SETUP AND INSTALLATION

Follow these steps to install your PEF Outlet Wall Mount Holder:

1. **Prepare the Mount:** If using a Google Home Mini (1st Gen), ensure the small adapter ring is correctly placed in the mount to fit its power plug. For Google Nest Mini (2nd Gen), the adapter ring is not needed.
2. **Integrate the Speaker:** Gently place your Google Nest Mini or Google Home Mini into the circular cradle of the mount. Ensure it sits securely.
3. **Manage the Power Cord:** Carefully wrap the excess power cord from your speaker around the integrated cord management channels on the back of the mount. This keeps the cable tidy and out of sight.
4. **Plug into Outlet:** Insert the mount's plug into a standard electrical outlet. The design ensures a firm fit, holding the speaker vertically.
