6. MAINTENANCE

To ensure the longevity and hygiene of your cat tree, follow these maintenance guidelines:

- **Cleaning:** The plush fabric surfaces should be spot cleaned only. Use a damp cloth and mild detergent for small stains. Avoid saturating the material. Do not machine wash or tumble dry.
- **Vacuuming:** Regularly vacuum the plush surfaces to remove loose fur and dust.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Sisal Posts:** The sisal scratching posts are designed to withstand scratching. If they become heavily worn, consider replacing the individual posts if available, or monitor for sharp edges.

7. TROUBLESHOOTING

If you encounter any issues with your FEANDREA Cat Tree, refer to the following common problems and solutions:

- **Instability:** If the cat tree feels wobbly, ensure all screws are tightened. Verify that the anti-tipping kit is correctly installed and securely anchored to a wall stud.

- **Cats Not Using the Tree:** Cats may need time to adjust to new furniture. Try placing the tree in a favorite spot, near a window, or in an area where your cat frequently rests. You can also use catnip spray or treats to attract your cat to the tree.
- **Damaged Parts:** If any part of the cat tree arrives damaged or becomes damaged during use, immediately cease using the product and contact FEANDREA customer service for assistance or replacement parts.
