

GIVERARE CL1-3

GIVERARE 3-Digit Combination Lock Instruction Manual

Model: CL1-3

1. PRODUCT OVERVIEW

The GIVERARE 3-Digit Combination Lock provides a secure, keyless solution for various applications. Its robust design and resettable combination feature offer convenience and protection for your belongings. This lock is designed for moderate security needs, suitable for luggage, lockers, and gates.

Key Features:

- **3-Digit Combination:** Offers up to 1,000 unique combinations for enhanced security.
- **Durable Construction:** Features a zinc-coated zinc alloy lock body and a hardened steel shackle for resistance against rust, corrosion, and cutting.
- **Versatile Design:** Compact and lightweight, with a 0.15-inch shackle that fits most standard zippers and lock holes.
- **Easy Resettable Dial:** Patented internal mechanisms ensure smooth operation and simple combination setting.
- **Weatherproof:** Designed to withstand various environmental conditions.

2. SETUP: SETTING YOUR COMBINATION

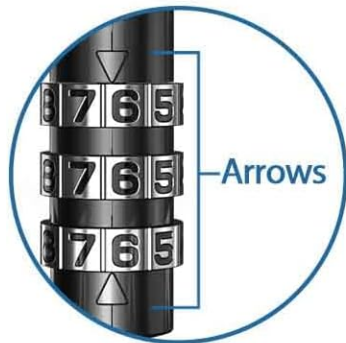

Your GIVERARE combination lock comes with a factory preset combination of **0-0-0**. Follow these steps to set your personalized combination:

1. Align the dials to the original combination **0-0-0**, ensuring the numbers are precisely aligned with the arrows on the side of the lock.
2. Pull up the shackle to open the lock.
3. Rotate the shackle 90 degrees counter-clockwise.
4. Press the shackle down firmly until the small hook on the bottom of the shackle enters the hole.
5. While holding the shackle down, rotate it another 45 degrees counter-clockwise to hold it in place.

6. Set your desired 3-digit combination by turning the dials. Ensure the numbers are clearly aligned with the indicator marks.
7. Once your new combination is set, pull up the shackle to release it from the set position.
8. Rotate the shackle back to its original closed position and press it down to lock.
9. Scramble the dials to secure your new combination.

Note: When setting your new combination, always ensure the desired numbers are aligned exactly with the arrows.

HOW TO USE & SET NEW COMBINATION

1. The original is 0-0-0, align the dials exactly to 0-0-0 with the arrows on the side.

2. Pull up the shackle to open and rotate the shackle 90° counterclockwise.

3. Press down the shackle to make the small hook on the bottom of the shackle enter into the hole, rotate another 45° counterclockwise to hold on the hook.

4. Set your own combination, rotate and pull up the shackle back to lock, scramble the dials.

Note: When setting your own combination, please align the desired number exactly with the arrows.

COMBINATIONS

The combo is read from the side for easy reading.
Suitable for both left-handed and right-handed users

Image: The lock's dials are designed for easy reading, suitable for both left-handed and right-handed users.

3. OPERATING THE LOCK

To open the lock, align the dials to your set combination. The shackle will release, allowing you to open it. To close, simply press the shackle back into the lock body and scramble the dials to secure it.

Recommended Uses:

- Luggage and travel bags
- Gym and school lockers
- Employee lockers
- Backyard gates and fences
- Hasps and cases
- Briefcases and laptop bags

WIDE USAGE

4. MAINTENANCE

The GIVERARE combination lock is designed for durability and weather resistance. To ensure its longevity and smooth operation:

- Keep the lock clean from dirt and debris, especially around the dials and shackle mechanism.
- Periodically apply a small amount of graphite lubricant (e.g., from a pencil tip) to the shackle and dial mechanisms if they become stiff. Avoid oil-based lubricants as they can attract dirt.
- While the lock is weatherproof, prolonged exposure to extreme conditions may affect its finish.

5. TROUBLESHOOTING

Lock is difficult to open or stuck:

- **Check Combination Alignment:** Ensure all three digits of your combination are perfectly aligned with the indicator marks. Even a slight misalignment can prevent the lock from opening.
- **Verify Combination:** Double-check that you are using the correct combination. If you have multiple locks, ensure you are using the combination specific to that lock.
- **Apply Pressure:** Sometimes, a firm but gentle pull on the shackle while the correct combination is set can help release it if it's slightly jammed.
- **Lubrication:** If the dials or shackle feel stiff, apply a small amount of graphite lubricant as described in the Maintenance section.
- **Resetting Issue:** If the lock became stuck during the combination setting process, it might not have fully registered the new combination. Reattempt the setting procedure carefully.

If the lock remains stuck or unresponsive after following these steps, please refer to the Warranty and Support section for further assistance.

6. SPECIFICATIONS

Brand	GIVERARE
Model Number	CL1-3
Lock Type	Combination Lock
Material	Metal (Zinc Alloy body, Hardened Steel shackle)
Color	Black
Item Dimensions (L x W x H)	1.18 x 0.59 x 2.56 inches
