XTRONS HD908D

XTRONS 9-Inch Dual Car Headrest DVD Player Instruction Manual

Model: HD908D
Brand: XTRONS

1. PRODUCT OVERVIEW

The XTRONS 9-inch Dual Car Headrest DVD Player provides in-car entertainment for rear-seat passengers. This system features a slot-load DVD drive, HDMI input, USB, and SD card support, along with IR capabilities for wireless headphones. The high-resolution monitors offer a comfortable viewing experience from various angles.
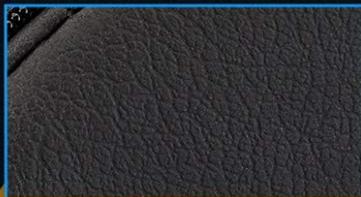

9 Inch Comfortable Viewing Screen

Excellence in Comfort-9" high resolution monitors are the perfect choice for visual experience from different rear-seat angles.

2. SETUP AND INSTALLATION

Follow these steps to properly install your XTRONS headrest DVD player in your vehicle:

1. **Remove Original Headrest:** Carefully remove the original headrest from your car seat.

2. **Install Headrest Player:** Take out the steel tubes from the accessory kit and insert them into the headrest player.

3. **Select Plastic Pipe:** Check the size of the original car headrest's pole. Select a suitable plastic pipe from the accessory kit to ensure a snug fit. If the size of the original pole matches the provided pole, no plastic pipe is required.

4. **Route Installation Cable:** Pass the installation extension cable through the pole hole to the car seat. Pull out the joint from under the car seat by hand.

5. **Connect Power Cable:** Connect one end of the extension cable to the headrest player and the other end to the power cable.

6. **Power Supply:** Connect the power cable through the car charger or ACC power supply.
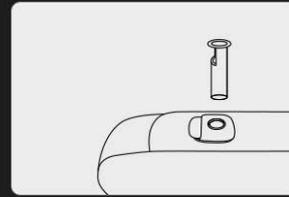

How to Get Started to Use It
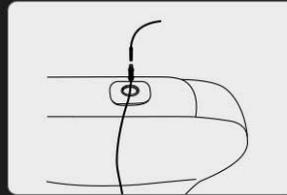

1. Remove the original headrest of the car.

2. Take out the steel tube from the accessory kit and put it on the headrest player.

3. Check the size of the original car headrest's pole and select a suitableplastic pipe to install.
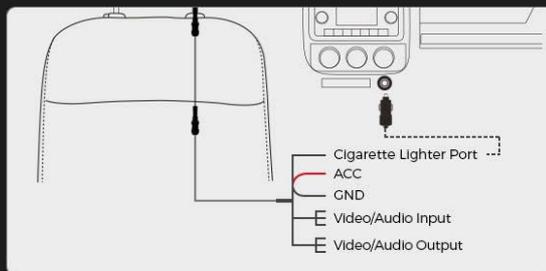

4. If the size of the original pole is the same as the provided pole of the machine, no plastic pipe is required.

5. Pass the installation extension cable through the pole hole to the car seat, and pull out the joint from under the car seat by hand.

6. Connect one end of the extension cable to headrest and the other end to the power cable.

7. Connect the power cable through car charger or ACC power supply.

3. OPERATING INSTRUCTIONS

The XTRONS headrest DVD player offers flexible operation for individual or shared viewing experiences.

- **Controls:** The unit features easy-to-use touch buttons located on the front panel for power, volume, setup, mode, and media navigation.

- **Remote Control:** Each unit comes with a dedicated remote control for convenient operation from a distance.

- **Dual Screen Functionality:** The system supports playing the same DVD simultaneously on both screens or playing different content on each screen independently.

- **Audio Options:** Sound is built into the unit. For private listening, connect IR headphones (included) or wired headphones via the headphone jack.

4. MEDIA INTEGRATION

The headrest DVD player supports various media formats and connectivity options:

- **Slot-Load DVD Drive:** Insert DVDs directly into the slot for playback. Compatible formats include AVI, DVD, DVD+R, DVD-R, DVD+RW, DVD-RW, MP3, CD, CD-RW, and JPEG.
- **HDMI Input:** Connect external devices such as mobile phones, Xbox, or Nintendo Switch via the built-in HDMI port to display content on the 9-inch screen.
- **USB and SD Card Support:** Play audio and video files directly from USB drives or SD cards.
- **Games:** The system supports 32-bit games, with a game disc included in the package.

5. MAINTENANCE

To ensure the longevity and optimal performance of your XTRONS headrest DVD player, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior surfaces. Avoid abrasive cleaners or solvents.

- **Disc Care:** Handle DVDs and CDs by the edges to prevent fingerprints and scratches. Store discs in their cases when not in use.

- **Detachable Cover:** Utilize the detachable zipper flap cover to protect the screen and unit when not in use or when leaving the vehicle.

- **Cable Management:** Ensure all cables are properly routed and secured to prevent damage or entanglement.

6. TROUBLESHOOTING

If you encounter any issues with your headrest DVD player, refer to the following common troubleshooting tips:

- **No Power:** Ensure the power cable is securely connected to both the unit and the car's power source. Check the car charger or ACC power supply for proper function.

- **No Disc Read:** Verify that the DVD or CD is clean and free of scratches. Ensure the disc is inserted correctly into the slot-load drive.

- **No Sound:** Check the volume settings on the unit and the remote control. If using headphones, ensure they are properly plugged in or connected via IR.

- **Poor Picture Quality:** Ensure all video cables (HDMI, AV) are securely connected. Check the source device for proper output settings.

- **Remote Not Responding:** Check and replace the remote control batteries if necessary. Ensure there are no obstructions between the remote and the unit's IR receiver.
