MAINTENANCE AND CARE

Proper care will extend the life and maintain the performance of your Umbro Pro Training Jersey. Always follow the care instructions provided on the garment label.

Washing Instructions

- **Machine Wash:** Wash in cold water with similar colors.
- **Detergent:** Use a mild detergent. Avoid harsh chemicals or bleach, as these can damage the fabric and heat-pressed logos.
- **Drying:** Tumble dry on low heat or hang dry to preserve fabric integrity and prevent shrinking. Avoid high heat.
- **Ironing:** Do not iron directly on heat-pressed logos or designs. If ironing is necessary, use a low setting and iron inside out.
- **Fabric Softeners:** Avoid using fabric softeners, as they can reduce the moisture-wicking properties of the fabric.

TROUBLESHOOTING

This section addresses common concerns regarding athletic apparel.

Common Issues and Solutions:

- **Issue:** Fabric feels less effective at wicking moisture.

Solution: Ensure you are not using fabric softeners during washing, as they can coat the fibers and reduce wicking performance. Wash the jersey with a sports-specific detergent designed to remove residue.

- **Issue:** Heat-pressed logo peeling or cracking.

Solution: This can occur from high heat washing or drying, or direct ironing. Always follow recommended care instructions: wash cold, tumble dry low or hang dry, and do not iron directly on logos.

- **Issue:** Unpleasant odor retention after washing.

Solution: Ensure the jersey is thoroughly dried immediately after washing. Do not leave damp clothing in the washing machine. Consider using a specialized sports detergent to combat odors in synthetic fabrics.
