RASTAR 96010

RASTAR Lamborghini Aventador SVJ 1:14 Scale Remote Control Car Instruction Manual

Model: 96010

This manual provides essential information for the setup, operation, and maintenance of your RASTAR Lamborghini Aventador SVJ remote control car.

1. PRODUCT OVERVIEW

The RASTAR Lamborghini Aventador SVJ is a 1:14 scale remote control model car, officially licensed by Lamborghini. It features detailed interior and exterior design, providing a realistic driving experience.

Image 1.1: The RASTAR Lamborghini Aventador SVJ remote control car and its controller.

Key Features:

- Officially licensed Lamborghini Aventador SVJ design.
- 1:14 scale replica.
- Working LED headlights and taillights.
- 4-wheel independent suspension system.
- Shock absorption and differential mechanism.
- Detailed interior with steering wheel and dashboard.
- 2.4GHz control system for multi-user racing without interference.
- Full functions: Forward, reverse, stop, turn left, turn right.

3. SETUP

3.1 Battery Installation

For the Remote Control Car:

1. Locate the battery compartment on the underside of the car.
2. Use a screwdriver to open the battery compartment cover.
3. Insert 5 AA batteries (not included) into the compartment, ensuring correct polarity (+/-).
4. Replace the battery compartment cover and secure it with the screw.

For the Remote Controller:

1. Locate the battery compartment on the back of the remote controller.
2. Open the battery compartment cover.
3. Insert 2 AA batteries (not included) into the compartment, ensuring correct polarity (+/-).
4. Replace the battery compartment cover.

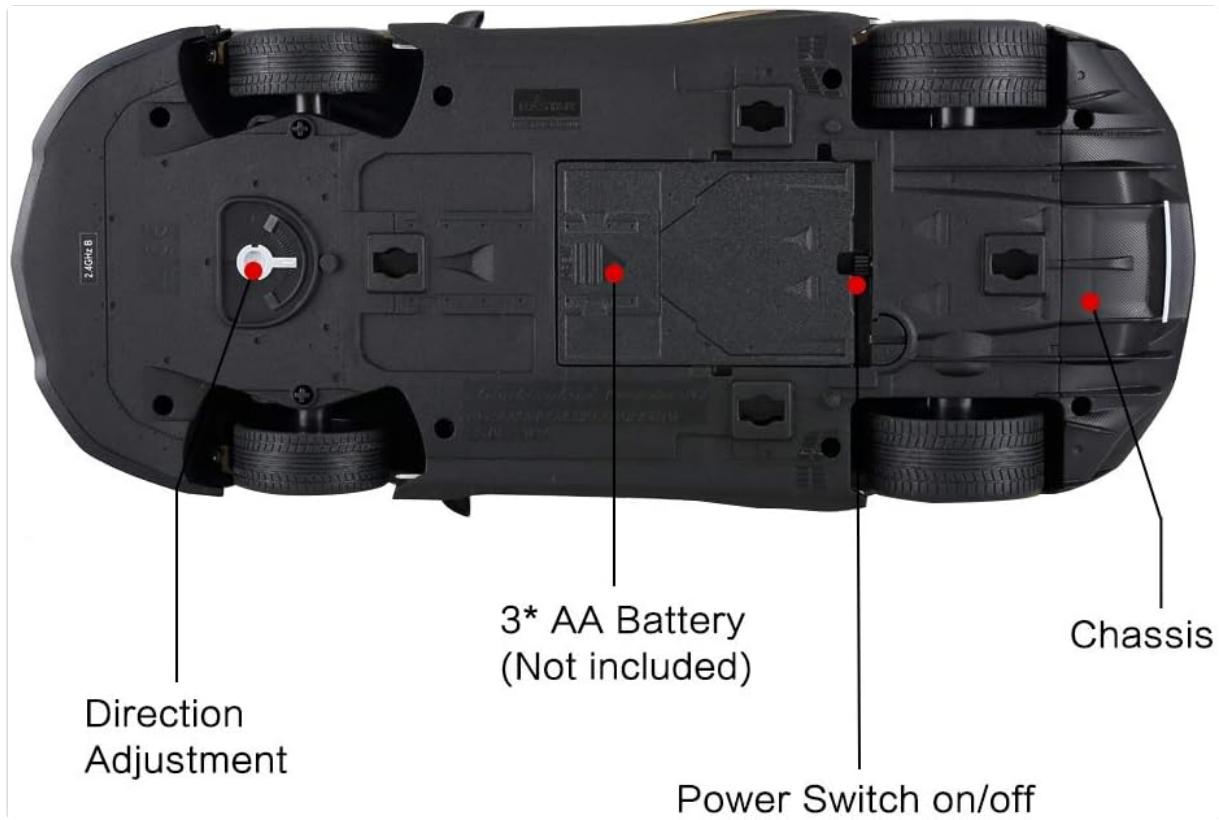

Image 3.1: Underside of the car indicating battery placement and controls. Note: The product description specifies 5 AA batteries for the car.

BATTERIES-POWERED

- Full functions - Forward, Reverse, Turn Left/Right
- Remote range up to 98 feet
- Speed 5 mph
- Frequency 2.4GHz
- Batteries NOT included

Image 3.2: Battery requirements and basic functions overview.

3.2 Pairing the Remote Control

The RASTAR Lamborghini Aventador SVJ uses a 2.4GHz control system, which typically pairs automatically. Follow these steps:

1. Ensure fresh batteries are installed in both the car and the remote controller.
2. Turn on the power switch on the underside of the car.
3. Turn on the remote controller.
4. The car and remote should automatically connect. If not, turn both off and on again.

4. OPERATING INSTRUCTIONS

Once the car and remote are paired, you can begin operation.

4.1 Basic Controls

- **Forward:** Push the forward lever/button on the remote.
- **Reverse:** Push the reverse lever/button on the remote.

- **Turn Left:** Use the steering wheel or left turn button on the remote while moving forward or reverse.
- **Turn Right:** Use the steering wheel or right turn button on the remote while moving forward or reverse.
- **Stop:** Release the forward/reverse controls.

4.2 Performance Information

- **Speed:** Approximately 5 mph (8 km/h).
- **Remote Range:** Up to 98 feet (30 meters).
- **Frequency:** 2.4GHz, allowing multiple RASTAR 2.4GHz vehicles to operate simultaneously without interference.

4.3 Direction Adjustment

If the car does not drive straight, use the direction adjustment knob located on the underside of the car (refer to Image 3.1) to fine-tune its alignment.

5. MAINTENANCE

5.1 Cleaning

- Wipe the car and remote control with a soft, dry cloth.
- Do not use chemical cleaners or water, as this can damage electronic components.

5.2 Battery Care

- Always remove batteries from the car and remote control when not in use for extended periods.
- Do not mix old and new batteries, or different types of batteries.
- Dispose of used batteries responsibly according to local regulations.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Car does not move or respond.	Batteries are low or incorrectly installed. Car or remote power switch is off. Car and remote are not paired.	Replace batteries in both car and remote, ensuring correct polarity. Ensure both power switches are ON. Turn both car and remote off, then on again to re-establish connection.
Short control range or intermittent response.	Low batteries. Environmental interference. Obstructions between remote and car.	Replace batteries. Operate in an open area away from other electronic devices. Ensure a clear line of sight between the remote and the car.
Car pulls to one side.	Steering alignment needs adjustment.	Use the direction adjustment knob on the underside of the car to correct the steering.

7. SPECIFICATIONS

Feature	Detail
Model Number	96010
Scale	1:14
Product Dimensions (L x W x H)	13.9 x 6.4 x 3.2 inches (35.3 x 16.2 x 8.2 cm)
Item Weight	2.4 pounds
Car Batteries Required	5 x AA batteries (not included)
Remote Batteries Required	2 x AA batteries (not included)
Frequency	2.4GHz
Max Speed	5 mph (8 km/h)
Remote Range	Up to 98 feet (30 meters)
Manufacturer Recommended Age	6 years and up
