QiMH MKTBA

QiMH Industrial Floor Lamp User Manual

MODEL: MKTBA

1. INTRODUCTION

Thank you for purchasing the QiMH Industrial Floor Lamp. This manual provides essential information for the safe and efficient use of your new lamp. Please read these instructions thoroughly before assembly and operation, and retain them for future reference.

The QiMH Industrial Floor Lamp provides ambient lighting for various indoor spaces.

2. SAFETY INSTRUCTIONS

- Ensure the power supply is disconnected before assembly, cleaning, or bulb replacement.
- Use only bulbs that comply with the specified wattage (max 60W) and E26 base type.
- Do not operate the lamp with a damaged cord or plug. Contact customer support for assistance.
- This lamp is designed for indoor use only. Do not expose to moisture or extreme temperatures.
- Keep the lamp away from flammable materials.
- The weighted base provides stability; however, ensure the lamp is placed on a flat, stable surface to prevent tipping.

3. WHAT'S IN THE BOX

Verify that all components are present before beginning assembly:

- Lamp Pole Sections (multiple, pre-wired)
- Weighted Base
- Lamp Head with E26 Socket
- LED Light Bulb (E26, 6W)
- Foot Switch (integrated into power cord)
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly of your QiMH Industrial Floor Lamp is straightforward and requires no tools. Follow these steps:

1. Carefully unpackage all components and lay them out on a clean, flat surface.
2. Begin by screwing the lowest lamp pole section into the weighted base. Ensure the power cord passes freely through the pole sections.
3. Continue screwing the remaining lamp pole sections together in sequence, ensuring each connection is secure. The internal wiring should remain untwisted.
4. Attach the lamp head (the section with the E26 socket) to the top pole section.
5. Gently pull any excess power cord from the bottom of the base to ensure a snug fit for all pole sections.
6. Screw the provided LED light bulb into the E26 socket in the lamp head. Do not overtighten.

Assembly diagram illustrating the simple screw-together design of the lamp poles.

Video demonstrating the assembly process of the QiMH Industrial Floor Lamp, including connecting the pole sections and attaching the base.

5. OPERATING INSTRUCTIONS

To operate your QiMH Industrial Floor Lamp:

1. Plug the lamp's power cord into a standard 120V AC electrical outlet.
2. Locate the foot switch on the power cord.
3. Gently press the foot switch with your foot to turn the lamp ON.
4. Press the foot switch again to turn the lamp OFF.

The lamp provides ample light for reading and other activities.

Video demonstrating the simple operation of the foot switch to turn the lamp on and off.

6. MAINTENANCE

Cleaning

- Before cleaning, ensure the lamp is unplugged from the power outlet.
- Wipe the lamp's metal surfaces with a soft, dry cloth. Do not use abrasive cleaners or solvents, as these may damage the finish.

Bulb Replacement

- Ensure the lamp is unplugged and the bulb has cooled completely before attempting to replace it.
- Unscrew the old bulb counter-clockwise from the E26 socket.
- Screw in a new E26 base bulb (maximum 60W) clockwise until secure.

Change the bulb create your own style

Compatible with a variety of E26 bulbs(a LED bulb include)

The E26 socket is compatible with a variety of bulb shapes and styles.

Standard Medium E26 Bulb Holder

Detail of the E26 standard medium bulb holder, supporting up to 60W.

7. TROUBLESHOOTING

- **Lamp not turning on:**
 - Check if the power cord is securely plugged into the outlet.
 - Ensure the light bulb is screwed in correctly and is not burnt out. Replace if necessary.
 - Verify that the wall outlet is functional by plugging in another device.
- **Lamp is unstable:**
 - Ensure all pole sections are tightly screwed together.
 - Place the lamp on a flat, level surface.
