

Thermacell LR112

Thermacell LZ1-X Radius Mosquito Repeller User Manual

Model: LR112

PRODUCT OVERVIEW

The Thermacell LZ1-X Radius Mosquito Repeller utilizes Zone Mosquito Repellent technology to create a mosquito-free zone, effectively preventing mosquitoes from approaching and biting. This device offers a convenient and mess-free alternative to traditional chemical sprays and lotions.

Package Contents

This image displays the components included in the Thermacell LZ1-X Radius Mosquito Repeller starter kit. It shows the main Radius Zone Repeller unit, a charger and cable for recharging, and one 12-hour repellent refill cartridge.

- 1 Thermacell Radius Zone Repeller Unit
- 1 Charger and Cable
- 1 Mosquito Repellent Refill (12-hour duration)

SAFETY INFORMATION

Please read and understand all safety warnings and instructions before using this product. Failure to follow these instructions may result in injury or damage to the product.

- Keep out of reach of children and pets.
- Do not cover the repeller while in use.

- Use only Thermacell refills with this device.
- Do not expose the device to extreme temperatures or direct sunlight for prolonged periods.
- Do not submerge the device in water or other liquids.
- Ensure proper ventilation when operating indoors or in enclosed spaces.
- Dispose of used refills and the device according to local regulations.

SETUP

1. **Charge the Device:** Before first use, fully charge the Thermacell Radius Repeller using the provided charger and cable. Connect the cable to the charging port on the device and plug the charger into a standard electrical outlet. The indicator light will show charging status.
2. **Insert Repellent Refill:**
 - Remove the top cover of the Radius Repeller by twisting it counter-clockwise and lifting it off.
 - Uncap the liquid repellent refill.
 - Insert the refill into the opening in the device, ensuring it is seated firmly.
 - Replace the top cover, aligning the marks and twisting clockwise until it locks into place.

OPERATING INSTRUCTIONS

1. **Power On:** Press and hold the power button on the front of the device for approximately 2 seconds. The indicator light will illuminate, indicating the device is active and beginning to create the repellent zone.
2. **Zone Activation:** Allow 10-15 minutes for the repellent zone to fully establish. The device will quietly disperse the repellent into the air.
3. **Power Off:** Press and hold the power button again for approximately 2 seconds to turn off the device. The indicator light will turn off.
4. **Battery Indicator:** The indicator light also shows battery status. Refer to the device's specific light patterns for low battery or charging status.

MAINTENANCE

- **Cleaning:** Wipe the exterior of the device with a damp cloth. Do not use abrasive cleaners or solvents. Ensure the device is off and unplugged before cleaning.
- **Refill Replacement:** Replace the repellent refill when the liquid is depleted. Follow the "Insert Repellent Refill" steps in the Setup section.
- **Storage:** When not in use, store the Thermacell Radius Repeller in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure the device is turned off.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not turning on.	Low or no battery charge.	Charge the device fully using the provided charger.

Problem	Possible Cause	Solution
No repellent scent or mosquitoes still present.	Repellent refill is empty or improperly inserted.	Check refill level and replace if empty. Ensure refill is seated correctly. Allow 10-15 minutes for zone to establish.
Indicator light flashing abnormally.	Refer to specific light patterns in the full product manual (if available) or contact customer support.	Consult the full manual or Thermacell support for specific light codes.
