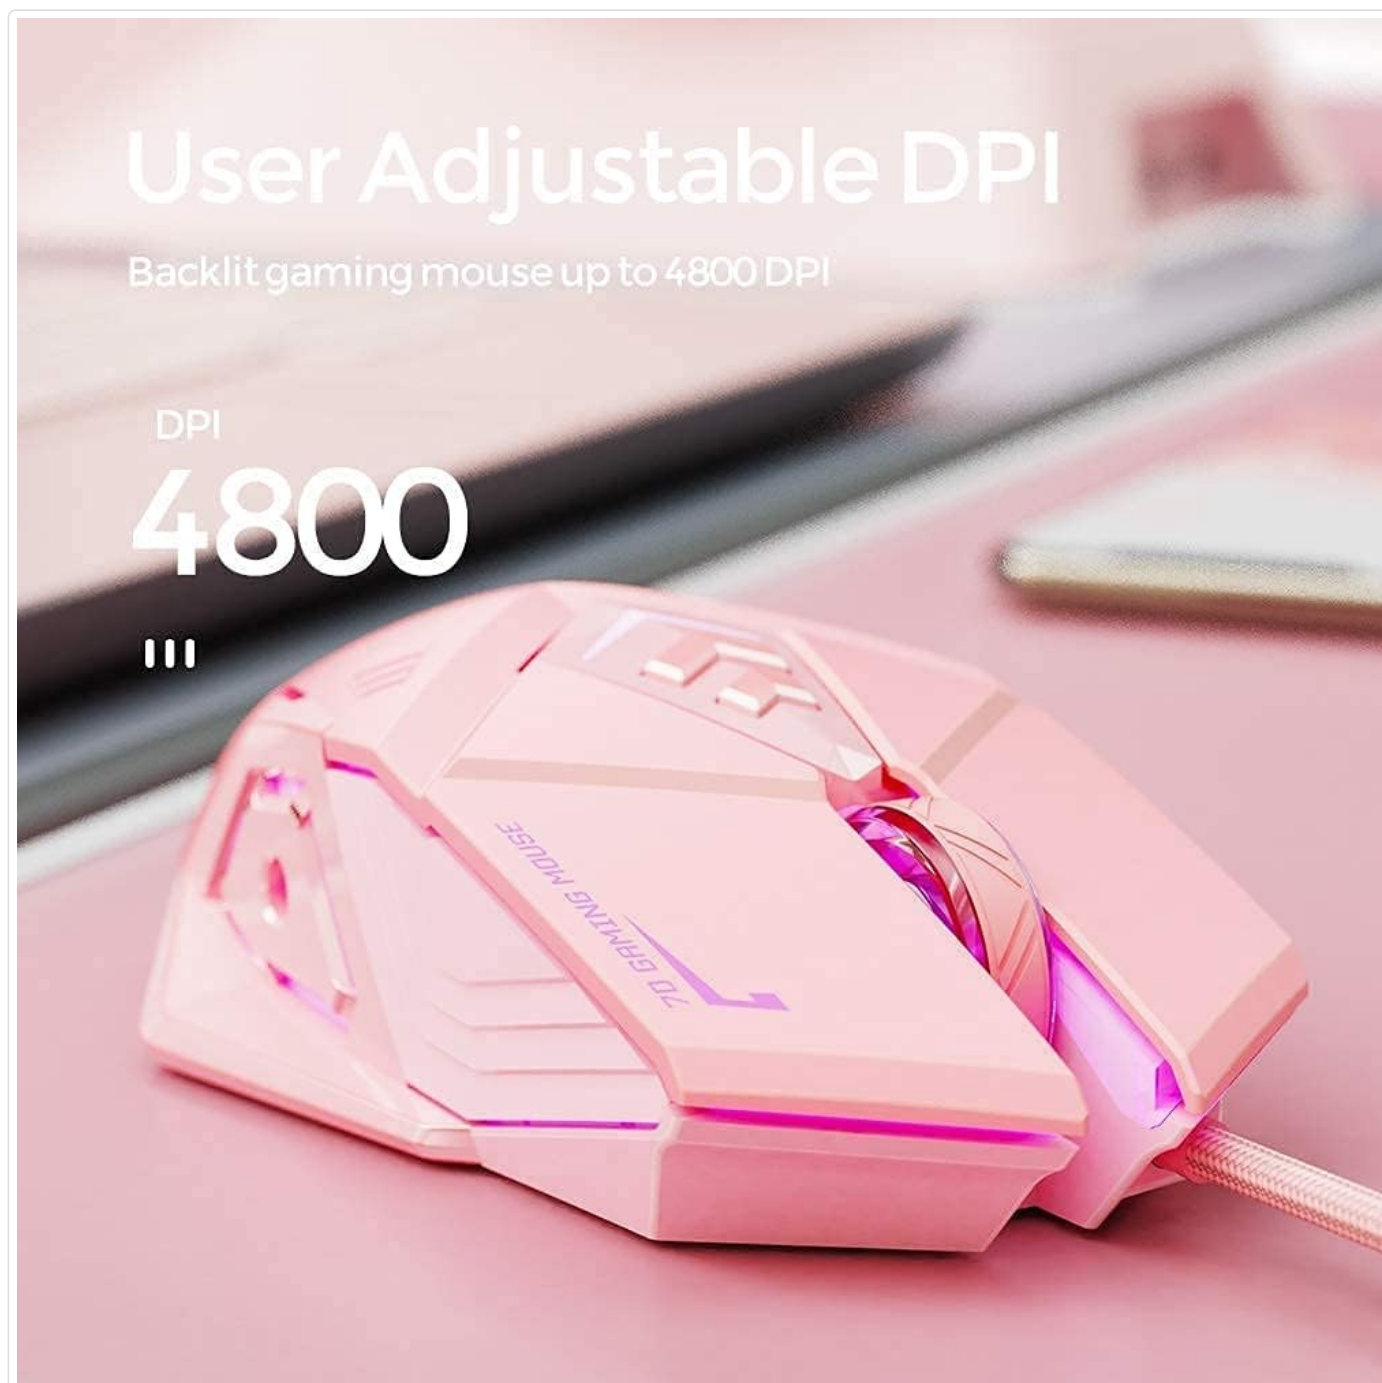

Figure 5.1: The mouse displaying its 4800 DPI capability, indicating high precision for gaming and detailed work.

- Press the **DPI+** button to increase the DPI level.
- Press the **DPI-** button to decrease the DPI level.
- Each press cycles through the available DPI settings.

5.2 Programmable Buttons

The INPHIC Pink Gaming Mouse PW5 includes 7 programmable buttons: Left, Right, Forward, Backward, DPI+, DPI-, and Scroll Wheel. These buttons can be customized using dedicated software (available for Windows systems only) to assign macros or specific functions.
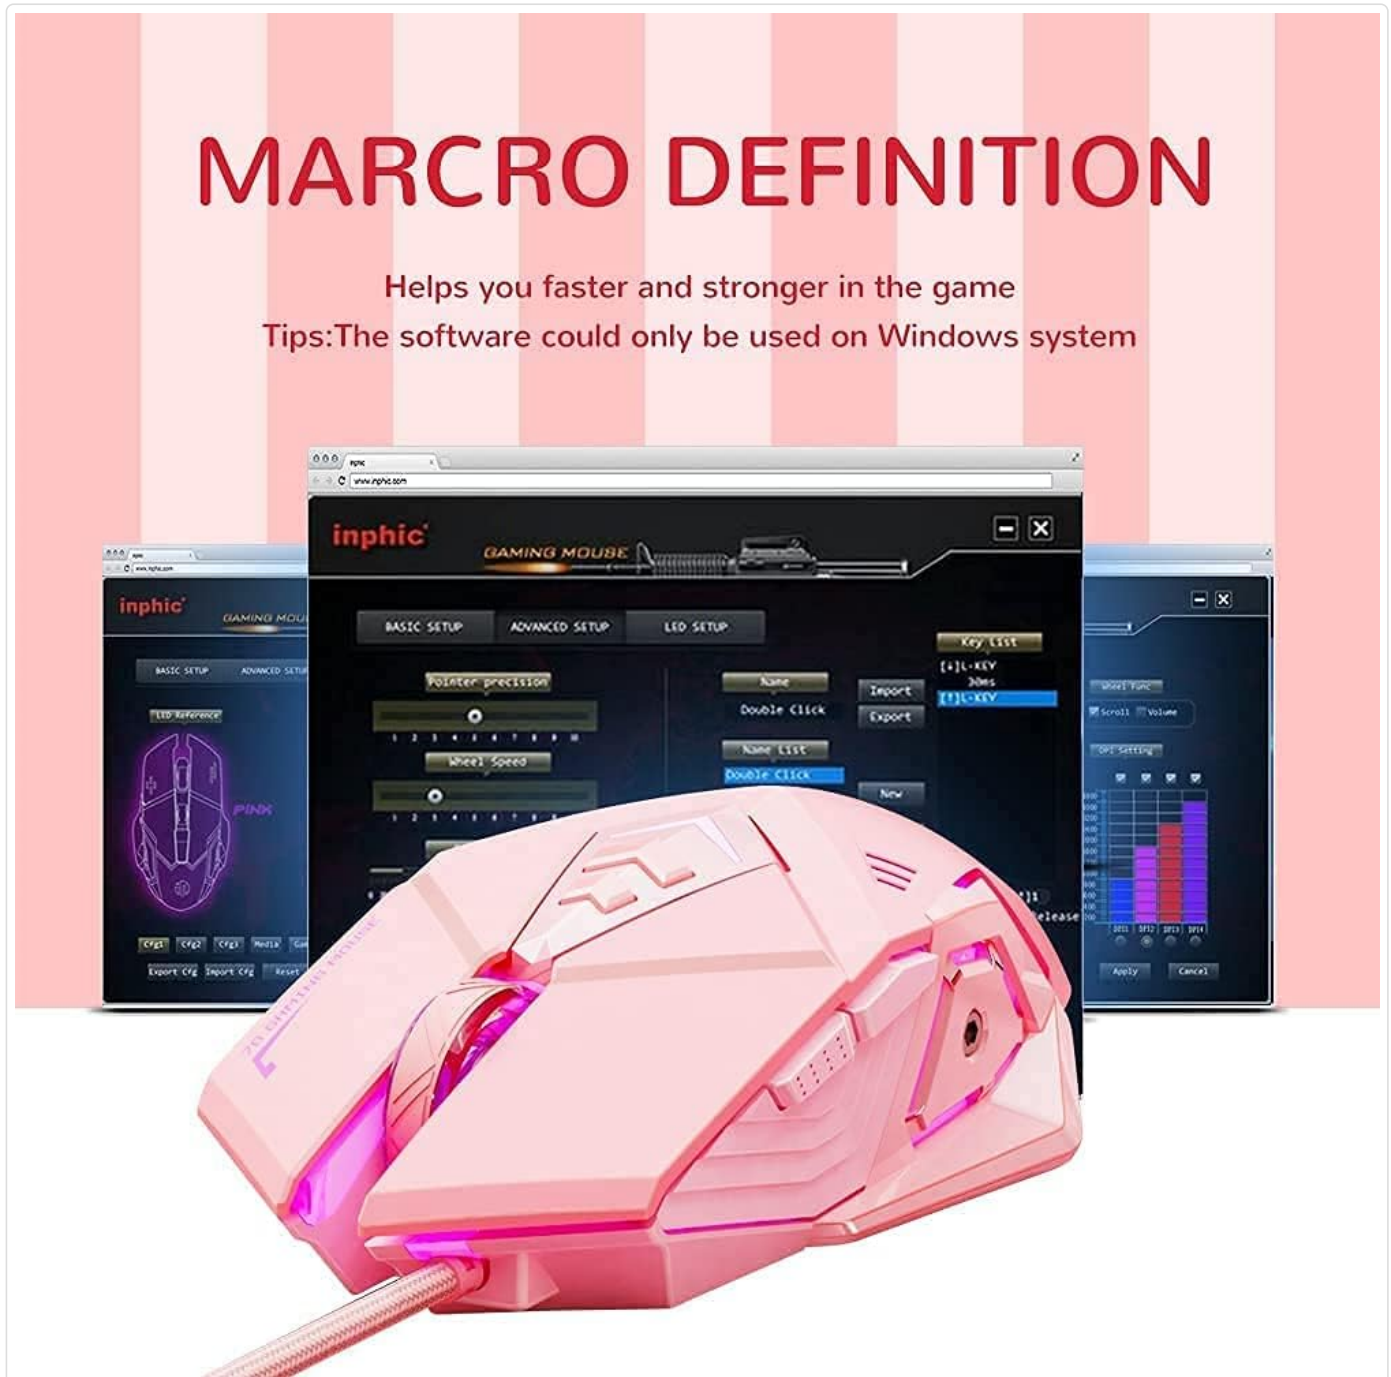

Figure 5.2: An illustration of the macro definition software interface, demonstrating options for customizing button functions and settings.

To utilize the macro definition feature:

1. Download the official INPHIC gaming mouse software from the manufacturer's website (refer to the support section for the link).
2. Install the software on your Windows operating system.
3. Open the software to access button customization, macro editing, and other advanced settings.

Note: The software is compatible with Windows systems only.

5.3 RGB Lighting Control

The mouse features an RGB backlight that cycles through four colors: pink, purple, blue, and red. You can adjust the lighting mode as follows:

- **Set to a Single Color:** Wait for the mouse to cycle to your desired color. Then, simultaneously press the **DPI-** button and one of the **side arrow buttons** (Forward or Backward). The mouse will then pulse with that single color.
- **Turn Lights Off:** Press the **DPI-** button and one of the **side arrow buttons** simultaneously again.
- **Reset to Color Cycle Mode:** Press the **DPI-** button and one of the **side arrow buttons** simultaneously a third time to return to the default color cycling mode.

5.4 Silent Click Feature

The INPHIC Pink Gaming Mouse PW5 is equipped with mute buttons, significantly reducing click noise. This feature is ideal for environments where quiet operation is preferred, such as offices, libraries, or shared living spaces.

Figure 5.3: The mouse positioned next to a laptop, illustrating its suitability for quiet environments due to its silent click design.

6. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your mouse, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris to maintain accurate tracking.
- **Cable Management:** Avoid sharply bending or twisting the USB cable to prevent internal damage.
- **Storage:** When not in use, store the mouse in a clean, dry place away from extreme temperatures.

7. TROUBLESHOOTING

If you encounter issues with your INPHIC Pink Gaming Mouse PW5, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Mouse not responding	Loose USB connection, faulty USB port, system driver issue.	Ensure the USB cable is securely plugged into a working USB port. Try a different USB port on your computer. Restart your computer. Check Device Manager (Windows) for any mouse-related errors.
Cursor movement is erratic or jumpy	Dirty optical sensor, unsuitable mouse pad surface, low DPI setting.	Clean the optical sensor on the underside of the mouse. Use the mouse on a clean, uniform surface or a high-quality mouse pad. Increase the DPI setting using the DPI+ button.
Buttons not working or programmable functions not active	Software not installed or configured correctly, button malfunction.	Ensure the INPHIC software is installed and running (for programmable buttons). Verify button assignments within the software. Test the mouse on another computer to rule out system-specific issues.
RGB lighting not working or stuck on one color	Lighting mode setting, software conflict.	Refer to Section 5.3 for RGB lighting control instructions to reset the mode. If using the software, check lighting settings.

If the problem persists after attempting these solutions, please contact INPHIC customer support.

8. SPECIFICATIONS

Feature	Detail
Model	PW5
Connectivity	Wired USB
