Selens oval reflector-3

Selens 5-in-1 Oval Reflector with Handle (59 x 39 Inch)

User Manual

Brand: Selens | **Model:** oval reflector-3

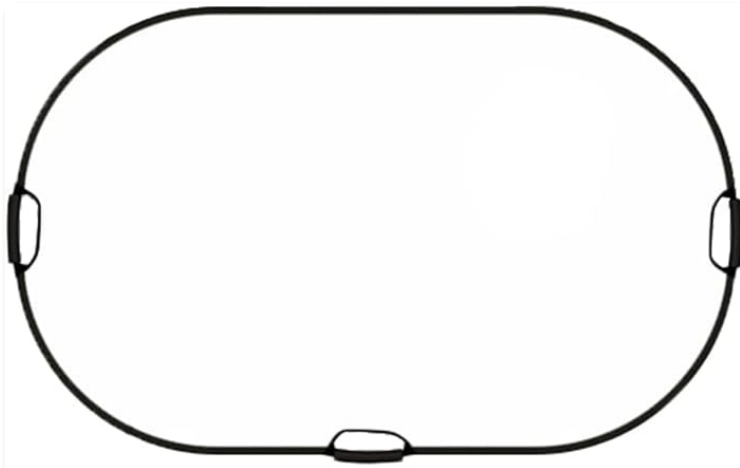

INTRODUCTION

Thank you for choosing the Selens 5-in-1 Oval Reflector with Handle. This versatile lighting accessory is designed to enhance your photography by providing various light modifying options for both studio and outdoor environments. Its portable and durable design makes it an essential tool for photographers seeking to control light effectively.

PACKAGE CONTENTS

Please verify that all items are present in your package:

- 1x Translucent Panel (main frame)
- 1x Reversible Cover (featuring White, Black, Silver, and Gold surfaces)
- 1x Portable Carry Case

1x Translucent Panel

1x Carry case

1x White & Black & Silver & Gold Cover

SETUP

The Selens 5-in-1 Oval Reflector is designed for quick and easy setup. It unfolds automatically from its compact carry case.

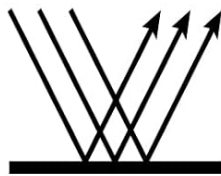

1. **Unfolding:** Carefully remove the reflector from its carry case. It will spring open to its full size. Hold it away from your face and other people during unfolding.
2. **Attaching the Cover:** The main frame is a translucent diffuser. To use other surfaces, slide the reversible cover

over the translucent panel. Ensure the elastic edges of the cover fit snugly around the frame.

3. **Positioning:** Utilize the two comfortable grips on the reflector for easy handling and precise positioning. The reflector can be held by hand or mounted onto a stand using appropriate clamps (not included).

OPERATING INSTRUCTIONS

The 5-in-1 reflector offers various surfaces to control and modify light, allowing for diverse photographic effects.

Reflector Surfaces and Their Uses:

- **Silver:** Increases specular highlights and yields a high-contrast image. Ideal for filling in shadows and adding a crisp, bright look.
- **Gold:** Produces a warm fill light, excellent for outdoor portraits or sunset shots to enhance skin tones and create a golden hour effect.
- **White:** Provides a soft, neutral fill light. It's a versatile option for subtle light modification without altering color temperature.
- **Black:** Used to block unwanted light or absorb reflections, creating shadows and adding depth to your subject.

- **Translucent (Diffuser):** Softens direct light, reducing harsh shadows and hot spots. Place it between the light source and the subject for a diffused, even illumination.

5 IN 1 Reflector

5 Colors to meet different needs of photography

Gold

Silver

Folding the Reflector:

To fold the reflector back into its compact size for storage, follow these steps:

1. Hold the reflector by the handles with both hands.
2. Twist your wrists in opposite directions, bringing the top and bottom edges together.
3. The reflector will form three smaller circles. Overlap these circles to create a compact disc.
4. Secure it with the attached strap or place it directly into the carry case.

Video: This video demonstrates how to unfold and fold the Selens 5-in-1 Oval Reflector, showcasing its various surfaces (silver, gold, white, black, translucent) and its portability for different photography setups.

MAINTENANCE

Proper care will extend the life of your reflector:

- **Cleaning:** For the fabric surfaces, gently wipe with a damp cloth and mild soap if necessary. Avoid harsh chemicals. Allow to air dry completely before folding and storing.
- **Storage:** Always fold the reflector into its carry case when not in use to protect the surfaces and maintain the integrity of the frame. Store in a cool, dry place.
- **Handling:** Avoid sharp objects that could puncture or tear the fabric. Do not apply excessive force when folding or unfolding.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Reflector does not unfold properly.	May be stuck or frame is bent.	Gently manipulate the frame to release any tension. Ensure no fabric is caught.
Difficulty folding the reflector.	Incorrect twisting motion.	Refer to the folding instructions or the video demonstration. Practice the twisting motion.
Uneven light reflection.	Reflector surface is wrinkled or dirty.	Ensure the fabric cover is smooth and clean. Position the reflector correctly relative to the light source and subject.

SPECIFICATIONS

Feature	Detail
