IRIS USA 596017

IRIS USA 2-Tier Shoe Rack, Fixed (Model 596017) Instruction Manual

Brand: IRIS USA | Model: 596017

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your IRIS USA 2-Tier Shoe Rack, Model 596017. This compact and versatile shoe rack is designed to organize up to 6 pairs of shoes, making it ideal for various spaces such as entryways, closets, bedrooms, mudrooms, or dorms. Its stackable design allows for expansion to create a larger storage solution.

SAFETY INFORMATION

- For indoor use only.
- Do not allow children to climb on or play with the product to prevent injury.
- Ensure the rack is placed on a stable, level surface.
- Do not exceed the weight capacity of 4.4 lbs (2 kg) per shelf.

PACKAGE CONTENTS

Before assembly, please verify that all components are present:

- 2 x Side Panels (Plastic)
- 4 x Poles (Metal)
- Note: A screwdriver is required for assembly (not included).*

SETUP AND ASSEMBLY

Follow these steps to assemble your IRIS USA 2-Tier Shoe Rack:

- Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface.
- Attach Poles to Side Panels:** Take one side panel. Insert the ends of two metal poles into the designated holes on the side panel. Ensure they are securely fitted. Repeat this process for the second side panel, connecting the other ends of the two poles.

3. **Secure Connections:** Use a screwdriver to tighten any screws if provided, ensuring all connections are firm and stable. The design typically uses interlocking joints for a snug fit.
4. **Repeat for Second Tier:** If assembling a single 2-tier unit, you will have two poles for the top tier and two for the bottom. If stacking multiple units, ensure the interlocking joints are aligned and secured.

OPERATING INSTRUCTIONS

Using your shoe rack is straightforward:

- **Placing Shoes:** Carefully place shoes on the metal poles. The rack is designed to hold up to 6 pairs of shoes (3 pairs per tier).
- **Weight Distribution:** Distribute the weight evenly across the shelves. Do not overload any single section.
- **Stacking Multiple Units:** If you have purchased multiple IRIS USA 2-Tier Shoe Racks, you can stack them using the integrated interlocking joints to create a taller storage unit (up to 4 tiers recommended for stability).

MAINTENANCE

To ensure the longevity and appearance of your shoe rack:

- **Cleaning:** Wipe down the metal poles and plastic side panels with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Inspection:** Periodically check all connections to ensure they remain secure. Tighten any loose screws if necessary.
- **Storage:** If disassembling for storage, keep all components together in a dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Rack is wobbly or unstable.	Connections are not fully tightened; uneven surface.	Ensure all poles are firmly inserted into the side panels. Tighten any screws. Place the rack on a flat, level surface.
Shoes slide off easily.	Rack is overloaded; shoes are not placed centrally.	Do not exceed the weight capacity per shelf. Ensure shoes are placed securely on the poles.
Difficulty stacking multiple units.	Interlocking joints are not aligned correctly.	Carefully align the interlocking joints of the upper unit with the lower unit before pressing down to secure.
