RASTAR 1:14 Mercedes-AMG G63 Remote Control Car Instruction Manual

Model: 95700

1. INTRODUCTION

This manual provides essential instructions for the safe and proper operation, setup, and maintenance of your RASTAR 1:14 Mercedes-AMG G63 Remote Control Car. Please read this manual thoroughly before use and retain it for future reference.

Image 1.1: The RASTAR 1:14 Mercedes-AMG G63 Remote Control Car in white, shown with its remote control. The car features open doors and working headlights.

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small Parts. Not for children under 3 years.

- Always supervise children during operation.
- Do not operate the vehicle near streets, water, or in crowded areas.
- Avoid operating in adverse weather conditions such as rain or strong winds.
- Ensure all batteries are inserted correctly according to polarity markings.
- Do not mix old and new batteries, or different types of batteries.
- Remove batteries from the vehicle and remote control when not in use for extended periods.

3. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 1 x 1/14 RASTAR Off-Road RC Mercedes-AMG G63 Vehicle
- 1 x Dual-Grip Remote Controller
- 1 x User Guide

Image 3.1: The RASTAR Mercedes-AMG G63 RC car, its remote control, and the product packaging.

4. SETUP

4.1 Battery Installation

Batteries are not included and must be purchased separately.

1. For the Vehicle:

- Locate the battery compartment on the underside of the vehicle.
- Open the battery compartment cover using a screwdriver (not included).
- Insert 5 x 'AA' size batteries, ensuring correct polarity (+/-).
- Close the battery compartment cover and secure it with the screw.

2. For the Remote Controller:

- Locate the battery compartment on the back of the remote controller.
- Open the battery compartment cover.
- Insert 2 x 'AA' size batteries, ensuring correct polarity (+/-).
- Close the battery compartment cover.

BATTERIES-POWERED

- Full functions - Forward, Reverse, Turn Left/Right
- Remote range up to 98 feet
- Speed 5 mph
- Frequency 2.4GHz
- Batteries NOT included

Image 4.1: Visual guide for battery installation in both the RC car and its remote control. The image also highlights the car's full functions and 2.4GHz frequency.

4.2 Pairing the Remote Control

The RASTAR Mercedes-AMG G63 uses a 2.4GHz frequency system, which typically pairs automatically. Follow these steps:

1. Ensure fresh batteries are installed in both the vehicle and the remote control.
2. Turn on the vehicle using the power switch (usually located on the underside or inside the car).
3. Turn on the remote control. The remote and vehicle should automatically connect.
4. If the car does not respond, turn both devices off and then on again. Ensure they are within close proximity during pairing.

5. OPERATING INSTRUCTIONS

Familiarize yourself with the remote control and vehicle functions before operating.

5.1 Basic Controls

- **Forward:** Push the left joystick (or trigger) forward.
- **Reverse:** Pull the left joystick (or trigger) backward.
- **Turn Left:** Push the right joystick (or turn the wheel) to the left.
- **Turn Right:** Push the right joystick (or turn the wheel) to the right.
- **Stop:** Release the joysticks to their neutral position.

The vehicle has a maximum speed of approximately 5 mph (8.2 km/h) and a remote range of up to 98 feet (15 meters).

5.2 Special Features

- **Doors:** The front doors and the rear door can be opened manually.
- **Lights:** The LED headlights and taillights illuminate when the car is in motion.

Image 5.1: Close-up view of the RC car, illustrating its manually opening doors, working taillights, spare tire, top window, and the underlying mechanical features like independent suspension, differential mechanism, and shock absorption.

Image 5.2: Detailed components of the RC car, showing the working headlights, intricate interior design (steering wheel, dashboard), realistic rims and tires, and side mirrors.

5.3 Operating Environment

For optimal performance, operate the RC car on smooth, flat surfaces such as concrete, wood, or asphalt. It is not designed for off-road use on grass or uneven terrain due to its stiff suspension and limited ground clearance.

6. MAINTENANCE

- **Cleaning:** Wipe the vehicle with a soft, dry cloth. Do not use water or chemical cleaners, as this may damage electronic components.
- **Storage:** Store the vehicle and remote control in a cool, dry place away from direct sunlight when not in use. Remove batteries if storing for extended periods.
- **Battery Care:** Always use fresh batteries. Dispose of used batteries responsibly according to local regulations.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Vehicle does not move or respond.	◦ Batteries are low or incorrectly installed. ◦ Vehicle or remote control is not turned on. ◦ Out of range. ◦ Interference from other 2.4GHz devices.	◦ Replace batteries in both vehicle and remote, ensuring correct polarity. ◦ Ensure both vehicle and remote control power switches are ON. ◦ Bring the vehicle closer to the remote control. ◦ Move to an area with less interference.
Vehicle moves slowly or erratically.	◦ Low batteries. ◦ Operating on an unsuitable surface (e.g., carpet, grass).	◦ Replace batteries. ◦ Operate on a smooth, flat surface.
Lights are not working.	◦ Vehicle is not turned on or batteries are low.	◦ Ensure vehicle is on and batteries are fresh.

8. SPECIFICATIONS

- **Model Number:** 95700
- **Scale:** 1:14
- **Product Dimensions:** 14.4 x 5.39 x 5.35 inches (36.6 x 13.7 x 13.6 cm)
- **Item Weight:** 2.64 pounds
- **Frequency:** 2.4GHz
- **Speed:** Approximately 5 mph (8.2 km/h)
- **Remote Range:** Up to 98 feet (15 meters)
- **Vehicle Batteries:** 5 x 'AA' (not included)
- **Remote Control Batteries:** 2 x 'AA' (not included)
- **Recommended Age:** 6 years and up
- **Manufacturer:** Rastar
