Ontel Star Belly Dream Lites Cuddly Blue Puppy Night Light Instruction Manual

Model: SBBP-MC4

INTRODUCTION

The Ontel Star Belly Dream Lites Cuddly Blue Puppy is a soft, plush night light designed to project glowing stars and shapes onto walls and ceilings. It creates a calming and soothing environment, making bedtime more pleasant for children. This manual provides essential information for the safe and proper use of your Star Belly Dream Lites.

SAFETY INFORMATION

For external use only. Avoid contact with eyes. Keep away from naked flame or direct heat sources.

WHAT'S IN THE BOX

- Ontel Star Belly Dream Lites, Stuffed Animal Night Light, Cuddly Blue Puppy

SETUP

Battery Installation

The Star Belly Dream Lites requires batteries for operation. Locate the battery compartment, typically secured with a Velcro closure on the back or bottom of the plush toy. Open the compartment, insert the required batteries (usually 3 AAA, though not explicitly stated, it is common for such devices), ensuring correct polarity. Close the compartment securely.

OPERATING INSTRUCTIONS

Power On/Off and Color Change

To turn on the Star Belly Dream Lites, press the button located on its belly (often within the star shape). Each press will cycle through 6 different gentle colors.

Motion Settings

The projector features 3 star motion settings: Still, Slow, and Fast. These settings can be adjusted by pressing a dedicated button (refer to the product for exact button location, often near the main power button or on the battery pack).

Automatic Turn-Off Timer

The Star Belly Dream Lites is equipped with a 20-minute sleep timer that automatically turns off the projection, conserving battery life and ensuring a peaceful sleep environment.

MAINTENANCE

Cleaning

To clean the plush toy, gently wipe the surface with a damp cloth and mild soap. Do not immerse the toy in water. Allow to air dry completely before use.

Battery Replacement

When the lights dim or the toy stops functioning, replace the batteries. Always use new batteries of the specified type and ensure correct polarity. Do not mix old and new batteries.

TROUBLESHOOTING

Lights Not Turning On

- Check if the batteries are correctly installed and have sufficient charge. Replace if necessary.
- Ensure the power switch on the battery pack (if applicable) is in the "On" position.

Dim or Flickering Lights

- This usually indicates low battery power. Replace all batteries with new ones.

Projection Not Moving

- Check the motion settings button to ensure it's not set to "Still." Cycle through the motion settings.

SPECIFICATIONS

Feature	Detail
Product Dimensions	7.28 x 5.5 x 14.61 inches
