YABER V2

YABER V2 Mini Projector User Manual

Model: V2
Brand: YABER

INTRODUCTION

This manual provides comprehensive instructions for setting up, operating, and maintaining your YABER V2 Mini Projector. Designed for home cinema, gaming, and outdoor use, the V2 offers a vibrant viewing experience with its advanced features and portable design.

WHAT'S IN THE BOX

Upon unboxing your YABER V2 Mini Projector, you should find the following items:

- YABER V2 Mini Projector
- HDMI Cable
- Remote Control
- User Manual
- Power Cord
- AV Cable
- Support Base
- Simple Projection Screen (SCT Screen)

The YABER V2 Mini Projector, shown here with its sleek white design, is a compact and portable device capable of mirroring content wirelessly from your smartphone.

SETUP

Initial Placement

Position the projector on a stable, flat surface. For optimal viewing, ensure the projector is centered with your projection screen or wall. The built-in support base can be adjusted to achieve the desired projection angle.

3LCD BrightEra

High Reduction-True Colors

The YABER V2 projector supports a large 300-inch display, with an optimal projection distance of approximately 9.6 feet for a 100-inch screen, offering flexible placement options for various viewing scenarios.

Power Connection

Connect the provided power cord to the projector's power input and then to a power outlet.

Focus and Keystone Correction

Use the focus ring on the projector lens to sharpen the image. Adjust the keystone correction (if available, usually a dial or digital setting) to correct trapezoidal distortion, ensuring a rectangular image.

Achieve a perfectly clear and rectangular image by utilizing the projector's focus and keystone correction features, which allow for precise adjustments to suit your viewing environment.

OPERATING INSTRUCTIONS

Power On/Off

Press the power button on the projector or the remote control to turn the unit on or off.

Input Source Selection

Use the 'Source' button on the remote or projector to select your desired input (HDMI, USB, VGA, AV, TF Card).

Wireless Mirroring (iOS/Android)

The YABER V2 supports Wi-Fi connection for both iOS and Android devices. Navigate to the 'Screen Mirroring' or 'Wireless Display' option in the projector's menu and follow the on-screen instructions to connect your smartphone or other Miracast-enabled devices.

Experience wireless freedom with the YABER V2 projector, allowing seamless mirroring of movies, videos, photos, and games from your smartphone or other Miracast-enabled devices without the need for cables.

Zoom Function

Utilize the zoom function via the remote control to adjust the image size from 100% to 75% without physically moving the projector.

Audio Output

The projector features built-in 3W dual stereo speakers with SRS sound system. For external audio, connect speakers via the audio output port.

The YABER V2 projector delivers a high-quality visual experience, making it ideal for home entertainment and creating an immersive viewing environment.

MAINTENANCE

Lens Cleaning

Gently clean the projector lens with a soft, lint-free cloth. Avoid abrasive materials or harsh chemicals.

Dust Removal

Regularly clean the projector's vents to prevent dust buildup, which can affect performance and lamp life. Use a soft brush or compressed air.

Lamp Life

The YABER V2 utilizes advanced SMARECO technology to minimize lamp power consumption, extending the lamp's useful life up to 100,000 hours. Proper ventilation and regular cleaning contribute to maximizing lamp longevity.

TROUBLESHOOTING

No Image or Poor Picture Quality

- Ensure all cables (power, HDMI, etc.) are securely connected.
- Verify the correct input source is selected on the projector.
- Adjust the focus ring and keystone correction for clarity.
- Check the projection distance; optimal distance is around 9.6 ft for a 100-inch screen.
- Ensure the room is sufficiently dark for best viewing results.

Choppy or Disconnected Wireless Mirroring

- Ensure your device and the projector are within close proximity to the Wi-Fi router.
- Check for Wi-Fi interference from other devices.
- Restart both your device and the projector.
- Ensure your device's operating system is up to date.

No Sound

- Check the volume levels on both the projector and the connected source device.
- Ensure external speakers (if used) are properly connected and powered on.
- Verify the audio output settings on your source device.

SPECIFICATIONS
