NIXON Axis

NIXON Axis Belt User Manual

Introduction

This manual provides essential information for the proper use and care of your NIXON Axis Belt. Please read these instructions carefully to ensure optimal performance and longevity of your product.

1. Setup and Initial Use

1.1 Unpacking

Carefully remove the NIXON Axis Belt from its packaging. Inspect the belt for any signs of damage. If any damage is observed, contact customer support.

1.2 Adjusting the Belt

The NIXON Axis Belt features a single post steel buckle for secure fastening. To wear the belt, thread the end through the buckle and secure the post into the desired hole for a comfortable and snug fit around your waist.

2. Operating Instructions

2.1 Daily Wear

The NIXON Axis Belt is designed for daily use. Ensure the buckle is securely fastened to prevent accidental loosening. The full-grain leather will conform to your body over time, providing a comfortable fit.

2.2 Fastening and Unfastening

To fasten, insert the belt end through the buckle and engage the buckle's post into one of the belt holes. To unfasten, disengage the post from the hole and pull the belt end through the buckle.

3. Maintenance and Care

3.1 Cleaning

To clean your NIXON Axis Belt, use a dry cloth. Gently wipe the leather surface to remove dust and dirt. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the leather.

3.2 Storage

Store the belt in a cool, dry place away from direct sunlight and extreme temperatures. Rolling the belt loosely or hanging it can help maintain its shape and prevent creasing.

4. Troubleshooting

4.1 Belt Feels Too Tight or Loose

Adjust the buckle to a different hole to achieve a more comfortable fit. If the belt consistently feels too tight or loose, consider checking the size guide for future reference.

4.2 Leather Appearance Changes

Natural leather may develop a patina over time, which is a normal characteristic. Minor scuffs can often be buffed out with a dry cloth. For significant damage, professional leather care may be required.
