

Epson V11H982040

Epson EB-X49 XGA Projector User Manual

Model: V11H982040

1. INTRODUCTION

This manual provides essential instructions for the safe and efficient use of your Epson EB-X49 XGA Projector. Please read this manual thoroughly before operating the projector and retain it for future reference. Adherence to these instructions will ensure optimal performance and longevity of your device.

Safety Precautions

- Do not block ventilation openings. Ensure adequate space around the projector for proper airflow.
- Avoid looking directly into the projector lens when the lamp is on, as the bright light can cause eye damage.
- Do not place the projector on an unstable cart, stand, or table.
- Disconnect the power cord from the wall outlet if the projector will not be used for an extended period.
- Refer all servicing to qualified service personnel.

2. PRODUCT OVERVIEW

Familiarize yourself with the components of your Epson EB-X49 projector.

Figure 2.1: Front and Side View. This image displays the front and side of the Epson EB-X49 projector, highlighting the lens, ventilation grilles, and the Epson branding. The adjustable feet are visible at the bottom.

Figure 2.2: Rear Panel. This image shows the rear panel of the projector, detailing the various input and output ports including HDMI, VGA (Computer1, Computer2), USB-B, Video, Audio (L/R, Audio1, Audio2), Monitor Out, and RS-232C for control.

Figure 2.3: Top Control Panel. This image illustrates the top surface of the projector, featuring the control panel buttons for power, menu navigation, source selection, keystone correction, and status indicators for lamp and temperature.

3. SETUP

3.1 Projector Placement

Place the projector on a stable, flat surface or mount it securely to a ceiling. Ensure the projector is positioned at an appropriate distance from the screen to achieve the desired image size. Avoid placing it in direct sunlight or near heat sources.

3.2 Power Connection

1. Connect the supplied power cord to the projector's AC inlet.
2. Plug the other end of the power cord into a grounded electrical outlet.

3.3 Connecting Input Sources

The EB-X49 projector supports various input sources:

- **HDMI:** For high-definition digital video and audio. Connect an HDMI cable from your source device (e.g., laptop, Blu-ray player) to the projector's HDMI port.
- **VGA (Computer1, Computer2):** For analog video input. Connect a VGA cable from your computer to either Computer1 or Computer2 port.
- **USB-B:** For USB display or control.
- **Video (RCA):** For standard definition analog video.
- **Audio (L/R, Audio1, Audio2):** For analog audio input.
- **Ethernet:** For network connectivity and control.

3.4 Optional Wi-Fi Setup

If your model includes optional Wi-Fi support, you may need to install a compatible wireless LAN adapter (sold separately) into the designated USB port. Refer to the adapter's documentation for specific installation and network connection instructions.

4. OPERATING THE PROJECTOR

4.1 Powering On/Off

- **To Power On:** Press the power button on the projector's control panel or remote control. The status indicator will turn blue.
- **To Power Off:** Press the power button again. A confirmation message may appear. Press the power button a second time to confirm shutdown. Allow the projector to cool down before unplugging.

4.2 Selecting an Input Source

Press the **Source Search** button on the control panel or the corresponding input button on the remote control (e.g., HDMI, Computer) to cycle through available input sources.

4.3 Adjusting the Image

- **Focus:** Rotate the focus ring on the lens until the image appears sharp.
- **Zoom:** Adjust the zoom ring on the lens to change the image size.
- **Keystone Correction:** If the image is trapezoidal, use the keystone correction buttons (vertical and horizontal) on the control panel or remote to square the image. The EB-X49 features advanced keystone correction for easy adjustment.

4.4 Menu Navigation

Press the **Menu** button to access the projector's on-screen display (OSD) menu. Use the arrow buttons to navigate and the **Enter** button to select options. Press **Esc** to exit the menu.

5. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your projector.

5.1 Cleaning the Air Filter

The air filter prevents dust from entering the projector and affecting performance. Clean the air filter regularly (e.g., every 100 hours of use or as indicated by the projector). Remove the filter cover, gently remove the filter, and clean it with a small vacuum cleaner or soft brush. Replace the filter and cover securely.

5.2 Lamp Replacement

The projector lamp has a finite lifespan. When the lamp life is nearing its end, a warning message may appear, or the **Lamp** indicator on the control panel may illuminate. To replace the lamp:

1. Turn off the projector and unplug the power cord.
2. Allow the projector to cool completely (at least one hour).

3. Locate the lamp cover (refer to your projector's diagram for exact location).
4. Remove the screw(s) securing the lamp cover and open it.
5. Loosen the screw(s) holding the lamp module in place and carefully pull out the old lamp.
6. Insert the new genuine Epson replacement lamp, ensuring it is seated correctly.
7. Tighten the lamp module screw(s) and replace the lamp cover.
8. Plug in the power cord and reset the lamp timer through the projector's menu.

Note: Always use genuine Epson replacement lamps to ensure compatibility and safety.

5.3 General Cleaning

Wipe the projector's exterior with a soft, dry cloth. For stubborn dirt, use a cloth lightly dampened with water and a mild detergent. Do not use abrasive cleaners or solvents. Clean the lens gently with a lens cleaning cloth designed for optical surfaces.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your projector.

Problem	Possible Cause	Solution
No image displayed	• Power cord disconnected • Input source not selected • Source device not powered on or connected • Lens cap on	• Check power connections • Select correct input source • Ensure source device is on and connected • Remove lens cap
Image is distorted or blurry	• Focus not adjusted • Keystone not corrected • Projector not perpendicular to screen	• Adjust focus ring • Use keystone correction • Reposition projector
"Temperature Error" message or projector shuts down	• Overheating due to blocked vents • Dirty air filter • High ambient temperature	• Ensure vents are clear • Clean or replace air filter • Operate in a cooler environment • Allow projector to cool down before restarting

Problem	Possible Cause	Solution
No sound	• Volume too low or muted • Audio cable not connected • Incorrect audio input selected	• Increase volume, unmute • Connect audio cable (if not using HDMI audio) • Select correct audio input
Remote control not working	• Batteries depleted or incorrectly inserted • Obstruction between remote and projector	• Replace batteries, check polarity • Remove obstructions, point remote directly at projector's IR receiver

7. SPECIFICATIONS

Feature	Specification
Model	V11H982040
Display Type	LED
Resolution	1024 x 768 (XGA)
Brightness	3600 lumens
Aspect Ratio	4:3
Connectivity	HDMI, D-Sub (VGA), USB, Ethernet
Special Features	Portable, Optional Wi-Fi support
Product Dimensions (LxWxH)	37.5 x 35 x 15.5 cm
Item Weight	2.7 kg
Noise Level	37 dB
Wattage	327 Watts
Compatible Devices	Laptops, Smartphones, Gaming Consoles, Blu-ray Players, Desktop Computers, Tablets

8. WARRANTY AND SUPPORT

8.1 Warranty Information

The Epson EB-X49 Projector comes with a **1-year warranty from the date of purchase**. Please retain your proof of purchase for warranty claims. The warranty covers manufacturing defects under normal use. It does not cover damage caused by misuse, accidents, unauthorized repairs, or consumable parts such as the

lamp (which may have a separate warranty period).

8.2 Customer Support

For technical assistance, troubleshooting beyond this manual, or warranty service, please contact Epson customer support. You can find contact information and additional resources, including updated drivers and FAQs, on the official Epson website: www.epson.com/support.

EB-X49

Combines the versatility to be positioned just about anywhere with excellent brightness and sharpness, plus low-maintenance performance.

Presentations become effortless, with the slim, sleek EB-X49, which offers great performance in a remarkably versatile package. Long lamp life and trusted Epson durability offer peace of mind and minimal maintenance.

Bright, vivid content on a large scalable screen
Enjoy large scale presentations with crisp, clear text, as well as compelling images and video content, in screen sizes up to 300 inches. 3,000 lumens performance combined with a high contrast ratio of 16,000:1 to offer outstanding visual performance, even in well-lit rooms.

Years of uninterrupted meetings
With a lamp life up to 12,000 hours in Eco mode.

Installation and placement flexibility
Automatic vertical and horizontal keystone correction provide greater flexibility as to where the projector can be placed in the room for distortion-free images and the wide optical zoom adds to the flexibility.

Network and wireless (optional)
Network capability via RJ45 and optional wireless connectivity mean the EB-X49 can be shared by company networks or upgraded for wireless device access at a later stage.

High-quality sound
This projector has a built-in 5W speaker to allow audio content to be heard clearly, without the need for additional external speakers.

Combines the versatility to be positioned just about anywhere with excellent brightness and sharpness, plus low-maintenance performance.

Presentations become effortless, with the sharp, stable EB-X49, which offers great performance in a remarkably versatile package. Long lamp life and trusted Epson durability offer ease of mind and minimal maintenance.

Bright, vivid content on a large scaleable screen.

Enjoy large scale presentations with crisp, clear text, as well as compelling imagery and video content, on screen sizes up to 300 inches. 3,600 lumen performance combined with a high contrast ratio of 10,000:1 to offer outstanding visual performance, even in well-lit rooms.

Years of uninterrupted meetings.

With a lamp life of up to 12,000 hours in Eco mode.

Installation and placement flexibility.

Automatic vertical and manual horizontal keystone correction provide greater flexibility as to where the projector can be placed in the room for distraction-free images and the wide optical zoom adds to the flexibility.

Network and wireless (optional).

Network capability via RJ45 and optional wireless connectivity mean the EB-X49 can be added to a company network or upgraded for wireless device access at a later stage.

High-quality sound.

The projector has a built-in 5W speaker to allow audio content to be heard clearly, without the need for additional external speakers.

KEY FEATURES

- **High-quality bright images**
3LCD technology and equally high white and color light output.
- **Portable**
Small and light enough to be carried and used across several rooms.
- **Wide connectivity options**
Network-enabled and wireless capable.
- **Low total cost of ownership**
Lamp life up to 12,000 hours in Eco mode.
- **Flexible and flexible control**
Projector has built-in 5W speaker with HDMI and optional wireless connectivity.

EB-X49

FICHE TECHNIQUE

Ce projecteur qui peut s'installer presque partout allie polyvalence, excellente luminosité et faible besoin en maintenance.

Realiser une séance ou présentation grâce à l'élégant modèle EB-X49, qui vous offre une performance remarquable dans un format exceptionnellement compact. Le progrès du temps et la grande fiabilité des produits Epson sont synonymes de sécurité et de maintenance réduite.

Un contenu lumineux et adapté en grand format Actual!
Profil de présentation à grande échelle avec des textes nets et précis, ainsi qu'un contenu vidéo et des images haute-contraste pouvant atteindre 300 pouces. Son rendement lumineux de 3,000 lumens offre à son tour de contrastes élevés de 16,000:1 offre des performances visuelles exceptionnelles, même dans les salles bien éclairées.

Des années de réunions sans interruption
Sa durée maximale de durée de vie allant jusqu'à 12,000 heures en mode Eco.

Flexibilité de réglage et de l'installation
La conception verticale automatique et horizontale manuelle du trépied offre une plus grande liberté de positionnement du projecteur dans la salle pour des images sans déformation. Son large zoom optique offre également davantage de flexibilité.

Représentez-vous en Wi-Fi en option
Grâce à la capacité réseau (RJ45) et à la connectivité Wi-Fi en option, le modèle EB-X49 peut être intégré à un réseau d'impression ou connecté à un appareil sans fil ultérieurement.

Son de haute qualité
Ce projecteur dispose d'un haut-parleur 5 W intégré permettant d'entendre clairement le contenu audio, sans avoir à utiliser d'enceintes externes supplémentaires.

EB-X449

KEY FEATURES

- **High-quality bright images**
LCD technology and exclusive high white LED Color Light Output
- **Portability**
Small and light design, easy to carry and use across various locations
- **Network enabled** and **remote capable**
- **Low total cost of ownership**
Runs up to 15,000 hours in Eco-Mode
- **Wireless and flexible control**
Supports third-party wireless and mobile devices connectivity

Combines the versatility to be positioned just anywhere with excellent brightness and sharpness, plus low-maintenance performance.

Presentation becomes effortless, with the sharp, vibrant EB-X449, which offers great performance in a remarkably versatile package. Long lasting and trusted Epson durability offer peace of mind and minimal maintenance.

Bright, vivid content with large visible areas

Enjoy large-size presentations with crisp, clear text, as well as compelling images and video content, in screen sizes up to 300 inches. 3,000-contrast picture processors with a high contrast ratio of 16,000:1 offer outstanding viewing performance, even in well-lit rooms.

Years of uninterupted meetings

With a life of up to 15,000 hours in Eco-Mode.

Installation and placement flexibility

Automatic, vertical and manual horizontal bezel-clip handles provide greater flexibility as to where the projector can be placed in the room for attractive line-art and the ideal vertical angle suits the facility.

Network and remote control

Network-capable LAN and optional wireless connectivity means the EB-X449 can be added to a company network or upgraded for wireless device access at a later stage.

High-quality sound

This projector has a built-in 5W speaker to allow audio content to be heard clearly, without the need for additional speakers.

EB-X49

Combines the versatility to be positioned just about anywhere with excellent brightness and sharpness, plus low-maintenance performance.

Presentations become effortless, with the sharp, stable EB-X49, which offers great performance in a remarkably versatile package. Long lamp life and robust Epson durability offer peace of mind and minimal interruptions.

Bright, vivid content on a large scalable screen

Enjoy large scale presentations with crisp, clear text, as well as compelling images and video content, in rooms from up to 300 inches. 3,600 lumens performance combined with a high contrast ratio of 16,000:1 to offer outstanding visual performance, even in well-lit rooms.

Years of uninterrupted meetings

With a lamp life of up to 12,000 hours in Eco mode.

Installation and placement flexibility

Automatic vertical and horizontal keystone correction provide greater flexibility as to where the projector can be placed in the room for disruption-free images and the wide optical zoom adds to the flexibility.

Network and wireless (optional)

Network capability via RJ45 and optional wireless connectivity mean the EB-X49 can be added to company networks or upgraded for wireless device access at a later stage.

High-quality sound

This projector has a built-in 5W speaker to allow audio content to be heard clearly, without the need for additional external speakers.

EB-X49

Combina la versatilidad de poderse colocar prácticamente en cualquier lugar con una excelente luminosidad y nitidez, además de un elevado rendimiento con bajo mantenimiento.

Las presentaciones se realizan en cualquier lugar con el potente EB-X49, que proyecta imágenes vívidas y ofrece un rendimiento excelente en un dispositivo tan versátil. La alta vida de la lámpara y la alta fiabilidad de Epson ofrecen tranquilidad y un mantenimiento mínimo.

Contenido vívido y claro en una pantalla escalable de gran tamaño

Disfrute de presentaciones a gran escala con texto nítido y claro, así como de una proyección de imágenes y vídeo en salas de hasta 300 pulgadas. 3.600 lúmenes combinados con una relación de contraste de 16.000:1 para ofrecer un rendimiento visual excepcional, incluso en salas bien iluminadas.

Años de reuniones sin interrupción

Con una vida útil de la lámpara de hasta 12.000 horas en modo Eco.

Flexibilidad de instalación y colocación

La corrección automática vertical y horizontal de la imagen garantiza mayor flexibilidad a la hora de colocar el proyector en la habitación sin interrumpir la imagen. El amplio zoom óptico permite ampliar la imagen de la instalación.

Red e inalámbrico (opcional)

La conectividad de red (RJ45) y la conectividad inalámbrica opcional permiten integrar el EB-X49 en la red de la empresa o para una eventual actualización para el acceso desde dispositivos inalámbricos.

Sonido de alta calidad

Este proyector dispone de un altavoz de 5W incorporado para permitir un sonido limpio del contenido de audio sin necesidad de utilizar otros altavoces externos adicionales.

EB-X49

FICHE TECHNIQUE

Ce projecteur peut s'installer presque partout sans polyvalence, excellente luminosité et faible besoin en maintenance.

Realiser avec aisance vos présentations grâce à l'élégant modèle EB-X49, qui vous offre des performances exceptionnelles dans un format remarquablement compact. L'extrême silence et la grande durée de vie de la lampe vous offrent une tranquillité d'esprit et de maintenance réduites.

Un contenu lumineux et éblouissant en grand format résolu

Profitez de présentations à grande échelle avec des textes nets et précis, ainsi qu'un contenu vidéo et des images haute résolution d'environ 100 pixels. Son contraste lumineux de 10 000:1 permet d'afficher à tout moment des contrastes élevés de 10 000:1. Offre des performances d'image exceptionnelles, même dans les salles bien éclairées.

Des services de réseaux sans interruption

Un réseau capable d'une durée de vie allant jusqu'à 12 000 heures en mode Eco.

Flexibilité de réglage et de l'installation

La correction automatique et manuelle de la trape offre une plus grande liberté de positionnement du projecteur dans la salle pour des images sans déformation. Son angle avant réglable permet également d'ajuster les hauteurs.

Réseau et Wi-Fi (en option)

Grâce à la connectivité réseau (RJ45) et à la connectivité Wi-Fi en option, le modèle EB-X49 peut être intégré à un réseau d'entreprise ou connecté à un appareil sans fil.

Son de haute qualité

Ce projecteur dispose d'un haut-parleur 5 W intégré permettant d'entendre clairement le contenu audio, sans avoir à utiliser d'enceintes externes supplémentaires.

CARACTÉRISTIQUES PRINCIPALES

- Images lumineuses de haute qualité
 - Technologie 3LCD et source de lumière à haute efficacité lumineuse
- Mobile
 - Petit et suffisamment léger pour être transporté et utilisé dans plusieurs salles
- Performances optiques de connectivité
 - Prise en charge de réseaux
- Facile d'installer et d'installer
 - Grâce à sa conception simple et à sa conception simple
- Contrôle amélioré et flexible
 - Prise en charge de sources de contenu audio et vidéo et d'un contrôle sans fil

EB-X49

DATENBLATT / BROSCHÜRE

Der Projektor lässt sich nahezu überall aufstellen. Er bietet eine hervorragende Helligkeit und Schärfe und einen geringen Wartungsaufwand.

Mit herausragender, mühelosen und mühelosen EB-X49 lassen sich geschulten, schnell professionellen Inhalten abgeben. Die lange Lebensdauer der Lampe und die hohe Zuverlässigkeit für die Daten lassen Sie einen hervorragenden Service zu einem Minimum.

Helle, lebendige Bilder in Großformat
Genießen Sie Präsentationen in Großformat mit gestrichelten Tönen und einer überlegenen Bild- und Klangqualität in einer Präsentation von bis zu 300 Zoll (7,62 m). 3LCD-Lichtstrahlensystem und ein innovatives Eco-Modus mit 12.000 Stunden Lebensdauer sorgen für einen hervorragenden Service, auch bei schwachen Lichtverhältnissen.

Ununterbrochene Meetings – mühelos
Der Projektor arbeitet mit bis zu 12.000 Stunden in Eco-Modus, sorgt für geringsten Service und Wartungsaufwand.

Flexiblen Installation und Ausrichtung
Automatische vertikale und horizontale Trichterkorrektur sorgen für unverwundliche Bilder unabhängig von Winkel und Abstand für eine perfekte Präsentation beim Ausstellen des Projektors. Die große Flexibilität beim Schwenken sorgt für einen flexiblen Einsatz.

LAN und optionales WLAN
Netzwerkfähig über LAN und optionales WLAN-Anschlusskabel, kann der EB-X49 für ein Unternehmensnetzwerk angeschlossen oder zu einem weiteren Netzwerk für den Zugriff von Wireless-Desktops aufgeschaltet werden.

Leistungsvoller Sound
Der Projektor verfügt über einen integrierten 5-W-Lautsprecher, der Audioinhalte ohne zusätzliche Lautsprecher abspielen kann.

EB-X49

DATASHEET / BROCHURE

Combines the versatility to be positioned just about anywhere with excellent brightness and sharpness, plus low-maintenance performance.

Presentations become effortless, with the sharp, stylish EB-X49, which offers great performance in a remarkably versatile package. Long lamp life and trusted Epson durability offer peace of mind and minimal maintenance.

Bright, vivid content on a large scalable screen
Enjoy large scale presentations with crisp, clear text, as well as compelling imagery and video content, on screen sizes up to 300 inches. 3LCD screen performance combines with a high contrast ratio of 10,000:1 to offer outstanding visual performance, even in well lit rooms.

Years of uninterrupted meetings
With a lamp life of up to 12,000 hours in Eco mode.

Installation and placement flexibility
Automatic vertical and manual horizontal keystone correction provide greater flexibility as to where the projector can be placed in the room for display-free images and the wide optical zoom adds to the flexibility.

Network and wireless (optional)
Network capability (via LAN) and optional wireless connectivity mean the EB-X49 can be added to a company network or upgraded for wireless device access at a later stage.

High-quality sound
The projector has a built in 5W speaker to allow audio content to be heard clearly, without the need for additional external speakers.

EB-X49

DATASHEET / BROCHURE

Συνδυάζει την ευελιξία των ελαφρύων προβολέων με την εξαιρετική φωτεινότητα και ευχρηστικότητα της σχεδίασης, καθώς και τις προηγμένες λειτουργίες.

Με την επένδυση στην τεχνολογία 3LCD, η παρουσίαση της εικόνας γίνεται πολύ πιο καθαρή, χωρίς να υπάρχουν αρтеfacts, όπως η ελαφριά ομίχλη ή η ελαφριά ομίχλη, που είναι χαρακτηριστικά των άλλων προβολέων.

Με την επένδυση στην τεχνολογία 3LCD, η παρουσίαση της εικόνας γίνεται πολύ πιο καθαρή, χωρίς να υπάρχουν αρтеfacts, όπως η ελαφριά ομίχλη ή η ελαφριά ομίχλη, που είναι χαρακτηριστικά των άλλων προβολέων.
