SETUP INSTRUCTIONS

Follow these steps to assemble your Yaheetech office chair:

1. Begin by carefully unpacking all components from the packaging.
2. Locate the air cylinder and remove the black plastic cap from its top before proceeding with assembly. This step is crucial for proper function.

Video: A short demonstration by Yaheetech showing the essential step of removing the black plastic cap from the gas lift cylinder before installing it into the chair base.

3. Attach the seat to the base using the provided screws. Ensure all connections are secure.
4. If you wish to convert the chair into a bar stool style, the armrests can be left off during assembly.
5. For detailed visual instructions, refer to the user manual included in the packaging.

OPERATING INSTRUCTIONS

Your Yaheetech office chair offers several adjustable features for personalized comfort:

- **Height Adjustment:** Use the lever located beneath the seat to adjust the chair's height. Pull the lever up to raise the seat, and push it down while seated to lower it.
- **360° Swivel:** The chair is equipped with a smooth 360° swivel function, allowing for easy rotation and movement.
- **Smooth Wheels:** Technical grade wheels ensure smooth, solid, wear-resistant, and noise-free movement across hard floors.

MAINTENANCE

Proper care will extend the life and appearance of your chair:

- **Cleaning:** The PU leather surface is easy to clean. Simply wipe the chair with a damp cloth. No special treatment is needed.
- **Lubrication:** To ensure smooth operation of the air cylinder and base, it is recommended to apply edible oil, engine oil, or a rust inhibitor to their connection points periodically.

TROUBLESHOOTING

If you encounter any issues with your chair, consider the following:

- **Height Adjustment Issues:** Ensure the black plastic cap was removed from the air cylinder during assembly. Check if the lever mechanism is free from obstructions.
- **Squeaking Noises:** Apply lubricant to the connection between the air cylinder and the base as described in the Maintenance section.
- **Unstable Base:** Verify that all screws are tightened securely and the base components are correctly assembled.

For further assistance, please contact Yaheetech customer support.
