BarxBuddy RX-0659-XKQC

BarxBuddy Anti Barking Control Device User Manual

Model: RX-0659-XKQC

Introduction

The BarxBuddy Anti Barking Control Device is designed to assist in training dogs by emitting an ultrasonic sound and utilizing an LED light. This device aims to help correct unwanted behaviors such as excessive barking, digging, fighting, and chewing. It is a portable tool intended for safe and humane use across various dog breeds and sizes.

Safety Information

No specific safety warnings are applicable beyond general device handling. Always use the device responsibly and as intended for dog training.

- This device is not intended to provide protection against aggressive dogs.
- The product may not be effective on dogs with hearing problems.
- The product cannot be used for dogs under six months of age.
- Different dog breeds may react to the ultrasonic sound differently.
- For optimal results, use the product as a training aid in conjunction with other tools and commands. Patience is key during the training process.

Setup

Before first use, ensure the battery is correctly installed.

1. Remove the cover on the back of the device.
2. Take the 9V battery out of the device and remove the plastic wrap.
3. Connect the battery to the device's terminal.
4. Place the battery back into the compartment and put the cover back on securely.

Operating Instructions

The BarxBuddy device features an ultrasonic sound emitter and an LED flashlight for versatile training and utility.

Ultrasonic Bark Control & Training

- The device emits an ultrasonic sound within the dog's hearing range (15Hz to 120KHz), which is generally inaudible to humans (20Hz - 20KHz).
- To activate the ultrasonic sound, press and hold the main button. This sound is designed to safely grab your dog's attention and interrupt unwanted behaviors.
- Use this function to deter actions such as excessive barking, digging, fighting, or eating unsafe items.
- The effective range for the ultrasonic sound is up to 20 feet.

Figure 2: The BarxBuddy device can help stop unwanted behaviors like digging or chewing.

Figure 3: The ultrasonic sound is designed to be heard only by dogs, not humans.

Figure 4: The BarxBuddy device has an effective range of up to 20 feet for training.

LED Flashlight Function

- The device includes a super bright LED flashlight.
- Use the dedicated switch to turn the flashlight on for illumination during night walks or in low-light conditions.
- When the main button is held down, the device will not only emit ultrasonic sound but also rapidly flash the bright LEDs. This visual stimulus can serve as a secondary deterrent for more stubborn dogs.

Portability

The compact and handheld design, along with the included wrist strap, makes the BarxBuddy device easy to carry and use anywhere – at home, in the park, or during walks and jogs to deter other approaching dogs.

Figure 5: The BarxBuddy device is suitable for training dogs of all types, sizes, and ages.

Figure 6: Consistent and regular training is crucial for achieving desired results.

Maintenance

- The device should not be washed.
- To clean, wipe the exterior with a dry or slightly damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Store the device in a cool, dry place when not in use.
- If the device will not be used for an extended period, it is recommended to remove the battery to prevent leakage.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Device not turning on or no ultrasonic sound/light.	Battery not installed, battery dead, or plastic wrap still on battery.	Check battery installation, ensure plastic wrap is removed, and replace with a new 9V battery if necessary.
Dog does not respond to the device.	Dog has hearing problems, is under six months old, or is a breed less sensitive to ultrasonic frequencies. Inconsistent training.	Ensure the dog's hearing is adequate. The device is not recommended for dogs under six months. Be patient and consistent with training; combine with other training methods. Note that effectiveness can vary by breed.
Limited range or effectiveness.	Obstructions, distance too great, or environmental interference.	Ensure direct line of sight to the dog. Use within the recommended 20-foot range.

Specifications

Feature	Detail
Model Number	RX-0659-XKQC
Brand	BarxBuddy
Item Weight	4.2 ounces
Product Dimensions (LxWxH)	5.38 x 2.13 x 1.13 inches
Battery Type	1 x 9V battery (included)
Ultrasonic Frequency Range	15Hz to 120KHz
Effective Range	Up to 20 feet
Color	Black
Material	Other
Care Instructions	Do not Wash

Warranty and Support

For information regarding product warranty, returns, or technical support, please contact the manufacturer or the seller directly through your purchase platform. Retain your proof of purchase for any warranty claims.
