BENGOO DM-1

BENGOO DM-1 RGB Gaming Mouse User Manual

Model: DM-1

INTRODUCTION

Thank you for choosing the BENGOO DM-1 RGB Gaming Mouse. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your new gaming mouse. Please read this manual carefully to ensure optimal performance and longevity of your device.

1. SETUP

1. **Unpacking:** Carefully remove the BENGOO DM-1 RGB Gaming Mouse from its packaging.
2. **Connect to PC:** Plug the USB connector of the mouse into an available USB port on your computer. The mouse is a wired USB device and does not require batteries.

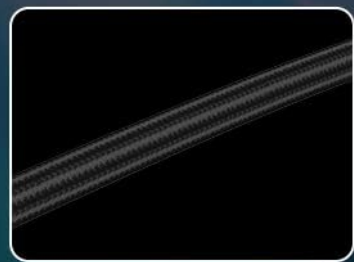

7 PROGRAMMABLE BUTTONS & DETAILS ORIENTED

Gold Plated USB Plug

Anti-interference Ring

Braided Cable

Image: The BENGOO DM-1 Gaming Mouse features a gold-plated USB plug, an anti-interference ring, and a durable braided cable for reliable connection.

3. **Driver Installation:** The mouse is typically plug-and-play for basic functionality. For advanced customization, such as programming buttons or specific lighting modes, you may need to download the dedicated driver software. Refer to the instructions provided with the mouse for driver download details.

2. OPERATING INSTRUCTIONS

2.1 DPI Adjustment

The BENGOO DM-1 mouse features 6 adjustable DPI levels, allowing you to control cursor speed and precision. Use the DPI+/- buttons located on the top of the mouse to cycle through the settings.

- **DPI Levels:** 800 / 1600 / 2400 / 3200 / 4800 / 7200

The current DPI setting is often indicated by a change in the mouse's LED color or pattern.

6 ADJUSTABLE DPI LEVELS

Control the Speed More Freely, Offers You Better Operation

Image: A hand demonstrates using the BENGOO DM-1 Gaming Mouse, with a visual representation of the 6 adjustable DPI levels (800, 1600, 2400, 3200, 4800, 7200) for precise control.

2.2 Polling Rate Adjustment

The polling rate determines how often the mouse reports its position to the computer. The DM-1 offers 4 adjustable polling rates:

- **Polling Rates:** 125Hz / 250Hz / 500Hz / 1000Hz

Adjustment of the polling rate typically requires the driver software. Higher polling rates generally provide smoother tracking but may consume more system resources.

2.3 RGB Backlit Lighting Modes

The mouse features Chroma RGB backlighting with 6 different lighting effects. To change the lighting mode or turn off the lighting:

- Simultaneously press the '**Right**' button and the '**Backward**' button.
- Repeat this action to cycle through the 6 available lighting effects or to turn the lighting off.

For more advanced customization of lighting modes, download and use the driver software.

2.4 Programmable Buttons

The BENGOO DM-1 mouse is equipped with seven buttons for enhanced functionality:

- Left Button
- Right Button
- Scroll Wheel (Middle Button)
- Forward Button
- Backward Button
- DPI+ Button
- DPI- Button

These buttons can be customized for specific functions or macros using the driver software to suit your gaming or work preferences.

3. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the mouse. For the honeycomb shell, a soft brush or compressed air can help remove dust and debris. Avoid using harsh chemicals or abrasive materials.
- **Cable Care:** Avoid sharp bends or excessive pulling on the braided USB cable to prevent damage.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

4. TROUBLESHOOTING

Mouse not responding:

- Ensure the USB cable is securely plugged into a working USB port on your computer.
- Try plugging the mouse into a different USB port.

- Restart your computer.
- Test the mouse on another computer to determine if the issue is with the mouse or the computer.

RGB lighting not working or stuck:

- Press the 'Right' button and 'Backward' button simultaneously to cycle through lighting modes.
- Ensure the mouse driver software is installed correctly and up to date.
- Check for any software conflicts or settings that might disable lighting.

DPI settings not changing:

- Press the DPI+/- buttons firmly.
- If using custom profiles, ensure the correct profile is active in the driver software.
- Reinstall the mouse driver software if necessary.

5. SPECIFICATIONS
