Lasko FF305

Lasko Air Flex 20" 2-in-1 Box Fan and Air Purifier User Manual (Model FF305)

Your guide to setup, operation, and maintenance.

1. INTRODUCTION AND PRODUCT OVERVIEW

The Lasko Air Flex is a versatile 20-inch appliance designed to function as both a powerful box fan and an effective air purifier. This unit is engineered to provide a cooling breeze while simultaneously cleaning the air in your room using a MERV 10 pleated air filter. Its durable construction, including a steel body and Weather-Shield motor, ensures reliable performance.

Image 1.1: The Lasko Air Flex 20-inch 2-in-1 Box Fan and Air Purifier. This unit combines air circulation with air purification capabilities.

Key features include a 5-blade fan for 2000 CFM airflow, three energy-efficient speeds, and compatibility with standard 20 x 20 x 1-inch replacement filters. The design prioritizes both air movement and air quality improvement.

2. IMPORTANT SAFETY INSTRUCTIONS

Please read and save these important safety instructions before using this product to reduce the risk of fire, electrical shock, or injury to persons.

- Always unplug the fan before moving, cleaning, or performing any maintenance.
- Do not operate any fan with a damaged cord or plug. Discard fan or return to an authorized service facility for examination and/or repair.
- Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Arrange cord away from traffic area where it will not be tripped over.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the fan.
- To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.
- This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock,

this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

- **Proposition 65 Warning:** This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
- The fan is equipped with Lasko's trusted safety fuse technology.
- While the fan features a Weather-Shield motor for window use, ensure electrical connections are protected from direct moisture.
- Using filters with a MERV rating significantly higher than the included MERV 10 filter may reduce airflow and potentially strain the motor. It is recommended to use MERV 8-10 filters for optimal performance and motor longevity.

3. PACKAGE CONTENTS

Upon unpacking, please ensure all items are present:

- Lasko Air Flex 20" 2-in-1 Box Fan Unit (Model FF305)
- MERV 10 / 42 CADR Pleated Air Filter (pre-installed or separately packaged)
- Two (2) Plastic Feet (often found within the cardboard packaging)

4. SETUP INSTRUCTIONS

4.1 Attaching the Feet

The Lasko Air Flex fan includes two plastic feet for stability. These feet are typically secured within the internal cardboard packaging for shipping. Locate these feet and attach them to the bottom of the fan unit by clamping them into the designated slots.

Air Purifying Filter

MERV10
(42 CADR) Filter
included

Easy Access

Standard size
20" x 20" x 1"

Image 4.1: Illustration of the fan's dimensions, carry handle, and the location for attaching the feet (bottom corners).

4.2 Filter Installation (if not pre-installed)

The fan is designed to accommodate a standard 20 x 20 x 1-inch air filter. If your filter is not pre-installed, slide it into the designated slot on the back of the fan. Ensure the airflow arrow on the filter points towards the fan blades.

Ergonomic Control Knob 3 Powerful Speeds

Image 4.2: The filter compartment on the Lasko Air Flex, showing easy access for filter installation and replacement. A MERV 10 filter is included.

4.3 Placement

Position the fan on a stable, flat surface. For optimal air circulation and purification, consider placing the fan 1 to 3 feet in front of a window rather than directly on the windowsill. This can enhance the volume of air drawn into the room. Experiment with placement to find the most effective setup for your environment.

5. OPERATING INSTRUCTIONS

The Lasko Air Flex features a simple mechanical control knob for operation.

Air Purifier

Room Fan

3 Powerful
Speeds

Enhanced
Motor

Image 5.1: Close-up of the ergonomic control knob, indicating the three speed settings (1, 2, 3) and off (0).

1. **Power On:** Plug the fan into a 120V AC electrical outlet.
2. **Select Speed:** Rotate the control knob clockwise to select your desired speed setting:
 - 1: Low Speed
 - 2: Medium Speed
 - 3: High Speed
3. **Power Off:** Rotate the control knob counter-clockwise to the "0" position to turn the fan off.

The fan will begin circulating air and purifying it immediately upon activation.

6. MAINTENANCE AND FILTER REPLACEMENT

6.1 General Cleaning

- Always unplug the fan from the power outlet before cleaning.
- Use a soft cloth to gently wipe the exterior surfaces of the fan.

- Do not immerse the fan in water or allow water to drip into the motor housing.
- Use a vacuum cleaner with a brush attachment to remove dust from the grilles.

6.2 Filter Replacement

The air filter should be replaced regularly to maintain optimal air purification performance. The frequency of replacement depends on usage and air quality, but a general guideline is every 2-4 months.

1. **Unplug the Fan:** Ensure the fan is unplugged from the power source.
2. **Access Filter:** Locate the filter compartment on the back of the fan.
3. **Remove Old Filter:** Gently pull out the used 20 x 20 x 1-inch filter.
4. **Insert New Filter:** Insert a new standard 20 x 20 x 1-inch air filter. Ensure the airflow arrow on the filter points towards the fan blades (into the unit).
5. **Dispose:** Properly dispose of the old filter.

Replacement filters are widely available at home stores.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Fan does not operate.	No power to the unit.	Ensure the fan is plugged into a working 120V AC outlet. Check household fuse/circuit breaker.
Reduced airflow or purification.	Clogged air filter.	Replace the air filter (refer to Section 6.2).
Excessive noise or vibration.	Fan not on a stable surface; loose components; normal operation at higher speeds.	Ensure the fan is on a flat, stable surface. Check for any loose parts. Some vibration is normal at higher speeds.
Control knob feels loose or comes off.	Knob not securely attached to the switch shaft.	Align the knob with the switch shaft and firmly push it back into place.

If the problem persists after attempting these solutions, please contact Lasko customer support.

8. SPECIFICATIONS

- **Model Number:** FF305
- **Product Dimensions (D x W x H):** 6.36" x 21.3" x 23.2"
- **Weight:** 11 Pounds
- **Power Input:** 120 Volts
- **Wattage:** 100 Watts
- **Airflow:** 2000 CFM (Cubic Feet per Minute)
- **Speeds:** 3 (Low, Medium, High)
- **Controller Type:** Mechanical Knob
- **Filter Type:** MERV 10 (included), compatible with standard 20" x 20" x 1" filters
- **Manufacturer:** Lasko

9. WARRANTY AND CUSTOMER SUPPORT

9.1 Warranty Information

Specific warranty details for your Lasko Air Flex FF305 are typically included with the product packaging or can be found on the official Lasko website. Please refer to these resources for the most current and complete warranty terms and conditions.

9.2 Customer Support

For technical assistance, replacement parts, or any questions regarding your Lasko Air Flex fan, please contact Lasko customer support. You can usually find contact information, including phone numbers and email addresses, on the Lasko official website or within your product's packaging.
